Statement of Responsibility
REQUIRED FORM FOR HIGH SCHOOL, JR. HIGH, MIDDLE GRADES AND ELEMENTARY**

The statement below must be signed and returned to the principal's office within one week after the student receives it. State law requires documentation of the receipt of student discipline and student conduct policies by all parents and students.

We have received the Pottsville Handbook for student conduct and discipline policies and although we may not agree with all regulations we understand that the student must adhere to them while he/she is at school or in attendance at school sponsored activities. In the event that we are not entirely certain of some aspect of school policy, we will contact the principal for clarification.

It shall be the policy of the Pottsville School District that the most recently adopted version of the Student Handbook be incorporated by reference into the policies of this district. In the event that there is a conflict between the student handbook and a general board policy or policies, the more recently adopted language will be considered binding and controlling on the matter provided the parent(s) of the student, or the student if 18 years of age or older have acknowledged receipt of the controlling language. **POTTSVILLE SCHOOL DISTRICT PARENT INVOLVEMENT
REQUIRED FORM FOR HIGH SCHOOL, JR. HIGH, MIDDLE GRADES AND ELEMENTARY**

2016-2017 Title I, Part A - Parent Student Compact (K-6)

(See additional information about the District Parental Involvement Plan on pp. 25-27 of handbook and Individual School Plans on building website)

Parent Involvement plays a vital role in the success of every student's education. Studies continuously support that parent and guardian involvement in their children's education at home improves student achievement and that parent involvement at school results in higher long-term student achievement. In compliance with the State of Arkansas Act 603 of 2003 and the Secondary Education Act, Pottsville Schools (K-12) have implemented Parental Involvement Plans to provide a coordinated effort to address student needs. Pottsville Elementary School and Pottsville Middle Grades, and the parents of the students participating in activities, services, and programs funded by Title I, Part A of the Elementary and Secondary Education Act (ESEA) (participating children), agree that this compact outlines how the parents, the entire school staff, and the students will share the responsibility for improved student academic achievement and the means by which the school and parents will build and develop a partnership that will help children achieve the State's high standards.

Student Pledge:

I agree to carry out the following responsibilities to the best of my ability:

- Come to school ready to learn and work hard.
- Bring necessary materials, completed assignments and homework.
- Know and follow school and class rules.
- Give my parents or adult responsible for my welfare all notices and information received by me from my school every day.
- Communicate regularly with my parents and teachers about school experiences so that they can help me to be successful in school.
- Limit my TV watching, video game playing, and internet usage.
- Read at least 30 minutes every day outside of school time.
- Do my homework every day and ask for help when I need to.
- Respect the school, classmates, staff and families.

Family/Parent Pledge:

I agree to carry out the following responsibilities to the best of my ability:

- Monitoring my child's attendance.
- Making sure homework is completed.
- Monitor my child's television viewing, video game playing, and internet usage.
- Read to my child or encourage my child to read every day.
- Staying informed about my child's education and communicating with the school by promptly reading all notices from the school or the school district either received by my child or by mail and responding, as appropriate.
- Participate, as appropriate, in decisions about my child's education.
- Attend parent-teacher conferences.
- Communicate the importance of education and learning to my child.
- Volunteering in my child's school.
- Promoting positive use of my child's extracurricular time.
- Respect the school, staff, students, and families.

School Pledge:

Pottsville K-12 Staff will:

- Provide high-quality curriculum and instruction in a supportive and effective learning environment that enables the participating children to meet the State's student academic achievement standards as follows:
 - Provide a safe and supportive learning environment.
 - Teach classes with an interesting and challenging curriculum that promotes student achievement.
 - Motivate students to learn.
 - Set high expectations and help every child be a successful learner.
- Communicate frequently and hold parent-teacher conferences (at least annually) during which this compact will be discussed as it relates to the individual child's achievement. Conferences will be held on **October 20, 2016 & February 9, 2017**.
- Provide parents with frequent reports on their children's progress. Specifically, the school will send home with the student 5 weeks progress reports on **September 20, 2016; November 22, 2016; and April 18, 2017**.
- In addition to the scheduled parent teacher conferences, parents are encouraged to contact the school to schedule conferences with teachers any time they consider there is a need.
- Provide opportunities for parents to volunteer and participate in their child's classroom, and to observe classroom activities.
- Participate in professional development opportunities that improve teaching and learning and support the formation of partnerships with families and the community.
- Actively participate in collaborative decision making with parents and school colleagues to make our school accessible and welcoming for families.

Pottsville School District's Parental Involvement Plan

The Pottsville School District has developed jointly with parents a parental involvement implementation plan designed to encourage our parents to form strong partnerships with our schools and our schools to reach out to form strong relationships with our parents. We seek additional involvement of parents in support of every phase of their children's education. Each Title I Part A school will also be monitored to ensure that they have a current Parental Involvement Plan, and it is disseminated to parents and the community. Thus, our plan includes the following components and will be made available to our community and to parents by posting it to our district website, placing an ad in local newspaper, and by making copies available at parent and community events. Principals of each school will make sure copies of this policy are made available at the annual school open house events in the fall. In addition, principals of Title I schools (Houston Townsend and Shannon Davis) will make sure copies of the plan will be sent home to parents of participating Title I, Part A children at the beginning of the school year.

STATUTORY REQUIREMENTS

The Pottsville School District agrees to implement the following statutory requirements. Responsible District Staff: Tara Thompson, Shannon Davis, and Houston Townsend.

- The school district will put into operation programs, activities and procedures for the involvement of parents in all of its schools with Title I, Part A programs, consistent with section 1118 of the Elementary and Secondary Education Act (ESEA). Those programs, activities and procedures will be planned and operated with meaningful consultation with parents of participating children.
- Consistent with section 1118, the Pottsville School District will work with its schools to ensure that the required school-level parental involvement policies meet the requirements of section 1118(b) of the ESEA, and each include, as a component, a school-parent compact consistent with section 1118(d) of the ESEA.
- The Pottsville School District will incorporate this district wide parental involvement policy into its LEA plan developed under section 1112 of the ESEA.
- In carrying out the Title I, Part A parental involvement requirements, to the extent practicable, the Pottsville School District and its schools will provide full opportunities for the participation of parents with limited English proficiency, parents with disabilities, and parents of migratory children, including providing information and school reports required under section 1111 of the ESEA in an understandable and uniform format and, including alternative formats upon request, and, to the extent practicable, in a language parents understand.
- If the LEA plan for Title I, Part A, developed under section 1112 of the ESEA, is not satisfactory to the parents of participating children, the Pottsville School District will submit any parent comments with the plan when the school district submits the plan to the State Department of Education.
- The Pottsville School District will involve the parents of children served in Title I, Part A schools in decisions about how the 1 percent of Title I, Part A funds reserved for parental involvement is spent, and will ensure that not less than 95 percent of the one percent reserved goes directly to the schools.
- The Pottsville School District will be governed by the following statutory definition of parental involvement, and expects that its Title I schools will carry out programs, activities and procedures in accordance with this definition:

Parental involvement means the participation of parents in regular, two-way, and meaningful communication involving student academic learning and other school activities, including ensuring—

- (A) that parents play an integral role in assisting their child's learning;
- (B) that parents are encouraged to be actively involved in their child's education at school;
- (C) that parents are full partners in their child's education and are included, as appropriate, in decision-making and on advisory committees to assist in the education of their child; and
- (D) the carrying out of other activities, such as those described in section 1118 of the ESEA.

- The Pottsville School District will inform parents and parental organizations of the ADE Parent Resource website: <http://www.arkansased.org/im-looking-for/parents>.

IMPLEMENTATION

The district will provide coordination, technical assistance, and other support necessary to assist participating schools in planning and implementing effective parental involvement. Tara Thompson will be responsible for making sure that ongoing site visits are conducted throughout the school year at each school to observe parental involvement practices.

1. The Pottsville School District has taken the following actions to involve parents in the joint development of its district wide parental involvement plan under section 1112 of the ESEA: communicating and requesting parental input in the district parental involvement plan

and ensuring parents of children receiving Title I, Part A services are involved in the review/revision/development process. The Parent Involvement Committee members are as follows:

- Tara Thompson, Instructional Supervisor
- Houston Townsend, Principal Pottsville Middle Grades
- Shannon Davis, Principal Pottsville Elementary
- Jennifer Aday, Parent
- Lisa Corbin, Teacher Pottsville Middle Grades
- Jayme Wooten, Teacher Pottsville Elementary

2. The Pottsville School District will take the following actions to involve parents in the process of school review and improvement under section 1116 of the ESEA: encourage the participation of parents in parent groups like the PTO; require schools to seek parent input into school improvement activities in order to meet the educational needs of students; require schools to provide parents with current information regarding school policies and practices through the student handbook; and provide parents with current information regarding school performance data and solicit parent input and feedback. Lisa Corbin, Jayme Wooten and Tara Thompson along with building principals will be responsible for recruiting parents to serve on the school improvement ACSIP committees.
3. The Pottsville School District will provide the following necessary coordination, technical assistance, and other support to assist Title I, Part A schools in planning and implementing effective parental involvement activities to improve student academic achievement and school performance: district personnel will continue to work with the school principals and staff to provide necessary assistance in planning and implementing parental involvement activities; the district will provide meaningful professional development opportunities for teachers and administrators designed to enhance understanding of effective parental involvement strategies with emphasis on the importance of effective communication, value and utility of contributions of parents; provide training at least annually for volunteers who assist in an instructional program for parents; and provide necessary support for each building's school parent involvement plans. Responsible District Staff: Tara Thompson, Shannon Davis, Houston Townsend, Lisa Corbin, and Jayme Wooten.
4. The Pottsville School District will coordinate and integrate parental involvement strategies with parental involvement strategies from other parental involvement programs such as Head Start, HIPPY or other state operated pre-school program. Responsible District Staff: Shannon Davis and Jayme Wooten.
5. The Pottsville School District with Tara Thompson as facilitator will take the following actions to conduct, with the involvement of parents, an annual spring evaluation on March 10, 2017, (tentative) of the content and effectiveness of this parental involvement policy in improving the quality of its Title I, Part A schools. The evaluation will include identifying barriers to greater participation by parents in parental involvement activities (with particular attention to parents who are economically disadvantaged, are disabled, have limited English proficiency, have limited literacy, or are of any racial or ethnic minority background). The school district will use findings of the evaluation about its parental involvement policy and activities to design strategies for more effective parental involvement, and to revise, if necessary (and with the involvement of parents) its parental involvement policies and updating the Title I Program as needed. A survey tool or questionnaire will be used to assist in the evaluation process. This tool will be made available to parents, staff, and the community. Principals at each school will collect surveys and tabulate the results. School results as well as district wide results will be communicated to parents, staff and community along with the opportunity for feedback. Tara Thompson is responsible for making sure the evaluation findings are included in recommendations and suggestions to the schools for revision of school parent involvement plans and practices. Tara Thompson will coordinate the development of an annual parent activity evaluation report to be developed and disseminated to parents, staff and the community. Attendance at parent involvement activities and parent-teacher conferences will be strongly encouraged and attendance documented by each school. Attendance data will be collected, tabulated, reviewed, and evaluated by building principals. School level as well as district level results will be communicated to parents, staff and the community.
6. Considerable thought on the part of the school administration and teachers has gone into the preparation of this handbook hoping that the principles outlined will serve as a guide to you. It is intended that this handbook will in some measure help to make your stay at Pottsville School an enjoyable and profitable one. Keep your handbook as a handy reference for school activities. Each of you will find that your success, happiness, and freedom will be increased if this handbook serves you as it is intended. It is intended that this handbook will give the pupil and his parents a thorough understanding of the organization, policies, and curricular activities offered by the school. This handbook will be used in an orientation for all pupils enrolling in Pottsville School. Each student strives for self-understanding to select worthwhile goals and work toward their achievements. Classroom instruction should have priority over all other programs connected with the school.

DISCIPLINE POLICIES

The student discipline policies contained within this handbook have been developed through the commitment, cooperation, and involvement of the district's administrators, teachers, students, parents, and counselors. This handbook describes the district's expectations of student conduct and specifies the consequences of violating the rules. Appropriate disciplinary action will be determined by the principal and/or his designee and may fall anywhere along the continuum of a minimum action being verbal reprimand to a maximum action of expulsion.

STATEMENT OF PHILOSOPHY

We are committed to the ideals that becoming educated is both a right and a responsibility of all children and that each person is a unique individual whose abilities and talents need direction and guidance. We believe that education is a continuing process through which an individual may achieve personal and social fulfillment. Such fulfillment will enable him/her as an adult to participate fully in the economic, intellectual role in the development of the individual in order that he may become a worthy citizen in the democratic process. It provides him with the necessary tools to make a worthwhile contribution to the society in which he lives. We believe that the development of productive personal work habits, of adaptability, of understanding, of tolerance and the ability to live and work effectively with associates, is of paramount importance not only to the individual but to the perpetuation of our democratic way of life.

