Grundy County Health Council

The mission of the Grundy County Health Council is to enhance the health and well-being of Grundy County residents. We empower individuals to choose wellness by:

- Increasing opportunities for healthy food and physical activity
- Collaborating with community partners to coordinate efforts and expand reach
- Providing information and education using a multi-generational approach
- Connecting clients with local health resources
- Advocating for community health at a policy level

We devote ourselves to this mission with the knowledge and belief that the health of each individual affects an entire community.

The Grundy County Health Council was created in 1992 with the goal to improve the health of the Grundy County residents and to decrease the health disparities in this rural community. The Council has updated playground equipment, designed and constructed walking tracks in the community, purchased exercise programs for the Senior Citizen's Center and partnered with the school system in providing many programs over the years. The Council has also taught reversing diabetes classes and actively sought opportunities to have a presence at community functions.

The Health Council meets on the 3rd Tuesday of every month at noon in the conference room at the UT Extension office in Coalmont TN.

Everyone is welcome!

27 Phipps St, Coalmont, TN 37313
