

## **Heritage MD Panel**

### **Gender Dysphoria in Children: Understanding the Science and Medicine**

<https://m.youtube.com/watch?v=GOniPhuyXeY>

The video is a panel discussion with 3 “highly qualified” doctors who treat children.

The recurring “activist question“ is asked starting about 1:00:45 - terrific answers from all 3 MDs - you may want to fast forward and begin at the above time before you watch (or listen) to the entire discussion.

I think it is critical for all the adults to hear the scientific medical community instead of the angry activist community.