PARENT INVOLVEMENT AND EXPECTATIONS

Give your child as much positive encouragement to achieve and develop as positively as you can. Help him or her feel good about himself and about the positive things he accomplishes at home and at school. Work with us in a spirit of cooperation to continually strive to upgrade this school and the school system. Encourage your children to honor, respect, and obey ALL adults and young people who play a role in teaching and supervising their activities. Let your children hear you say good things about teachers, the schools, and school officials. Let us hear of your concerns. Give your children a good foundation for becoming good citizens by being a good model at home. **Conferences:** If you wish to conference with a teacher or principal, please contact the school office and make arrangements for a time convenient for both. **Visits to the School:** Pottsville School District welcomes and encourages visitors to our schools. Parents, Grandparents, legal guardians, business and community members are welcomed and encouraged to visit our schools. However, to minimize the potential for disruption of the learning environment and for the safety of our students and staff, any person wishing to visit a school building or school grounds, other than to attend an activity open to the general public, must first present himself or herself to the school office. Visitors must register with the office to receive permission to visit and a pass to indicate that proper permission has been granted. No one shall be exempt from these requirements. These requirements shall not be construed to prohibit any person who has a legitimate reason to visit any school from visiting it. Visitors are asked to practice confidentiality when it is related to children, schools, faculty and staff.

TITLE VI, TITLE IX, SECTION 504

No person in the Pottsville School District shall on the grounds of race, color, national origin, or sex be excluded from participating in, be denied the benefits or, or be subjected to discrimination under any program or activity receiving Federal financial assistance. Pottsville School District will not carry out any course or otherwise provide any of its education or activity separately on the basis of sex, or require or refuse participation therein by any of its students on such basis, including health, physical education, industrial, business, vocational, technical, home economics, music and adult education courses. When a particular class contains a substantially disproportionate number of individuals of one sex, the school principal shall take such action as is necessary to assure that such disproportion is not the result of discrimination on the basis of sex in counseling or appraisal materials or by counselors.

GRIEVANCE PROCEDURES

In compliance with Pottsville School Board Policies a student or parent who has a complaint should first contact the person immediately responsible. If the person who is responsible is a teacher, an appointment will be made for a conference with that individual at the appropriate time. If the matter is not satisfactorily resolved, the principal should then be contacted at school. If the principal cannot resolve the situation, the complainant may contact the superintendent. The superintendent's decision may be appealed to the school board. Personnel may be contacted by phoning the applicable school office or the superintendent's office at 968-8101. TESTING, REMEDIATION & RETENTION

All students are required to participate in the statewide program of educational assessment required by the State Board of Education. In accordance with Act 35, each student identified as not passing the test (i.e. scoring proficient or advanced) shall participate in remediation activities. Each student will have an individualized academic improvement plan (AIP) that focuses on the areas in which he/she did not pass. Pottsville School District will notify parents of the remediation requirements and retention consequences for failure to participate in required remediation. Promotion/retention of students with an Individual Educational Plan (IEP) shall be based on their successful attainment of the goals set forth in their IEP. Fifth grade students that do not perform at the proficient or advanced level on the state mandated exam will not be allowed to participate in beginning band in sixth grade. Instead, those students will be scheduled for remediation.

Beginning with the 2005-06 school year, any student required to take a state required assessment and identified as not passing the test will be required to participate in remediation activities. The individualized academic improvement plan will focus on those areas in which the student failed to pass on the test. If the student does not participate in the remediation program, he/she will not receive credit on the course connected to the test.

Students who do not score proficient or above on their grade level state required exams shall be required to participate in individualized academic improvement plan (AIP). Each AIP shall be developed by school personnel and the student's parents and shall be designed to assist the student in attaining the expected achievement level. The AIP shall also state the parent's role as well as the consequences for the student's failure to participate in the plan, which shall include the student's retention in their present grade.

All students must successfully pass all state mandated assessments they are required to take unless exempted by the student's individualized education program (IEP). To receive academic credit on his/her transcript in a course requiring a student to take a state/EOC assessment, the student must either receive a passing score on the initial assessment or successfully participate in the remediation program identified in his/her IAIP which shall focus on the areas in which the student failed to meet the necessary passing score. Additionally, the lack of credit could jeopardize the student's grade promotion or classification.

Act 1081 of 2013, recently signed into law, removes the requirement for students to take, and successfully complete, high stakes end-of-course assessments. This means that a student who did not obtain proficiency on the Algebra I state assessment may still receive credit for Algebra I if the student participates in remediation activities as required by the student's Individualized Academic Improvement Plan. Students must also pass the underlying Algebra I class.

Promotion/retention or graduation of students with an Individual Educational Plan (IEP) shall be based on their successful attainment of the goals set forth in their IEP.

Recognizing that grades 1 and 2 are the years for which a pupil's academic foundation is set, a pupil, for the second semester grading period, shall have a semester grade no lower than 2/D- in any subject, with the exception of music, PE, art and conduct, and/or absences not to exceed 14 days. Building on that foundation in order to insure continued academic success, a pupil enrolled in grades 2-3, for the second semester grading period, shall have no more than one F in any subject, with the exception of music, PE, art, and conduct, and/or absences not to exceed 14 days. A committee consisting of the pupil's teacher, the counselor, the principal or designee, other teachers who worked with the pupil, and the parent will reach a consensus as to the most appropriate action to take with each student being considered for retention. If the conference attendees fail to agree concerning the student's placement, the final decision to promote or retain shall rest with the principal.

Any student in Grades 4-6 with two (2) or more F's on his/her report card for the semester grading period could be considered for retention. However, there will be a committee meeting at the end of the third nine weeks to determine retention. The committee will be composed of all interested parties, teachers, administration, counselor, and parents. If your child is recommended by the committee to be retained and you as the parent or guardian choose to promote your child, you will be asked to sign a retention waiver. This waiver states that you are releasing the Pottsville School District of all future educational liabilities.

To the extent required by the State Board of Education, students in grade eleven (11) and below who do not meet the required score on a college and career readiness measurement shall participate in the remediation activities prescribed in his/her IAIP which may include additional opportunities to retake the measurement.

Promotion or retention of Grades 7-9 students shall be primarily based on the following criteria (See the following paragraph). If there is doubt concerning the promotion or retention of a student, before a final decision is made, a conference between the parents/guardians, teacher(s), other pertinent personnel, and principal shall be held. The conference shall be held at a time and place that best accommodates those participating in the conference. The school shall document participation or non-participation in required conferences. If the conference attendees fail to agree concerning the student's placement, the final decision to promote or retain shall rest with the principal.

Any student with two (2) or more F's on his/her report card for the semester grading period could be considered for retention. However, there will be a committee meeting at the end of the third nine weeks to determine retention. The committee will be composed of all interested parties, teachers, administration, counselor and parents. If your child is recommended by the committee to be retained and you as the parent or guardian choose to promote your child, you will be asked to sign a retention waiver. This waiver states that you are releasing the Pottsville School District of all future

educational liabilities. Any 9th grade student who fails a class due to attendance or grade will not receive credit for that class. Promotion/retention or graduation of students with an Individual Educational Plan (IEP) shall be based on their successful attainment of the goals set forth in their IEP.

Any high school student required to take a state mandated assessment including the high school literacy exam and identified as not passing the test (i.e. scoring proficient or advanced) will be required to participate in remediation activities. If the student does not participate in the remediation program, he/she will not receive credit on the course connected to the test.

ALTERNATIVE EDUCATION

Students within the jurisdictional responsibility of the Pottsville School District who exhibit the characteristics of a student in need of educational opportunities other than traditional methods will be screened by the head of the alternative education, the counselor, the administrator of the building in which that student is housed, and the parents. Students should be referred by the teachers or counselor for academic deficiencies and by the principal for behavioral problems. Students in Alternative Education will abide by the rules and regulations set by the head of the alternative learning environment, which will be superseded by state law and school policy as set by the Pottsville Board of Education.

HOMEWORK POLICY

Homework is a beneficial adjunct to the in-school instructional program. For most students, additional study directly related to academic work in progress can make the difference between mastery and non-mastery. Students learn, through a well-formulated homework system, to develop self-discipline and good study habits that will stand them in good stead later in their vocational and/or academic careers. Homework is defined as any assignment that is not supervised by the assigning teacher during the regular class period. This includes class work that has not been completed during the class time that it was assigned. Assignments should be clear enough that the students can accomplish them without further "teaching" on the part of the parents. Parents should provide a good atmosphere for work at home. Parents should occasionally observe pupils at work and may give assistance and guidance if needed.

General Homework Guidelines

1. Students should be expected to accomplish homework assignments based on their level of academic development and maturity.
2. Assignments should be clearly stated by instructors.
3. Some teacher supervised work-time should be given for assignments.
4. Assignments should be completed within the time specified by the teacher.
5. In cases of excused absence, additional time to complete class and homework assignments should be provided.
6. Reading assignments and time spent studying for tests should be considered part of homework.
7. When homework is assigned, a suggested amount of 30 minutes per subject based on an average student's ability.
8. Late entry into school or remedial work on specific skills may be an occasion to assign additional homework.
9. Parents will be notified when a student is not completing homework assignments.
10. Students who repeatedly fail to turn in completed homework assignments will be given no credit and still held responsible for the work.

Specific Homework Guidelines

1. In order to prevent an overload of homework or tests, the teacher will coordinate plans.
2. On days in which a major test will be given, homework will be adjusted for the prior day to provide time for students to study.
3. In the event of holidays, weather conditions, assembly programs, and other interruptions, the above policy may be altered through approval of the principal.
4. Pop tests may be given at the discretion of the teacher.
5. Nine weeks test will be determined and scheduled by the teacher. Semester tests will be scheduled by the principal

MAKE-UP WORK

Students who miss school due to an absence shall be allowed to make up the work they missed during their absence in accordance with **District Policy 4.8 Make-Up Work**. For PHS and PJHS students, school missed due to out-of-school suspensions may only be made up if the student attends the Volunteer Work Program.

STUDENT DRESS CODE

The Pottsville School District Board of Education recognizes that dress can be a matter of personal taste and preference. At the same time, the District has a responsibility to promote an environment conducive to student learning. This requires limitations to student dress and grooming that could be disruptive to the educational process because they are immodest, disruptive, unsanitary, unsafe, could cause property damage, and/or are offensive to common standards of decency. Any student's appearance which is likely to cause a disruption in school/classroom order is to be avoided.

The discretion of the principal will be supreme in deciding cases where a question is involved. Appropriate action will be taken against a student who violates the dress code policy. The discretion of the principal will be supreme in deciding cases where a question is involved. Appropriate action will be taken against a student who violates the dress policy. **Disciplinary action** may include but is not limited to: (1) being sent home to change

garment or calling a parent to bring a change of clothing, (2) suspension, (3) corporal punishment, or (4) expulsion. The primary concern of the school is the health and safety of the students; therefore, any clothing that presents a health hazard to others will not be acceptable.

The general standard of appearance for students is that they be clean, neat and properly dressed. They shall observe modes of dress, styles of hair and behavior conducive to the educational process. The following considerations referring to dress will be followed:

1. Students are prohibited from wearing, while on the school grounds during the school day and at school-sponsored events, clothing that exposes underwear, buttocks, or the breast of a female. This prohibition does not apply, however to a costume or uniform worn by a student while participating in a school-sponsored activity or event.
2. **Hair:** If hair color is extreme and not of a color that would occur naturally, it will not be permitted.
3. **Footwear:** Footwear will be worn by students. For safety on the playground and during physical education classes, appropriate footwear will be worn by students. The footwear should protect the foot and safeguard the health of others. Footwear that damages the floor surfaces is prohibited. No house shoes will be allowed.
4. **Headwear:** Students (male or female) are not permitted to wear any covering on their heads (hats, scarves, etc.), in any covered building (classroom, cafeteria, gym, etc.). Doo rags or fitted bandanas will not be allowed.
5. **Bottoms:** Short shorts, body shorts, spandex shorts, or cut off shorts are never to be worn to school. All shorts and skirts must be hemmed and must be no shorter than 6 inches above the floor when the student is kneeling. Stirrup pants, tights, and elastic type pants are not permitted unless accompanied with proper covering applicable to the 6 inch rule.
6. **Tops:** Sleeveless muscle shirts, tank tops, halter tops and sun dresses without proper covering are not permitted. Tops shall cover the shoulder, chest, back and stomach areas. Shirts and blouses must have sleeves and be buttoned if applicable, and in girls situations, cover straps and appropriate parts of the body.
7. **Jewelry/Body Piercings:** Jewelry such as body piercing will not be allowed except in the ears.
8. **Face Painting / Hair Coloring:** Face painting or hair coloring is not conducive to the learning environment and is not allowed.
9. **Standard of Appearance:** Dress and grooming should be clean and in keeping with health and sanitary practices. Clothing should fit properly.
10. **Inappropriate Student Dress:** Dress shall not be extreme, exhibitionist or immodest in style to the extent that it interferes with the educational process or the effective operation of the school. See through clothing is not permitted unless accompanied with proper under garments. Clothing with inappropriate designs, signs or language are not permitted. This includes clothing advertising tobacco, alcohol, or drugs. Examples of dress that are not acceptable:
 - Clothing exposing midriff, back, side or shoulders
 - Hospital type attire
 - Clothing that is excessively worn with tears or holes
 - Clothing that is intended to be worn as an undergarment (such as boxer shorts or white under shirts)
 - All clothing with waistbands should be worn with the waistband at the top of the hipbone where the natural waistline is. Sagging is not permitted!
 - Basketball or other athletic practice gear (PHS only)
 - Unbuttoned shirts
 - Pants with holes or tears above the knee
 - Sleepwear

TARDIES

Tardies: Promptness is expected of all students. The school board recognizes the importance of promptness on behalf of students and staff. Students late to their first class of the day must sign in at the office, obtain an admit slip, and present the admit slip to the teacher before being admitted to class. A student receives a tardy when he or she fails to be in the classroom or other assigned location before the tardy bell stops ringing. Students tardy during other periods or after a recess are to be handled by the teacher. Excessive tardiness is considered prohibited conduct in accordance with **District Policy 4.18**. A tardy may disqualify a student from a perfect attendance award.

For PHS & PJHS students, the first three (3) tardies in a class will be excused in that you will not be punished. On the 3rd tardy the student will be warned that the next tardy will be unexcused and the student will receive detention or discipline as determined by the principal. Any tardy after 3 in a class will be unexcused unless another teacher writes a note explaining that student was detained in his/her class or unless the principal determines otherwise. Any tardy after three or a tardy that does not have a note from a teacher or parent will be considered unexcused. A student will be referred to the principal after 3 tardies.

ENTERING / LEAVING SCHOOL DURING THE SCHOOL DAY

If a student arrives at school after his/her regular school day has begun, he/she must sign in on the proper form in the office. A student receives an early checkout when the student exits school prior to the end of the school day (when the last bell has rung). An early checkout can disqualify a student from a perfect attendance award. Students desiring to leave school for any reason must report to the office and obtain permission of the principal or his designee. A student must furnish evidence of parent's consent (a note, phone call or parent's presence) to be excused to leave during the school day. Upon securing permission to leave, the student is to sign out on the proper form in the office. **No student will be taken from**

class or from school and sent on errands (either for an individual or for the school) away from the school except by permission of the superintendent or the principal. Students failing to observe proper procedure when entering or leaving school during the school day will be considered truant and subject to discipline.

Disciplinary Action:

1. Conference and warning
2. Detention or corporal punishment
3. Suspension until parent conference
4. Three (3) days suspension
5. Five (5) days suspension
6. Recommended for expulsion

VISITORS TO THE SCHOOLS

Visitors are permitted to the school building and/or campus only to transact official school business. All visitors are required to register in the principal's office to gain permission to remain on campus. (A visitor is defined as any person other than a registered student or a school district employee.) Level 3 or Level 4 sex offenders may only enter a school campus under the provisions of state law and in accordance with **District Policy 6.10 – Sex Offenders on Campus (Megan's Law)**. Arkansas law provides for prosecution of any person loitering in a school building or on school grounds. Any unauthorized person on school property shall be asked to leave, and if he/she refuses, school authorities in charge shall request their removal by law enforcement authorities. Former students are not to visit on campus except during Homecoming activities. Students from other schools are not allowed to accompany friends or relatives who are Pottsville School students on campus.

Playground Expectations for Visiting Adults: Recess is a time for students to participate in physical activity and to interact in social play. Please respect recess as an unstructured learning environment for all of our students to gain valuable social experience with their peers. On rare occasion, parents or other family members will accompany their children on the playground. In addition to adhering to student playground behavior expectations, adult playground expectations are as follows:

- Visiting adults must register first with the office and check in with a playground supervisor.
- If there are issues such as custody, guardianship, legal, safety, or personal concerns, visiting
- Adults will not be allowed on the playground without the principal's prior approval.
- Siblings are not allowed on the playground.
- Pets are not allowed on the playground.
- Food and/or snacks should not be taken to the playground
- Any safety issues should be reported to the playground supervisor.
- All discipline issues should be reported to and handled by the playground supervisor.
- Students from other schools are not allowed to accompany friends or relatives who are Pottsville School students on campus.

SCHOOL VOLUNTEERS

Enlisting the support of volunteers is a way in which the District can expand the scope of resources and knowledge available to enrich students' educational experience, while strengthening the relationship between the school and community. Because safety is a top priority at Pottsville Schools, volunteers who violate school policies or rules, or knowingly allow students to violate school rules, may be asked to leave the school campus. Volunteers are also subject to background checks.

MOTOR VEHICLE REGISTRATION

Student vehicles must be registered in the office. Use of motor vehicles on campus by students is not a necessity but a privilege. This privilege is not to be abused and may be denied to a student for any disciplinary violation, at the discretion of the student's building principal. Students park on campus at their own risk; the school is not responsible for damage or loss of the vehicle and/or its contents. A motor vehicle registration form must be filled out and returned to the office. Any unregistered or illegally parked vehicle may be towed away at the owner's expense. **Basic Regulations:** To receive a parking permit:

- The student must be 16 years old or in the case of a moped or cycle, qualify under state law to operate such vehicle on the public highways. The student must hold a valid driver's license, not a learner's permit.
- The student must have liability insurance. Liability insurance is required for all students who drive vehicles on campus. Proof of liability insurance shall include the name of the company, local agency and policy number.
- The student must purchase a parking sticker at a cost of \$5 per car.

Vehicles are to be parked in the designated parking area upon arrival and are to be vacated immediately. The student is not to leave in it and return again without proper permission. Sitting in parked cars or loitering in the parking area is a violation subject to discipline. All drivers on campus must

observe a 15 mph maximum speed limit. Driving on any surface that has not been designated for vehicle travel is not permitted. Reckless driving or speeding is just cause to revoke a student's permission to drive a vehicle to school. Other forms of discipline may also be taken.

TRUANCY

Truancy: Truancy is an act of misconduct in accordance with **District Policy 4.18- Prohibited Conduct** and is subject to disciplinary action through the principal's office. Truancy is defined as:

- Being on campus and not being in the assigned class.
- Leaving campus without following the sign-out procedure in the principal's office. Acknowledgment by the parent/guardian the next day will not be acceptable for preventing the absence from being considered truant.
- Missing a part of a school day and not signing in when arriving on campus.
- A student skipping classes or remaining in the restroom without permission will be considered truant.
- Missing school all day without the parent's knowledge or permission.

Disciplinary action may include one or more of the following:

1. Corporal punishment
2. Detention or in-school suspension
3. Suspension until parent conference
4. 3-5 or 10 days suspension
5. Expulsion

The Juvenile Probation Office will be notified in excessive cases and in all instances in which the parents are uncooperative.

HEALTH SERVICES

Medication consent forms will be provided by your student's school nurses as deemed necessary. Your child can get consent forms to bring home from the nurse or the office.

The only medications that are self-administered are insulin, inhalers and epi-pens and these medications do require consent forms.

If you want your child to have medication during the school day, please request a consent form. You will be responsible for signatures and all medication. Refer to **District Policy 4.35 Student Medications**.

A school health nurse is employed to assist in coordinating the school health program. The nurse, along with the staff, will provide assistance to students that become ill or are injured during the school day. In all serious cases an attempt will be made to notify parents immediately and to follow their instructions. However, if time is of the essence, emergency procedures will be followed with the parents being notified as soon as possible. A sick room with adequate supervision is provided to students with minor illness in the event the parent cannot be reached. In the interest of good health, all students are expected to go outdoors during recess or P.E. with the exception of inclement weather. A student who is well enough to be in school is usually well enough to spend a short period of time on the playground. If, following a serious illness or injury, a student is unable to go outdoors, a doctor's note stating this fact is required to be sent to school with the student. The note should include the duration of the restriction on going outdoors. All State mandated screenings, e.g., hearing, vision, BMI and scoliosis are performed for all required students within the school year. Guidelines have been set forth in this area. The school nurse can be contacted for more information. Beginning with kindergarten and then in even numbered grades, schools will be required to include, as a part of a student health report to parents, a **body mass index** percentile by age for each student in a private and confidential manner. Parents who refuse to have their child participate in body mass index percentile for age assessed and reported, must provide written documentation of the refusal to the school. **Permanent Health Record:** A cumulative and complete health record is kept on every student. These records should be kept complete and current. Records will be accessible to the school counselors. All students will be given a "Pottsville Student Medical Information" form for the parents to complete with pertinent information for the student's health record. It is the parent's responsibility to provide current and updated information. If a child is out of school because of an operation or serious illness, the information should be entered in the record. Any students new to the district should have his/her medical records provided within a month after transfer or be required to take necessary actions as a prerequisite for remaining in school. This is the parent's responsibility. **Confidentiality of Records:** Pottsville Public Schools, in accordance with the **Privacy Act of 1974**, recognizes that the Comprehensive Health Care Team may include the nurse, principal, teacher, counselor, bus driver, physician, etc. Pertinent health information may be shared appropriately to assure quality of care for the student. In those instances where parents refuse for information to be shared with the team, that parent assures full responsibility for any failure of treatment, etc. resulting from lack of information to team members.

EXTRACURRICULAR AND NON-INSTRUCTIONAL ACTIVITIES

1. Extracurricular and non-instructional activities in the Pottsville School District are defined as follows: Any activity outside of the student's scheduled classes not dealing with the academic curriculum. Extracurricular activities supplement the regular instructional program and afford opportunities for social exchange, enrichment or individual personal resources, and wholesome competition. Extracurricular activities should be

consistent with the academic goals and objectives of the school district. Participation in these activities, however, shall not interrupt classroom instruction time nor cause student absences as a result of the activity, except by prior approval of the superintendent of schools.

2. Requirements for participation:

- A. The district will require each student to be passing four units and maintain the necessary grade point average at the end of each grading period which count toward graduation or promotion or be making appropriate progress in fulfilling the requirements of an Individual Education Plan (IEP). Clubs such as Beta and Student Council may require a grade point average because of the specific nature of the organization. In addition, a student will be required to maintain satisfactory citizenship grades as established by the organization in which they participate. (Athletic and music participation adheres to Arkansas Activities Association and Arkansas Education Association guidelines).
- B. Absenteeism will affect participation. If a student is absent from school, participation in that day's activity will be prohibited without approval of the principal.
- C. Students will not be eligible to participate in or attend any athletic event or other non-instructional activity while on suspension.
- D. Organizations should adhere to and maintain rules and standards for their specific organizations. Each organization shall have a charter or constitution stating rules and standards for membership. All such constitutions or charters shall be submitted to the superintendent and school board for final approval.

3. In relation to these policies, the following guidelines will be followed:

- A. Secondary students will be allowed a maximum of three educational field trips per year. This is exclusive of music and athletic events. All trips must be approved by the building principal and superintendent.
- B. The school district is consistent with the Arkansas Activities association Resolution which states the following:
 - 1. That insofar as possible, activity events involving two or more schools be scheduled on weekend dates and holidays or after 3:30 p.m. on school days.
 - 2. That those events which are scheduled on school days prior to 3:30 p.m. shall require AAA sanction.
 - 3. All school sponsored clubs and organizations must have faculty sponsors and must be on file in the principal's office.
- C. At the beginning of the school year one meeting will be allowed for club or activity organization. For the remainder of the year meetings will take place before school, at noon, or after school unless the meeting is deemed necessary and approved by the building principal. It is the intent that these activities will not interfere with the 6 hours instructional time required and will not deprive pupils of time needed in acquiring basic skills and understanding.
- D. A monthly calendar will be distributed to teachers to be posted in each classroom. The calendar will list events and activities which will affect the teachers and students during that month.
- E. Interruptions: All announcements must have the approval of the building principal before they are made. Except in cases of emergency, all announcements must be submitted to the building principal the day before they are made. Announcements are disseminated in the form of a daily bulletin to be read at the beginning of the 2nd period each day immediately after the pledge of allegiance and the moment of silence.
- F. Visitors to our school must report to the principal's office. Student visitors from other schools will not be allowed to attend class. Vendors, such as yearbook salesmen, class ring salesmen, picture salesmen, etc., must make arrangements to limit their interruptions of class schedules. No salesmen, or armed services recruiters, or other visitors will be given time unless appointments have been properly made with the building principal.
- G. Judging and other pertinent activities of FHA and 4H are considered to be a vital part of our vocational program at Pottsville. Judging activities will be allowed and students will be excused from class to participate during regular school hours, however, any class work missed while on these trips must be made up in the same manner as other absenteeism.
- H. Assemblies shall be kept to a minimum. All assemblies will be consistent with academic goals and overall objectives of the school district. All assemblies must have the approval of the building principal and superintendent.
- I. These policies are in addition to the policies already in force in the Pottsville School District.

CLUB ACTIVITIES - SCHOOL ORGANIZATIONS

The purpose of school clubs and organizations, as defined by the district, is to promote the social qualities of the students involved. Students have the right to join an existing club and may not be denied membership on the basis of race, sex, or national origin and any other arbitrary criteria unless that organization is entitled to Title IX exemption on the basis of sex. School fraternities or secret sororities are prohibited under Act 171 of 1929. Hazing, as defined by law, is forbidden in connection with initiation into, or affiliation with, any student organization.

FCCLA: Any person can join FCCLA as long as he or she has taken one year of home economics.

THE NATIONAL BETA CLUB: The National Beta Club is a non-profit leadership service organization for junior high and high school students. GENERAL INFORMATION

Absences: Refer to District Policy 4.7 for the district's policy governing student absences. Parents should be in timely contact with school officials regarding the nature of student absences. A written note regarding the nature of the absence should be provided for the school file within three (3) business days of the student's return to school. Parents should also notify the school during extended absences from school due to any illness, injury, or other extenuating circumstances. Students are not permitted to participate in any school related extracurricular activities if they did not attend school during the regular school day a minimum of one-half day. The principal can make exceptions based on extenuating circumstances.

Accidents / Illness at School: Accidents to students on the school property or at school functions are to be reported to the principal's office. First aid treatment may be administered or the family physician may be called. Any special medical problems such as diabetes, allergies, etc. should be listed on the "Pottsville Student Medical Information" form in the office to be kept on the student's health record. The school and individual teachers assume no responsibility for financial obligations incurred by treatment. When students are injured or become ill, their parents should be notified when possible and instructed to take them home. A student will be sent home if any one or more of the following instances occur: (1) The student vomits; (2) The student has three (3) episodes of diarrhea; (3) The student has a temperature of 100° or higher; or (4) The student exhibit any signs / symptoms of a contagious illness. **Returning to School:** Students who become ill while at home, or students who have been absent due to illness or who have been sent home from school due to illness may return to school as long as they meet the following guidelines: The student has been fever-free for 24 hours without administration of over-the-counter fever-reducing medication; and the student has not vomited within the last 24 hours. **School Insurance:** School insurance is available at a nominal cost if students choose to subscribe. Information and insurance forms are available in the office upon request. It is highly recommended that all students have some type of health/accident insurance.

Activities: Activities, assemblies, and club meetings, etc., will be announced in the daily bulletin. All activities and meetings must be approved by the principal and placed on the activity calendar. Activities that are held during class time will be reduced to a minimum. Club meetings will be scheduled either at noon or after school. Organizations will be assigned a regular meeting date through the principal. Fund raising projects must be

approved and scheduled, also, through the principal; fund raisers will be limited. Students are not to solicit contributions and/or purchases from teachers at school.

Address/Phone Number Changes: The school must have the most current and up-to-date contact information for each student. Each student's current address with at least 2 working phone numbers and valid emergency contact numbers should be registered on the Student data form. It is the student's and parent's responsibility to make sure student address, phone number and contact information is kept current on the enrollment forms in the school office. Please notify the school office promptly of any changes in address and/or telephone contact information. In accordance with Arkansas Code 6-18-202(f), any person who knowingly gives a false residential address for purposes of public school enrollment is guilty of a violation and subject to a fine not to exceed one \$1,000.

Admission to School Buildings: School buildings are normally open each day for students at approximately 7:30 a.m. and remain open until approximately 3:30 p.m. Students finding it necessary to arrive earlier or leave later must make arrangements through the principal's office. A place will be provided for students during inclement weather during the morning and/or lunch. During cold weather, recess may be inside for younger students at the discretion of the principal. Students eating breakfast in the cafeteria are to enter the building at the prescribed cafeteria entrance and are to remain in the cafeteria until the first bell. Students are to stay out of the hallways unless they receive permission from the teacher or district staff on duty.

Advertising: Commercial advertising as such shall in no way be allowed in the school. List of names and address of teachers, pupils or parents shall not be provided except in compliance with Federal Law, Family Educational Rights and Privacy ACT of 1974 (FERPA) and 1232g. The School Law of Arkansas (1975).

Announcements: Many routine and important matters of school are communicated daily through the announcements. Students should listen carefully and make note of those activities concerning them.

Assemblies / Awards / Honors: A planned program of assemblies is provided to supplement and enrich the overall educational offering at Pottsville Schools. Assemblies will be scheduled by the principal. The assemblies are planned to promote student talent and participation, develop worthy interest, to present important school and civic matters to the student, to bring outstanding personalities and cultural information to the students and to enrich school spirit. A great many students at Pottsville High School are deserving of recognition and honor. Various planned awards assemblies and programs are held throughout the school year at Pottsville Schools to honor outstanding work and service and to provide recognition for outstanding students in several academic and activity areas of the school.

Cafeteria / Food Service: Students should not run when going to lunch. Students are expected to put their lunch tray, silverware, and milk carton in the appropriate places. Food or drink of any kind should not be taken from the lunchroom. Students are not to be in the cafeteria unless they are eating. It may be used by those that bring their lunch. Upon finishing their meals students are to exit the cafeteria immediately. Students may obtain nourishing, well-balanced meals at a nominal price. Pottsville Schools participates in the school lunch and breakfast program. For students qualifying for free or reduced lunches, necessary forms will be sent home at the first of the school year. Forms are also available in the school office upon request. Believing that there is a strong relationship between diet and school achievement, we encourage students to eat a well-balanced meal while at school. Therefore, we do not encourage carbonated drinks with breakfast or lunch. Students allergic to milk will need a doctor's statement on file in the cafeteria. A non-dairy drink will be provided for those students. Grades 7-12 students have a choice each day of the regular Class "A" lunch or an a la carte lunch. If you choose the a la carte line you must pay for each item when you get to the end of the line. Because of the excellent choices in our cafeteria and because of our closed campus, we do not allow food to be brought on campus to students unless it is for health reasons, and if this is the case we will need a doctor's explanation. **Policy for School Cafeteria Menu Substitutions:** Pottsville School District will provide substitute menus to accommodate students with handicapping conditions meeting the definition of a disability as defined in USDA regulations. You must fill out a *Certification of Disability for Special Dietary Needs Form* (see school nurse or cafeteria director) to request such an accommodation. Our school district does not prepare special menus based upon family's religious or personal health beliefs; parents should assume the responsibility of preparing the child's meals in these cases. **Act 1220 - Pottsville Elementary & Middle Grades: Act 1220 of 2003 (Rules Governing Child Nutrition and Physical Activity Standards in Arkansas Public Schools):** To promote healthy eating habits, the Arkansas Legislature passed a law (Act 1220) governing nutrition and physical activity in Arkansas Public Schools. This new law prevents schools from giving food to students as rewards or treats. Therefore, we can no longer allow parents to send treats for individual birthdays. We will be allowed nine days a year to have celebrations. Snacks will continue to be allowed at snack time if they follow the USDA snack guidelines. Teachers have this list. **This does not affect what you choose to send your child for lunch.** Parents may provide FMNV (Foods of Minimal Value) or candy items for their own child's consumption, but they may not provide restricted items to other children at school. Therefore, to ensure compliance with Act 1220, parents may only bring in a lunch for their own child.

Calendar of Events: All school activities will be scheduled on the calendar in the principal's office.

Closed Campus: Students are required to stay on campus from their arrival until school is dismissed, except those students who have permission from a school official to leave campus. Student that violates this rule will be considered truant from school and will be disciplined accordingly.

Closing School / Inclement Weather: If school is closed or dismissed early due to bad weather or other uncontrollable circumstances, area radio stations will be notified and requested to announce the closing. The school messaging parent communication system will also be utilized whenever possible. Students and parents should not phone the school or the homes of school officials as those lines need to remain open for contacting media, parents and personnel.

Conferences: Progress Reports & Parent/Teacher Conferences: The Pottsville School District Calendar includes the dates for two parent teacher conferences scheduled for this school year. In addition, parents are encouraged to contact the school to schedule conferences with teachers any time they consider there is a need for such a conference. If you wish to conference with a teacher or the principal, please call the school office and make arrangements for a time convenient to those participating in the conference. Grades and student progress are reported to parents as follows:

- At the end of the fifth week of each nine weeks grading period, an interim report will be sent to the parents/guardians of every student.
- A regular progress report (report cards) will be handed to the students at the end of each nine weeks grading period to be carried to the parents.
- At the end of the first nine weeks and after the fifth week of the third nine weeks, time will be scheduled for parent-teacher conferences.

Dances: Dances are for PHS students and their dates only. Students planning to bring a date that is not enrolled at PHS must register that date in the principal's office prior to 12 noon on the last school day before the dance. Dates must be enrolled in grades 10-12 or a recent graduate. Only PJHS students can attend the PJHS dance. Students must follow these rules:

1. When a person comes to a dance, he/she must remain inside the dance. If he/she leaves, he/she may not return and must leave the campus.
2. A school sponsor is required to be present for school activities.
3. No alcoholic beverages, smoking, illegal drugs, or drug abuse will be permitted. It is against Pottsville School Board policy for there to be any sales, use, distribution, or possession of alcoholic beverages or of illegal drugs at any school function or activity, or to be under the influence of any of the above. Any students so involved will be disciplined by the school and charges pressed as deemed lawful and proper.
4. If a student is ejected from any school dance because of conduct and/or violation of school rules, that student will be punished the same as if it were a day of school. Students who bring dates from outside the school will be responsible for the behavior of their dates.
5. Any acts of vulgarity at the dance or on the dance floor will not be tolerated. The violators will be asked to leave and may jeopardize future dances.

Pottsville High School will sponsor three (3) dances during a school term. Pottsville Junior High will sponsor only one (1) dance during the school term.

Emergency Drills: Information concerning emergency drills will be provided to the entire student body. Teachers will periodically go over the drill procedures. Local fire department officials will make regular inspection and may call for additional fire drills. **Important:** once in lockdown, students will not be released from the building until the threat of severe weather or other emergency situation has passed.

Fire Drill Signal: Fire Alarm

Specific exit instructions will be given by the teachers, and are to be posted in each room. Some rules which should be followed in all situations (state and federal law) are:

1. The teacher should be the last to leave the room after seeing that all doors and windows are closed.
2. Walk quietly and in single file out of the door.
3. Stand in assigned position without talking and wait until the roll is checked
4. Return at the sound of the bell.

Tornado Drill Signal: Intercom

Some guidelines that should be followed:

1. All persons should assume position for protection from falling glass and objects with special precautions for head and face. (Usually this will be way from windows and near solid walls.)
2. In every case, keep calm, no shouting, and listen for instructions from the teacher.

Field Trips: All school organizations taking trips to state conventions, festivals, sporting events, and meetings of any type which involve the school as responsible for the safety of students shall be provided the necessary transportation. Students are expected to use this means of transportation if they wish to participate in school activities. If situations arise where other arrangements need to be made, the sponsor will have the responsibility of working out these arrangements. Exceptions may be made only when a student is riding with his/her own parents. The standard of behavior on school sponsored trips is the same as if the students were on school grounds. Signed parental permission slips will be required for eligible students to participate in the field trip. School sponsored trips are planned for a specific grade level for educational purposes. The focus should be on the learning of those particular students. With that in mind, we request that siblings not attend field trips. Only school personnel will be allowed to ride the bus with students on school sponsored trips

Guidance and Counseling: The guidance counselor will provide development guidance activities for all students and offer small group guidance for individual growth. The counselor can serve as a consultant for behavioral, social, and educational concerns and be available for crisis counseling. Referrals will be accepted from parents, teachers, and the students themselves. The counselor will help identify students who need assistance but do not come forward through special guidance activities. The counselor will monitor the school climate and recommend appropriate action. Working with outside agencies, providing follow-up of referred students, and assisting in interpreting and utilizing school data will be the responsibility of the counselor. The counselor will provide counseling for students who are retained in a grade or have special needs. The counselor will be the school coordinator in standardized testing programs. The counselor will serve as a committee member for educational plans on students who did not pass state competency tests.

Interruptions: No students shall interrupt a class without permission from the office or from a teacher. Classes should be interrupted only in cases of extreme need.

Lockers: Lockers are school property and are rented to students for keeping books and other personal property will be assigned to students at the beginning of the school year. Damage done to a locker will have to be paid for by the student who is assigned to that locker. Sharing a locker is discouraged unless there becomes a shortage of lockers. Students will be given the combination to their locker at the time that it is assigned and will be expected to remember the combination. Students are not allowed to put decorations of any kind on the inside or outside of the lockers without approval by the principal. Students are to refrain from tampering with other students lockers.

Library: The school library is a service agency. It functions to further the school's objectives. It has no distinct subject matter but provides materials for all students and interests of students and teachers. The library is open on school days. The library, for many people, is a work station for a limited time. For this reason, it is essential that distractions must be kept at a minimum. **Library Regulations:**

1. All students and teachers in school are entitled to borrow books and other materials.
2. Reference materials such as encyclopedias and dictionaries are to be used only in the library unless arrangements have been made with the librarian and teacher.
3. Reserve books may be set up by any teacher desiring to do so.

Moving / Withdrawing from the District: When moving away and withdrawing from our school district, be sure to clear your records properly. Obtain a checkout sheet from the school office and have your teachers, counselor, and principal sign it. All school materials, textbooks, library books, laptops, etc. must be returned. Any money owed must be paid before departure. Students who do not properly withdraw will have records withheld until they complete proper withdrawal procedure.

Parties: Approved celebration events or "parties" should be limited to one class period (i.e. approximately 30 minutes) with exceptions to be approved by the principal. Any food items to be shared with students must be prepared in a commercial kitchen. Therefore, food prepared in home kitchens will not be allowed. There will be three elementary school parties allowed in K-3 grades: Fall, Christmas, and Valentine's Day. Fall and Valentine's parties should be limited to thirty minutes while the Christmas party should be limited to one hour. **Party Invitations:** Invitations to parties outside of school may not be handed to individual children. When children become upset because they have not been invited to a party, it interrupts the learning / teaching process. However, it is acceptable to hand out invitations when everyone in the class is being included. The teacher must be notified before class invitations are handed out.

Permission Notes: Students must bring notes from their parents before they will be allowed to stay after school or go somewhere other than their home or babysitter after school. If two students are planning to spend the night with each other, a note from the parents of both students must be presented to the teacher. The office telephone will not be used for calling parents to get permission to go home with someone else or stay after school. Students who do not have notes from parents will be required to go home as usual. Requiring notes assures that parents and teachers are aware of after school arrangements. Students who stay after school for activities such as ball practice are not supervised until their coach or sponsor arrives. It is advisable that students go home when school is dismissed and return at the scheduled practice time.

(Office) Phone: Only emergency calls and calls concerning parental permission to leave the school during the day may be made from office phones. The school telephone is for school business only; students must get permission to use the phone and state who they are calling and what their business is. **Messages to Students:** Except in cases of extreme emergency, such as death in the family, messages will not be delivered to students. Students should instruct their parents, employers, brothers, sisters, etc..., not to call and ask for a message to be delivered. Nor will students be called to the phone.

Recess / PE: In the interest of good health, all students are expected to go outdoors during recess or PE with the exception of inclement weather. A student who is well enough to be at school is usually well enough to spend a short period of time on the playground. If, following a serious illness or injury, a student is unable to go outdoors, a doctor's note stating this fact is required to be sent to school with the student. The note should include the duration of the restriction.

Semester Exam Exemption Policy (PHS & PJHS): Students will be exempt from taking Fall and Spring semester exams if they meet the following criteria: Grade average of A (4.0 above) and no more than four (4) absences for the semester, B average (3.0 above) and no more than three (3) absences for the semester, C average (2.0 above) and no more than two (2) absences for the semester, D average (1.0) and no more than 1 absence for the semester. Students may take the semester test at "No Risk" (accept or reject the test score). TESTS ARE TO BE TAKEN AT THE ASSIGNED TIMES. PJHS students will not be exempt if they have served in-school or out-of-school suspension during the respective first or second semester.

Classification of Students: For grades 9-12, classification will be determined at the beginning of the school year and will remain the same throughout the school term or until any deficiencies are made up. Classification will be determined by the principal and the counselor according to number of credits earned. Classification is based upon the successful completion of course work for the previous year or the total acquired credits as follows:

9th grade (0 credits)

10th grade (5 credits)

11th grade (10 credits)

12 grade (15 credits)

Students classified as seniors must also be enrolled in courses that will enable them to graduate. If a senior must complete correspondence work to be able to graduate, he or she must remain on campus for class time in which to do such correspondence work.

Course Load: For students in grade 9-11 the required class load is six (6) courses, four (4) of which must be academic solids. Seniors must take four (4) courses, all of which must be solids. If they do not exercise the work permit options and leave early, they must take an additional course. Seniors who plan to take college courses must take a minimum of three (3) solids at PHS with a total of four (4) courses to be considered a PHS student. A student must receive permission from the counselor and principal before taking seven (7) solid courses.

Dropping a Course: To drop a course, you must get permission from the principal and teacher. No course may be dropped or entered into after the first week from the opening of school. Use care and thought when choosing your courses for the semester.

Credit Transfer: Course work will be accepted from the Area Adult Education Center or other state approved education institution and applied toward graduation provided: (1) the student is making up a failure or (2) other extenuating circumstances in which prior approval is required by the principal and counselor.

Course Audit: A student will not be allowed to take a course without receiving a grade or credit for that course.

Re-taking a Course: If a student receives an "F" in a subject, he or she may re-take the subject failed. The student's first grade and the student's second grade will be averaged to determine a student's final grade for the course.

College Courses for High School Credit: College Courses may be used to fulfill high school graduation requirements under the following conditions:

- The course to be taken is pre-approved by the counselor and principal.
- The course is added to the student's permanent high school records and included in GPA.
- The course is successfully passed.

Concurrent Credit Classes: It is the policy of the Pottsville School district to permit students in grades 9-12 to concurrently be enrolled in an accredited institution of higher learning. Concurrent credit will be given to students who successfully complete a course from an institution which is accredited according to the rules and regulations of the State Board of Education. A decision as to whether credit will substitute for a required core course or will be used as an elective will be made by a committee composed of the building principal, counselor, and a faculty member from the subject area in which the course was taken. Three semester hours of college credit shall be the equivalent of one unit of high school credit. It is recommended that concurrent credit classes be discussed with the counselor prior to enrollment when feasible. A student who wishes to enroll in concurrent credit classes may do so at his/her own expense. The Pottsville School District assumes no responsibility for tuition, books, transportation or any other related expense. CLEP scores do not qualify for concurrent credit.

Correspondence Credit: In the event that a course is desired which is not regularly offered in the high school, or makeup of an unsatisfactory grade is needed, correspondence work may be advisable and acceptable. Such credits shall have prior approval by the high school counselor and principal and shall be earned through satisfactory completion of courses offered by accredited colleges. Generally, no more than one unit of correspondence may be taken by a student toward graduation.

English Failures Policy: Arkansas Department of Education standards require the successful completion of four years of English in order to achieve graduation requirements. Mastery of the basic skills at each grade level is a prerequisite and imperative to attempting the next grade level. Thus, if a student fails English, he/she must make up the failed grade before advancing to the next grade in English. The only way that a student can make up such work is either to attend summer school, take a correspondence course, or repeat the course. Because no student may take more than one English course at a time, repeating a class during the regular term will place a student behind his/her classmates in graduating.

Early Graduation: Students will be granted early graduation when they have successfully completed all graduation requirements. The student must apply for early graduation by May 1st, prior to the year that they would like to graduate, in order for administration to make the necessary arrangements for that student to graduate.

Honor Roll: The honor roll will be announced at the end of each nine weeks and at the end of each semester by the principal. All students who have received all A and B's will be listed on the honor roll.

Early Release for Work - Financial Hardship (Grade 12 – 2nd Semester): In compliance with Act 675 of 2003, "An act to require high school students in grades nine (9) through twelve (12) to attend a full school day", Pottsville High School will comply with all provisions set forth by this law. With the enactment of Act 675 of 2003, a parent or guardian may seek a waiver from the requirement that their student attend a full day of school if proven financial hardship results from missed opportunity for employment exists. The student must meet the following criteria in order to implement the early work release waiver:

- The student must be on track to graduate
- The student must attend at least 6 classes/day
- Early work release is only allowed during the second semester of the student's senior year

Graduation Exercises: Participation in commencement exercises by seniors who have completed all requirements for graduation is encouraged but is not compulsory. Since these exercises require planning and rehearsals, the rehearsals are held during school hours on legal school days; all students who wish to participate in the exercises are required to attend the rehearsals. Failure to do so could exclude a student from participating in the exercises. Students who have not completed all requirements for graduation are not eligible to participate in the ceremony. Students completing requirements for graduation in the summer may participate in the next exercise if they desire. The dress will be white shirt with tie, dark dress pants or khakis and dark socks and shoes for boys and dark dress or skirt for girls with dark hose and shoes.

Transcripts: Each student may have one transcript at no charge. Students applying for scholarships or entering institutions of higher learning may request that transcripts be sent to these institutions.

Prom: The annual Junior/Senior Prom is one of the major events of the year and is arranged each spring by the junior class. For this event, the junior class sponsors the program in honor of the graduating seniors. The prom will be limited to only members of the junior class and their dates and only members of the senior class and their dates. It is customary for the junior class to invite four (4) sophomores as servers. There will be no Garter Ceremony. **After Prom:** Attendance at the after prom activities will only be allowed to those students and their dates that attended the Jr./Sr. Prom

Senior Class Trip: The senior class will be allowed a one day class trip at the end of the school year. The trip must be approved by the school administration and class sponsor or school representatives shall accompany the class. All students must ride the bus to and from class trips with no exceptions. Expenses will be taken care of by fund raising projects or the individual students taking the trip. The trip will not include an overnight stay. To qualify to attend the trip the student must:

1. Be projected to graduate (fulfill all requirements for graduation).
2. Be in "good standing" with the school administration ("good standing" refers to good attendance and conduct records – "not in good standing" refers to poor attendance, disruptive behavior or excessive violation of school policy).
3. Any change in this policy must be with School Board approval.

Elections:

Class and Club officers – Students running for a class or club office must have good attendance, no discipline referrals, have no less than a C average and have attended Pottsville School for one semester. charged with the responsibility of paying for these items on a pro-rated basis. Students are not accountable for wear which occurs from normal use of a book.

Pottsville Junior High School assigns a set of textbooks to each student to be kept at home during the school year. A classroom set of textbooks remains in the classrooms for students to use during class. The classroom books are to remain in the classroom. This service is provided to students of Pottsville Junior High School to eliminate students having to carry heavy loads in large book bags and backpacks. It also eliminates the need for storage lockers in the hallways and the problem of noise, congestion and clutter associated with lockers. Students may use a clear backpack or mesh bag to carry their school materials and/or clothing for sports or physical education. No rolling bags will be allowed in PJHS. A zippered binder is sufficient to carry their supplies, and they are encouraged to carry no more than a binder to school. Athletes may store athletic clothing and shoes in lockers in the gym dressing rooms.

Student Meetings: Student meetings during school time are to be approved by the principal and supervised by a faculty sponsor. Students wishing to meet on school premises during non-school hours are to make arrangements with the principal.

CORPORAL PUNISHMENT

(Refer to District Policy 4.39 - Corporal Punishment)

The board recognizes the need for firmness in dispensing with any isolated problems calling for disciplinary action which occur in the classroom and during other school activities, whether on or off the school premises. Accordingly the Board expects:

1. that the principal and faculty will always be in a position to take disciplinary actions;
2. that disciplinary action will contribute to the general welfare of the school or class as a whole and will be directed toward positive improvement of citizenship of the group or individual involved; and
3. that each teacher will handle his or her own discipline at all times if at all possible however, the more serious problems may be taken to the principal for advice and counsel.

The Pottsville School Board authorizes the use of corporal punishment to be administered by the Superintendent, or his designated staff members who are required to have a state issued license as a condition of their employment, to any pupil for disruptive or unmanageable conduct, insubordination, profane, violent, vulgar, or insulting language or other conduct that would tend to disrupt the education process. Prior to the administration of corporal punishment, the student receiving the corporal punishment shall be given an explanation of the reasons for the punishment and be given an opportunity to refute the charges. All corporal punishment shall be administered privately, i.e. out of the sight and hearing of other students, shall not be excessive, or administered with malice, and shall be administered in the presence of another school administrator or designee who shall be a licensed staff member employed by the District.

The term "corporal punishment" as used in this policy is hereby defined as the paddling of students. After repeated minor rule infractions such as leaving books, talking without permission, etc., students will be given a choice of writing sentences, reports or a paddling.

PROCEDURES

1. Except for those acts of misconduct which are so antisocially disruptive in nature as to shock the conscience, corporal punishment shall not be administered unless an attempt has been made to modify the pupil's behavior by some means other than corporal punishment and unless the pupil has been told that a continuation or repetition of his or her behavior may lead to corporal punishment.
2. It will be administered in the presence of another licensed staff member employed by the District who shall be advised in the presence of the student the reason for the punishment.
3. It will not be administered in the presence of other students, nor in a spirit of malice or anger, nor will it be excessive.
4. It will be administered to the lower posterior only.
5. No licensed staff member, other than the principal or superintendent, shall administer it for another licensed staff member.
6. Refusal to take corporal punishment will result in suspension.
7. The principal will be notified when corporal punishment is administered, and a written report signed by the licensed staff member administering the corporal punishment stating the reason for the punishment, and the name of the witness will be filed in the office of the principal.
8. On request, the parent shall be informed in writing of the reasons for the punishment, and the name of the witness.

PROBATION

When a student is placed on probation, that student must obey all rules and regulations for the rest of the semester or school year if designated. Parents will be notified in writing at the parent conference when a student is being placed on probation.

DUE PROCESS

Every student is entitled to due process in every instance of disciplinary action for which the student may be subjected to penalties of suspension or expulsion. (See Ark. Stat. Ann. 80-1516)

4. Each school should establish procedures for notice to students and parents of charges, hearings and other due process proceedings.
5. Each school district shall develop a grievance procedure including steps to be followed by students to resolve a grievance.
6. The due process rights of students and parents are as follows:
 - a) Prior to any suspension, the school principal or his/her designee, shall advise the pupil in question of the particular misconduct of which he or she is accused, as well as the basis for such accusation.
 - b) The pupil shall be given an opportunity at that time to explain his/her version of the facts to the school principal or his/her designee.
 - c) Written notice of suspension and the reason(s) for the suspension shall be given to the parents(s) of the pupil.
 - d) Any parent(s), tutor or legal guardian of a pupil suspended shall have the right to appeal to the superintendent of schools.

In accordance with District Policy 4.17-Student Discipline, it is required by law that the principal or the person in charge report to the police any incidents the person has personal knowledge of or has received information leading to a reasonable belief that a person has committed or threatened to commit an act of violence or any crime involving a deadly weapon on school property or while under school supervision. If the person making the report is not the Superintendent, that person shall also inform the Superintendent of the incident. Additionally, the principal shall inform any school employee or other person who initially reported the incident that a report has been made to the appropriate law enforcement agency. The Superintendent or designee shall inform the Board of Directors of any such report made to law enforcement.

 - q. During the period of their suspension, students serving in-school suspension shall not attend any school-sponsored activities during the imposed suspension nor shall the student participate in any school-sponsored activities.
 - r. Notwithstanding the policy concerning suspension and expulsion, students may be suspended indefinitely without notice, hearing and the other rights provided herein having been first given if the school is undergoing a violent upheaval or if orderly educational processes have otherwise been substantially disrupted. This would apply only in rare instances such as riots or where emergency circumstances make it unreasonable for the administration and board to consider the case within the usual time. In all such cases, notices, hearings and other rights shall be provided in accordance with the normal provisions at the earliest practical date after order is restored.
- 2. Expulsion Procedure**
- a. The principal of a school may recommend that a student be expelled from school with loss of credit. A written recommendation to the superintendent shall include a statement of the charge against the student.
 - b. If the superintendent concurs with the recommendation, he/she shall schedule a hearing before the school board.
 - c. The school board may expel a student for the remainder of the semester, for the remainder of the school year or permanently for conduct it deems to be of such seriousness as to make a suspension inappropriate where it finds that the student's continued attendance at school would be unacceptably disruptive to the educational program or would be attended with unreasonable danger to other students and faculty members.
 - d. Permanent expulsion is appropriate only for those instances in which serious bodily harm occurred or reasonably could have been expected to occur to another person.
 - e. The superintendent or designee shall give written notice, mailed within ten calendar days from the alleged incident which caused the expulsion recommendation, to the parent if the student is a minor or to the student if he/she is an adult. Such hearing will be conducted not earlier than three calendar days or more than seven calendar days following the date of the notice except that the superintendent and the student and the student's parent may agree in writing to a day not conforming to this limitation.
 - f. The notice also will state charges against the student in clear and concise terms, the names of witnesses who will appear against the student and a brief statement concerning the nature of their testimony.
 - g. In every case of a hearing held by a school board regarding the expulsion of a student, the president of the board or, in his/her absence, another member selected by the board shall preside at the hearing. The student shall be entitled to representation by a lawyer or lay counsel.
 - h. The superintendent or designee shall present evidence and may present witnesses or statements of those persons who have personal knowledge of the events or circumstances which give rise to the expulsion recommendation at the hearing.
 - i. The student or representative may then present witnesses or statements by witnesses with personal knowledge of events or circumstances relevant to the issues.
 - j. Normally, formal cross-examination will not be permitted.
 - k. During the course of the hearing if the board determines that the credibility of any of the witnesses is an issue, it will permit cross-examination by the student, the superintendent or their representatives of those witnesses whose credibility has become an issue.
 - l. Cross-examination should ordinarily be limited to the question or questions on which the credibility of the witness has become an issue.
 - m. The student may observe all evidence offered against him/her.
 - n. Members of the board may question any witness.
 - o. At the conclusion of the hearing, the board may discuss the matter and dispose of it by vote.
 - p. If the board does not expel the pupil with loss of credit, it may impose less severe disciplinary actions, such as long-term suspension, which may be with or without opportunity for make-up of school work. The board shall briefly state its findings in writing within ten days after the hearing.
 - q. The board shall make a record of the evidence taken at the proceedings by use of either a court reporter or a tape recorder.
 - r. If the student wishes, the record will be transcribed and a copy furnished the student. Copies of all statements used as evidence will be included with the record.
 - s. The school administration has the responsibility to present the evidence to the board and the administration is entitled to open and conclude the hearings.

- t. The president of the board or the presiding officer has the authority to limit unproductively long or irrelevant questioning by non-board members.
3. **Group Hearing for Suspension or Expulsion**
When two or more students are charged with violating the same rule and have acted in concert and the facts are basically the same for all such students, a single hearing may be conducted for them if the president of the board believes the following conditions exist:
 - a) Single hearing will not likely result in confusion, and
 - b) Student will have his/her interest substantially prejudiced by group hearing. If, during the hearing, the president finds that a student's interest will be substantially prejudiced by the group hearing, a separate hearing may be ordered for that student.

SECOND CHANCE PROGRAM

Students who are recommended for expulsion for violation of any major discipline offense, **MAY** be eligible to appeal to the Superintendent of Schools for placement in the "Second Chance Program" to avoid expulsion. This request must be made directly to the superintendent by the parent or guardian and/or the student. This program is designed to allow eligible students a possibility of continuing as a Pottsville School District student under a strict probation. The student cannot have previously been suspended or recommended for expulsion for violation of any district policy.

DISCIPLINE OF HANDICAPPED STUDENTS

1. Students with disabilities are subject to disciplinary school rules – as long as FAPE rights are not abridged.
2. For students whose disabilities have behavioral aspects, preventive measures, such as behavioral management plans, should be considered.
3. For short-term suspension – ten school days or less – there is no requirement for notification for conference purposes, etc.
4. For long-term exclusion – more than ten days – this does constitute a "change in placement".
5. A series of short-term suspensions could constitute a "change in placement". Under these circumstances the following factors should be considered:
 - *length of suspension
 - *total amount of time from school
 - *proximity of suspensions
6. The IEP committee must determine if the misconduct was a manifestation of the students' disabilities: (more than 10 days!)
 - A. Was not – may expel or suspend with special education programming.
 - B. Was – may not expel or suspend, however,....
7. Before suspension or other disciplinary removal of the student for more than ten school days, an IEP committee must convene to review the following:
 - * the relationship between disability and misconduct
 - * the relationship between placement and misconduct
 - * the student's need for a behavior management plan
 - * other programming needs
 - * appropriate placement
8. When a due process hearing is requested the district needs to review the requirements for:
 - * interim placement
 - * "stay put"
 - * a court order (TRO: Temporary Restraining Order)
9. For students not previously identified as potentially in need of special education, the school is not obligated to reinstate student to prior in-school status until disciplinary sanction is completed ("stay-put" is out-of-school placement after a disciplinary suspension or expulsion has commenced).
10. FAPE (When the suspension or expulsion is for more than 10 days...educational services must continue...)

GUIDELINES FOR SUSPENSIONS OR EXPULSIONS OF STUDENTS WITH DISABILITIES UNDER THE "GUN-FREE SCHOOL ACT"

1. Immediate removal/10 school days or less
 2. "45 calendar days"
 3. Committee must determine whether the misbehavior was/was not a manifestation of the disability
 4. Procedural safeguards of IDEA and Section 504- Alternative Educational Settings (may be, but not limited to, ALE)
 5. Misbehavior is determined to be a manifestation of the disability.
 6. Section 504 only can be expelled:
 - A. Student with disabilities engages in behavior subject to discipline but does not bring a firearm to school
 1. Suspend the student for up to ten school days
 2. Conduct Manifestation Determination
 - a. If student's conduct is a manifestation of disability, school may initiate a change in placement but may not expel or suspend long-term
 - b. If student's conduct is not a manifestation of disability, may expel or suspend long-term, but must provide continued services.
- If parent requests due process, student remains in current placement until dispute is resolved UNLESS school district obtains a court order to change placement, or parent and school district agree to another placement

- B. Student with disabilities brings a firearm to school
1. Suspend student for up to ten school days; convene IEP team to determine interim placement
 2. Student in alternative setting for up to 45 days
 3. Conduct manifest determination
 - a. If student's conduct is a manifestation of disability, school may initiate a change in placement but may not expel or suspend long-term
 - b. If student's conduct is not a manifestation of disability may expel or suspend long-term, but must provide continued services.
- If parent requests due process student remains in alternative setting until dispute is resolved, UNLESS school district obtains a court order to change placement, or parent and school district agree to another placement.

DISTRICT POLICIES

4.1—RESIDENCE REQUIREMENTS

Definitions:

"Reside" means to be physically present and to maintain a permanent place of abode for an average of no fewer than four (4) calendar days and nights per week for a primary purpose other than school attendance.

"Resident" means a student whose parents, legal guardians, persons having legal, lawful control of the student under order of a court, or persons standing in loco parentis reside in the school district.

"Residential address" means the physical location where the student's parents, legal guardians, persons having legal, lawful control of the student under order of a court, or persons standing in loco parentis reside. A student may use the residential address of a legal guardian, person having legal, lawful control of the student under order of a court, or person standing in loco parentis only if the student resides at the same residential address and if the guardianship or other legal authority is not granted solely for educational needs or school attendance purposes.

The schools of the District shall be open and free through the completion of the secondary program to all persons between the ages of five (5) and twenty one (21) years whose parents, legal guardians, or other persons having lawful control of the person under an order of a court reside within the District and to all persons between those ages who have been legally transferred to the District for educational purposes.

Any person eighteen (18) years of age or older may establish a residence separate and apart from his or her parents or guardians for school attendance purposes.

In order for a person under the age of eighteen (18) years to establish a residence for the purpose of attending the District's schools separate and apart from his or her parents, guardians, or other persons having lawful control of him or her under an order of a court, the person must actually reside in the District for a primary purpose other than that of school attendance. However, a student previously enrolled in the district who is placed under the legal guardianship of a noncustodial parent living outside the district by a custodial parent on active military duty may continue to attend district schools. A foster child who was previously enrolled in a District school and who has had a change in placement to a residence outside the District, may continue to remain enrolled in his/her current school unless the presiding court rules otherwise.

Under instances prescribed in A.C.A. § 6-18-203, a child or ward of an employee of the district or of the education coop to which the district belongs may enroll in the district even though the employee and his/her child or ward reside outside the district.

Note: ¹ Residency requirements of homeless students is governed by policy 4.40—HOMELESS STUDENTS. Residency requirements governing foster children are governed by policy 4.52—STUDENTS WHO ARE FOSTER CHILDREN

4.2—ENTRANCE REQUIREMENTS

To enroll in a school in the District, the child must be a resident of the District as defined in District policy (4.1—RESIDENCE REQUIREMENTS), meet the criteria outlined in policy 4.40—HOMELESS STUDENTS or in policy 4.52—STUDENTS WHO ARE FOSTER CHILDREN, be accepted as a transfer student under the provisions of policy 4.4, or participate under a school choice option and submit the required paperwork as required by the choice option.

Students may enter kindergarten if they will attain the age of five (5) on or before August 1 of the year in which they are seeking initial enrollment. Any student who has been enrolled in a state-accredited or state-approved kindergarten program in another state for at least sixty (60) days, who will

become five (5) years old during the year in which he/she is enrolled in kindergarten, and who meets the basic residency requirement for school attendance may be enrolled in kindergarten upon written request to the District.

Any child who will be six (6) years of age on or before October 1 of the school year of enrollment and who has not completed a state-accredited kindergarten program shall be evaluated by the district and may be placed in the first grade if the results of the evaluation justify placement in the first grade and the child's parent or legal guardian agrees with placement in the first grade; otherwise the child shall be placed in kindergarten.

Any child may enter first grade in a District school if the child will attain the age of six (6) years during the school year in which the child is seeking enrollment and the child has successfully completed a kindergarten program in a public school in Arkansas.

Any child who has been enrolled in the first grade in a state-accredited or state-approved elementary school in another state for a period of at least sixty (60) days, who will become age six (6) years during the school year in which he/she is enrolled in grade one (1), and who meets the basic residency requirements for school attendance may be enrolled in the first grade.

Students who move into the District from an accredited school shall be assigned to the same grade as they were attending in their previous school (mid-year transfers) or as they would have been assigned in their previous school. Home-schooled and private school students shall be evaluated by the District to determine their appropriate grade placement.

The district shall make no attempt to ascertain the immigration status, legal or illegal, of any student or his/her parent or legal guardian presenting for enrollment.

Prior to the child's admission to a District school:

1. The parent, guardian, or other responsible person shall furnish the child's social security number, or if they request, the district will assign the child a nine (9) digit number designated by the department of education.
2. The parent, guardian, or other responsible person shall provide the district with one (1) of the following documents indicating the child's age:
 - a. A birth certificate;
 - b. A statement by the local registrar or a county recorder certifying the child's date of birth;
 - c. An attested baptismal certificate;
 - d. A passport;
 - e. An affidavit of the date and place of birth by the child's parent or guardian;
 - f. United States military identification; or
 - g. Previous school records.
3. The parent, guardian, or other responsible person shall indicate on school registration forms whether the child has been expelled from school in any other school district or is a party to an expulsion proceeding. The Board of Education reserves the right, after a hearing before the Board, not to allow any person who has been expelled from another school district to enroll as a student until the time of the person's expulsion has expired.
4. In accordance with Policy 4.57—IMMUNIZATIONS, the child shall be age appropriately immunized or have an exemption issued by the Arkansas Department of Health.

Uniformed Services Member's Children

For the purposes of this policy:

"active duty members of the uniformed services" includes members of the National Guard and Reserve on active duty orders pursuant to 10 U.S.C. Section 1209 and 1211;

"uniformed services" means the Army, Navy, Air Force, Marine Corps, Coast Guard as well as the Commissioned Corps of the National Oceanic and Atmospheric Administration, and Public Health Services;

"veteran" means: a person who served in the uniformed services and who was discharged or released there from under conditions other than dishonorable.

"Eligible child" means the children of:

- active duty members of the uniformed services;
- members or veterans of the uniformed services who are severely injured and medically discharged or retired for a period of one (1) year after medical discharge or retirement; and
- members of the uniformed services who die on active duty as a result of injuries sustained on active duty for a period of one (1) year after death.

An eligible child as defined in this policy shall:

1. be allowed to continue his/her enrollment at the grade level commensurate with his/her grade level he/she was in at the time of transition from his/her previous school, regardless of age;
2. be eligible for enrollment in the next highest grade level, regardless of age if the student has satisfactorily completed the prerequisite grade level in his/her previous school;
3. enter the District's school on the validated level from his/her previous accredited school when transferring into the District after the start of the school year;
4. be enrolled in courses and programs the same as or similar to the ones the student was enrolled in his/her previous school to extent that space is available. This does not prohibit the District from performing subsequent evaluations to ensure appropriate placement and continued enrollment of the student in the courses/ and/or programs;
5. be provided services comparable to those the student with disabilities received in his/her previous school based on his/her previous Individualized Education Program (IEP). This does not preclude the District school from performing subsequent evaluations to ensure appropriate placement of the student;
6. make reasonable accommodations and modifications to address the needs of an incoming student with disabilities, subject to an existing 504 or Title II Plan, necessary to provide the student with equal access to education. This does not preclude the District school from performing subsequent evaluations to ensure appropriate placement of the student;
7. be enrolled by an individual who has been given the special power of attorney for the student's guardianship. The individual shall have the power to take all other actions requiring parental participation and/or consent;
8. be eligible to continue attending District schools if he/she has been placed under the legal guardianship of a noncustodial parent living outside the district by a custodial parent on active military duty.

1. The child is enrolled in private or parochial school.
2. The child is being home-schooled and the conditions of policy (4.6 - HOME SCHOOLING) have been met.
3. The child will not be age six (6) on or before August 1 of that particular school year and the parent, guardian, or other person having custody or charge of the child elects not to have him/her attend kindergarten. 4.4—STUDENT TRANSFERS

The Pottsville School District shall review and accept or reject requests for transfers, both into and out of the district, on a case by case basis at regularly scheduled board meetings.

The District may reject a nonresident's application for admission if its acceptance would necessitate the addition of staff or classrooms, exceed the capacity of a program, class, grade level, or school building, or cause the District to provide educational services not currently provided in the affected school. The District shall reject applications that would cause it to be out of compliance with applicable laws and regulations regarding desegregation.

Any student transferring from a school accredited by the Department of Education to a school in this district shall be placed into the same grade the student would have been in had the student remained at the former school. Any grades, course credits, and/or promotions received by a student while enrolled in the Division of Youth Services system of education shall be considered transferable in the same manner as those grades, course credits, and promotions from other accredited Arkansas public educational entities.

Any student transferring from home school or a school that is not accredited by the Department of Education to a District school shall be evaluated by District staff to determine the student's appropriate grade placement.

The Board of Education reserves the right, after a hearing before the Board, not to allow any person who has been expelled from another district to enroll as a student until the time of the person's expulsion has expired.

Except as otherwise required or permitted by law, the responsibility for transportation of any nonresident student admitted to a school in this District shall be borne by the student or the student's parents. The District and the resident district may enter into a written agreement with the student or student's parents to provide transportation to or from the District, or both.

4.5—SCHOOL CHOICE

Standard School Choice

Exemption

The District is under an enforceable desegregation court order/court-approved desegregation plan¹ regarding the effects of past racial segregation in student assignment and has submitted the appropriate documentation to the Arkansas Department of Education (ADE).² As a result of the desegregation order/desegregation plan¹, the District is exempt from the provisions of the Public School Choice Act of 2015 (Standard School Choice) and the Arkansas Opportunity Public School Choice Act of 2004 (Opportunity School Choice). The District shall notify the superintendents of each of its geographically contiguous school districts of its exemption.³ The exemption prohibits the District from accepting any school choice applications from students wishing to transfer into or out of the District through standard School Choice or Opportunity School Choice.⁴

Definition

"sibling" means each of two (2) or more children having a common parent in common by blood, adoption, marriage, or foster care.

Transfers Into the District

Capacity Determination and Public Pronouncement

The Board of Directors will adopt a resolution containing the capacity standards for the District. The resolution will contain the acceptance determination criteria identified by academic program, class, grade level, and individual school. The school is not obligated to add any teachers, other staff, or classrooms to accommodate choice applications. The District may only deny a Standard School Choice application if the District has a lack of capacity by the District having reached ninety percent (90%) of the maximum student population in a program, class, grade level, or school building authorized by the Standards or other State/Federal law.⁵

The District shall advertise in appropriate broadcast media and either print media or on the Internet to inform students and parents in adjoining districts of the range of possible openings available under the School Choice program. The public pronouncements shall state the application deadline and the requirements and procedures for participation in the program. Such pronouncements shall be made in the spring, but in no case later than March 1.⁶

Application Process

The student's parent shall submit a school choice application on a form approved by ADE to this district. The transfer application must be postmarked or hand delivered on or before May 1 of the year preceding the fall semester the applicant would begin school in the District. The District shall date and time stamp all applications as they are received in the District's central office. It is the District's responsibility to send a copy of the

application that includes the date and time stamp to the student's resident district.⁷ Applications postmarked or hand delivered on or after May 2 will not be accepted. Statutorily, preference is required to be given to siblings of students who are already enrolled in the District. Therefore, siblings whose applications fit the capacity standards approved by the Board of Directors may be approved ahead of an otherwise qualified non-sibling applicant who submitted an earlier application as identified by the application's date and time stamp.

The approval of any application for a choice transfer into the District is potentially limited by the applicant's resident district's statutory limitation of losing no more than three percent (3%) of its past year's student enrollment due to Standard School Choice. As such, any District approval of a choice application prior to July 1 is provisional pending a determination that the resident district's three percent (3%) cap has not been reached.

The Superintendent will consider all properly submitted applications for School Choice. By July 1, the Superintendent shall notify the parent and the student's resident district, in writing, of the decision to accept or reject the application.

Accepted Applications

Applications which fit within the District's stated capacity standards shall be provisionally accepted, in writing, with the notification letter stating a reasonable timeline by which the student shall enroll in the District by taking the steps detailed in the letter, including submission of all required documents. If the student fails to enroll within the stated timeline, or if all necessary steps to complete the enrollment are not taken, or examination of the documentation indicates the applicant does not meet the District's stated capacity standards, the acceptance shall be null and void.⁸

A student, whose application has been accepted and who has enrolled in the District, is eligible to continue enrollment until completing his/her secondary education. Continued enrollment is conditioned upon the student meeting applicable statutory and District policy requirements. Any student who has been accepted under choice and who either fails to initially enroll under the timelines and provisions provided in this policy or who chooses to return to his/her resident district voids the transfer and must reapply if, in the future, the student seeks another school choice transfer. A subsequent transfer application will be subject to the capacity standards applicable to the year in which the application is considered by the District.

A present or future sibling of a student who continues enrollment in this District may enroll in the District by submitting a Standard School Choice application. Applications of siblings of presently enrolled choice students are subject to the provisions of this policy including the capacity standards applicable to the year in which the sibling's application is considered by the District. A sibling who enrolls in the District through Standard School choice is eligible to remain in the District until completing his/her secondary education.

Students whose applications have been accepted and who have enrolled in the district shall not be discriminated against on the basis of gender, national origin, race, ethnicity, religion, or disability.

Rejected Applications

The District may reject an application for a transfer into the District under Standard School Choice due to a lack of capacity. However, the decision to accept or reject an application may not be based on the student's previous academic achievement, athletic or other extracurricular ability, English proficiency level, or previous disciplinary proceedings other than a current expulsion.⁹

An application may be provisionally rejected if it is for an opening that was included in the District's capacity resolution, but was provisionally filled by an earlier applicant. If the provisionally approved applicant subsequently does not enroll in the District, the provisionally rejected applicant could be provisionally approved and would have to meet the acceptance requirements to be eligible to enroll in the district.

Rejection of applications shall be in writing and shall state the reason(s) for the rejection. A student whose application was rejected may request a hearing before the State Board of Education to reconsider the application which must be done, in writing to the State Board within ten (10) days of receiving the rejection letter from the District.

Any applications that are denied due to the student's resident district reaching the three percent (3%) limitation cap shall be given priority for a choice transfer the following year in the order that the District received the original applications.

Transfers Out of the District

All Standard School Choice applications shall be granted unless the approval would cause the District to have a net enrollment loss (students transferring out minus those transferring in) of more than three percent (3%) of the average daily membership on October 15 of the immediately preceding year. By December 15 of each year, ADE shall determine and notify the District of the net number of allowable choice transfers. For the purpose of determining the three percent (3%) cap, siblings are counted as one student, and students are not counted if the student transfers from a school or district in:

- Academic Distress under either A.C.A. § 6-15-430(c)(1) or A.C.A. § 6-18-227; or
- Facilities Distress under A.C.A. § 6-21-812.

If, prior to July 1, the District receives sufficient copies of requests from other districts for its students to transfer to other districts to trigger the three percent (3%) cap, it shall notify each district the District received Standard School Choice applications from that it has tentatively reached the limitation cap. The District will use confirmations of approved choice applications from receiving districts to make a final determination of which applications it received that exceeded the limitation cap and notify each district that was the recipient of an application to that effect.¹⁰

Facilities Distress School Choice Applications

There are a few exceptions from the provisions of the rest of this policy that govern choice transfers triggered by facilities distress. Any student attending a school district that has been identified as being in facilities distress may transfer under the provisions of this policy, but with the following four (4) differences.

- The receiving district cannot be in facilities distress;
- The transfer is only available for the duration of the time the student's resident district remains in distress;
- The student is not required to meet the June 1 application deadline; and
- The student's resident district is responsible for the cost of transporting the student to this District's school.

Opportunity School Choice

Transfers Into or Within the District¹¹

For the purposes of this section of the policy, a "lack of capacity"¹² is defined as when the receiving school has reached the maximum student-to-teacher ratio allowed under federal or state law, the ADE Rules for the Standards of Accreditation, or other applicable rules. There is a lack of capacity if, as of the date of the application for Opportunity School Choice, ninety-five percent (95%) or more of the seats at the grade level at the nonresident school are filled.

Unless there is a lack of capacity¹² at the District's school or the transfer conflicts with the provisions of a federal desegregation order applicable to the District, a student who is enrolled in or assigned to a school classified by the ADE to be in academic distress is eligible to transfer to the school closest to the student's legal residence that is not in academic distress. The student's parent or guardian, or the student if over the age of eighteen (18), must successfully complete the necessary application process by July 30 preceding the initial year of desired enrollment.

Within thirty (30) days from receipt of an application from a student seeking admission under this section of the policy, the Superintendent shall notify in writing the parent or guardian, or the student if the student is over eighteen (18) years of age, whether the Opportunity School Choice application has been accepted or rejected. The notification shall be sent via First-Class Mail to the address on the application.

If the application is accepted, the notification letter shall state the deadline by which the student must enroll in the receiving school or the transfer will be null and void.

If the District rejects the application, the District shall state in the notification letter the specific reasons for the rejection.¹³ A parent or guardian, or the student if the student is over eighteen (18) years of age, may appeal the District's decision to deny the application to the State Board of Education. The appeal must be in writing to the State Board of Education via certified mail, return receipt requested, no later than ten (10) calendar days, excluding weekends and legal holidays, after the notice of rejection was received from the District.

A student's enrollment under Opportunity School Choice is irrevocable for the duration of the school year and is renewable until the student completes high school or is beyond the legal age of enrollment. This provision for continuing eligibility under Opportunity Choice does not negate the student's right to apply for transfer to a district other than the student's assigned school or resident district under the Standard School Choice provisions of this policy.

The District may, but is not obligated to provide transportation to and from the transferring district.¹⁴

Transfers out of, or within, the District¹¹

If a District school or the District has been classified by the ADE as being in academic distress the District shall timely notify the parent, guardian, or student, if the student is over eighteen (18) years of age, as soon as practicable after the academic distress designation is made of all options available under Opportunity Choice. The District shall offer the parent or guardian, or the student if the student is over eighteen (18) years of age, an opportunity to enroll the student in any public school or school district that has not been classified by the ADE as a public school or school district in academic distress.

Additionally, the District shall request public service announcements to be made over the broadcast media and in the print media at such times and in such a manner as to inform parents or guardians of students in adjoining districts of the availability of the program, the application deadline, and the requirements and procedure for nonresident students to participate in the program.¹⁵

4.6—HOME SCHOOLING

Parents or legal guardians desiring to provide a home school for their children must give written notice to the Superintendent of their intent to do so and sign a waiver acknowledging that the State of Arkansas is not liable for the education of their children during the time the parents choose to home school. Notice shall be given:

1. At the beginning of each school year, but no later than August 15;
2. By December 15 for parents who decide to start home schooling at the beginning of the spring semester; or
3. Fourteen (14) calendar days prior to withdrawing the child (provided the student is not currently under disciplinary action for violation of any written school policy, including, but not limited to, excessive absences) and at the beginning of each school year thereafter.

The parents or legal guardians shall deliver written notice in person to the Superintendent the first time such notice is given and the notice must include:

1. The name, date of birth, grade level, and the name and address of the school last attended, if any;
2. The location of the home school;
3. The basic core curriculum to be offered;
4. The proposed schedule of instruction; and
5. The qualifications of the parent-teacher.

To aid the District in providing a free and appropriate public education to students in need of special education services, the parents or legal guardians home-schooling their children shall provide information which might indicate the need for special education services.

4.7—ABSENCES

If any student's Individual Education Program (IEP) or 504 Plan conflicts with this policy, the requirements of the student's IEP or 504 Plan take precedence.

Education is more than the grades students receive in their courses. Important as that is, students' regular attendance at school is essential to their social and cultural development and helps prepare them to accept responsibilities they will face as an adult. Interactions with other students and participation in the instruction within the classroom enrich the learning environment and promote a continuity of instruction which results in higher student achievement.

Absences for students enrolled in digital courses shall be determined by the online attendance and time the student is working on the course rather than the student's physical presence at school. Students who are scheduled to have a dedicated period for a digital class shall not be considered absent if the student logs the correct amount of time and completes any required assignments; however, a student who fails to be physically present for an assigned period may be disciplined in accordance with the District's truancy policy.

Excused Absences

Excused absences are those where the student was on official school business or when the absence was due to one of the following reasons and the student brings a written statement to the principal or designee upon his/her return to school from the parent or legal guardian stating such reason. A written statement presented for an absence having occurred more than five (5) school days prior to its presentation will not be accepted.

1. The student's illness or when attendance could jeopardize the health of other students. A maximum of ten (10) such days are allowed per semester unless the condition(s) causing such absences is of a chronic or recurring nature, is medically documented, and approved by the principal.

2. Death or serious illness in their immediate family;
3. Observance of recognized holidays observed by the student's faith;
4. Attendance at an appointment with a government agency;
5. Attendance at a medical appointment;
6. Exceptional circumstances with prior approval of the principal;
7. Participation in an FFA, FHA, or 4-H sanctioned activity;
8. Participation in the election poll workers program for high school students.
9. Absences granted to allow a student to visit his/her parent or legal guardian who is a member of the military and been called to active duty, is on leave from active duty, or has returned from deployment to a combat zone or combat support posting. The number of additional excused absences shall be at the discretion of the superintendent or designee.
10. Absences granted, at the Superintendent's discretion, to seventeen (17) year-old students who join the Arkansas National Guard while in eleventh grade to complete basic combat training between grades eleven (11) and (12).
11. Absences for students excluded from school by the Arkansas Department of Health during a disease outbreak because the student has an immunization waiver or whose immunizations are not up to date.
12. Students who serve as pages for a member of the General Assembly shall be considered on instructional assignment and shall not be considered absent from school for the day the student is serving as a page.
13. For purposes pre-approved by the school administration such as visiting prospective colleges, to obey a subpoena, or attend an appointment at a government agency.

It is the Arkansas General Assembly's intention that students having excessive absences be given assistance in obtaining credit for their courses. Excessive absences may, however, be the basis for the denial of course credit, promotion, or graduation.

Unexcused Absences

Absences not defined above or not having an accompanying note from the parent or legal guardian, presented in the timeline required by this policy, shall be considered as unexcused absences. Students with ten (10) unexcused absences in a course in a semester may not receive credit for that course. At the discretion of the principal after consultation with persons having knowledge of the circumstances of the unexcused absences, the student may be denied promotion or graduation. Excessive absences shall not be a reason for expulsion or dismissal of a student.

When a student has three (3), six (6), and nine (9) unexcused absences, his/her parents, guardians, or persons in loco parentis shall be notified. Notification shall be by telephone by the end of the school day in which such absence occurred or by regular mail with a return address sent no later than the following school day.

Whenever a student exceeds ten (10) unexcused absences in a semester, the District shall notify the prosecuting authority and the parent, guardian, or persons in loco parentis shall be subject to a civil penalty as prescribed by law.

It is the Arkansas General Assembly's intention that students having excessive absences be given assistance in obtaining credit for their courses. Excessive absences may, however, be the basis for the denial of course credit, promotion, or graduation.

Therefore, at any time prior to when a student exceeds the number of unexcused absences permitted by this policy, the student, or his/her parent, guardian, or person in loco parentis may petition the school or district's administration for special arrangements to address the student's unexcused absences. If formal arrangements are granted, they shall be formalized into a written agreement which will include the conditions of the agreement and the consequences for failing to fulfill the agreement's requirements. The agreement shall be signed by the student, the student's parent, guardian, or person in loco parentis, and the school or district administrator or designee.

Students who attend in-school suspension shall not be counted absent for those days.

Days missed due to out-of-school suspension or expulsion shall be unexcused absences.

The District shall notify the Department of Finance and Administration whenever a student fourteen (14) years of age or older is no longer in school. The Department of Finance and Administration is required to suspend the former student's operator's license unless he/she meets certain requirements specified in the statute.

Applicants for an instruction permit or for a driver's license by persons less than eighteen (18) years old on October 1 of any year are required to provide proof of a high school diploma or enrollment and regular attendance in an adult education program or a public, private, or parochial school prior to receiving an instruction permit. To be issued a driver's license, a student enrolled in school shall present proof of a "C" average for the previous semester or similar equivalent grading period for which grades are reported as part of the student's permanent record.

4.8—MAKE-UP WORK

Students who miss school due to an excused absence shall be allowed to make up the work they missed during their absence under the following rules.

1. Students are responsible for asking the teachers of the classes they missed what assignments they need to make up. Parents of elementary students should work with their child's teacher to ensure students receive make-up assignments.
2. Teachers are responsible for providing the missed assignments when asked by a returning student.
3. Students are required to ask for their assignments on their first day back at school or their first class day after their return.
4. Make-up tests are to be rescheduled at the discretion of the teacher, but must be aligned with the schedule of the missed work to be made up.
5. Students shall have one class day to make up their work for each class day they are absent.
6. Make-up work which is not turned in within the make-up schedule for that assignment shall receive a zero.
7. Students are responsible for turning in their make-up work without the teacher having to ask for it.
8. Students who are absent on the day their make-up work is due must turn in their work the day they return to school whether or not the class for which the work is due meets the day of their return.
9. As required/permitted by the student's Individual Education Program or 504 Plan.

Work may not be made up for credit for unexcused absences unless the unexcused absences are part of a signed agreement as permitted by policy

4.7—ABSENCES. Out-of-school suspensions are unexcused absences.

Work missed while a student is expelled from school may not be made up for credit and students shall receive a zero for missed assignments.

In lieu of the timeline above, assignments for students who are excluded from school by the Arkansas Department of Health during a disease outbreak are to be made up as set forth in Policy 4.57—IMMUNIZATIONS.

4.9—TARDIES

Promptness is an important character trait that District staff is encouraged to model and help develop in our schools' students. At the same time, promptness is the responsibility of each student. Students who are late to class show a disregard for both the teacher and their classmates which compromises potential student achievement.

The District has a limited open forum granting equal access to the Boy Scouts of America and other youth groups.

4.12—STUDENT ORGANIZATIONS/EQUAL ACCESS

Non-curriculum-related secondary school student organizations wishing to conduct meetings on school premises during non-instructional time shall not be denied equal access on the basis of the religious, political, philosophical, or other content of the speech at such meetings. Such meetings must meet the following criteria.

1. The meeting is to be voluntary and student initiated;
2. There is no sponsorship of the meeting by the school, the government, or its agents or employees;
3. The meeting must occur during non-instructional time;
4. Employees or agents of the school are present at religious meetings only in a non-participatory capacity;
5. The meeting does not materially and substantially interfere with the orderly conduct of educational activities within the school; and
6. Non-school persons may not direct, conduct, control, or regularly attend activities of student groups.

All meetings held on school premises must be scheduled and approved by the principal. The school, its agents, and employees retain the authority to maintain order and discipline, to protect the well-being of students and faculty, and to assure that attendance of students at meetings is voluntary.

Fraternities, sororities, and secret societies are forbidden in the District's schools. Membership to student organizations shall not be by a vote of the organization's members, nor be restricted by the student's race, religion, sex, national origin, or other arbitrary criteria. Hazing, as defined by law, is forbidden in connection with initiation into, or affiliation with, any student organization, extracurricular activity or sport program. Students who are convicted of participation in hazing or the failure to report hazing shall be expelled.¹

4.13—PRIVACY OF STUDENTS' RECORDS/ DIRECTORY INFORMATION

Except when a court order regarding a student has been presented to the district to the contrary, all students' education records are available for inspection and copying by the parents of his/her student who is under the age of eighteen (18). At the age of eighteen (18), the right to inspect and copy a student's records transfers to the student. A student's parent or the student, if over the age of 18, requesting to review the student's education records will be allowed to do so within no more than forty five (45) days of the request. The district forwards education records, including disciplinary records, to schools that have requested them and in which the student seeks or intends to enroll, or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer.

The district shall receive written permission before releasing education records to any agency or individual not authorized by law to receive and/or view the education records without prior parental permission. The District shall maintain a record of requests by such agencies or individuals for access to, and each disclosure of, personally identifiable information (PII) from the education records of each student. Disclosure of education records is authorized by law to school officials with legitimate educational interests. A personal record kept by a school staff member is **not** considered an education record if it meets the following tests.

- it is in the sole possession of the individual who made it;
- it is used only as a personal memory aid; and
- information contained in it has never been revealed or made available to any other person, except the maker's temporary substitute.

For the purposes of this policy a school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school board; a person or company with whom the school has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

For the purposes of this policy a school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility, contracted duty, or duty of elected office.

In addition to releasing PII to school officials without permission, the District may disclose PII from the education records of students in foster care placement to the student's caseworker or to the caseworker's representative without getting prior consent of the parent (or the student if the student is over eighteen (18)). For the District to release the student's PII without getting permission:

- The student must be in foster care;
- The individual to whom the PII will be released must have legal access to the student's case plan; and
- The Arkansas Department of Human Services, or a sub-agency of the Department, must be legally responsible for the care and protection of the student.

The District discloses PII from an education record to appropriate parties, including parents, in connection with an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals. The superintendent or designee shall determine who will have access to and the responsibility for disclosing information in emergency situations.

When deciding whether to release PII in a health or safety emergency, the District may take into account the totality of the circumstances pertaining to a threat to the health or safety of a student or other individuals. If the District determines that there is an articulable and significant threat to the health or safety of a student or other individuals, it may disclose information from education records to any person whose knowledge of the information is necessary to protect the health or safety of the student or other individuals.

For purposes of this policy, the Pottsville School District does not distinguish between a custodial and noncustodial parent, or a non-parent such as a person acting in loco parentis or a foster parent with respect to gaining access to a student's records. Unless a court order restricting such access has been presented to the district to the contrary, the fact of a person's status as parent or guardian, alone, enables that parent or guardian to review and copy his child's records.

If there exists a court order which directs that a parent not have access to a student or his records, the parent, guardian, person acting in loco parentis, or an agent of the Department of Human Services must present a file-marked copy of such order to the building principal and the superintendent. The school will make good-faith efforts to act in accordance with such court order, but the failure to do so does not impose legal liability upon the school. The actual responsibility for enforcement of such court orders rests with the parents or guardians, their attorneys and the court which issued the order.

A parent or guardian does not have the right to remove any material from a student's records, but such parent or guardian may challenge the accuracy of a record. The right to challenge the accuracy of a record does not include the right to dispute a grade, disciplinary rulings, disability placements, or other such determinations, which must be done only through the appropriate teacher and/or administrator, the decision of whom is final. A challenge to the accuracy of material contained in a student's file must be initiated with the building principal, with an appeal available to the Superintendent or his designee. The challenge shall clearly identify the part of the student's record the parent wants changed and specify why he/she believes it is inaccurate or misleading. If the school determines not to amend the record as requested, the school will notify the requesting parent or student of the decision and inform them of their right to a hearing regarding the request for amending the record. The parent or eligible student will be provided information regarding the hearing procedure when notified of the right to a hearing.

Unless the parent or guardian of a student (or student, if above the age of eighteen [18]) objects, "directory information" about a student may be made available to the public, military recruiters, post-secondary educational institutions, prospective employers of those students, as well as school publications such as annual yearbooks and graduation announcements. "Directory information" includes, but is not limited to, a student's name, address, telephone number, electronic mail address, photograph, date and place of birth, dates of attendance, his/her placement on the honor roll (or the receipt of other types of honors), as well as his/her participation in school clubs and extracurricular activities, among others. If the student participates in inherently public activities (for example, basketball, football, or other interscholastic activities), the publication of such information will be beyond the control of the District. "Directory information" also includes a student identification (ID) number, user ID, or other unique personal identifier used by a student for purposes of accessing or communicating in electronic systems and a student ID number or other unique personal identifier that is displayed on a student's ID badge, provided the ID cannot be used to gain access to education records except when used in conjunction with one or more factors that authenticate the user's identity, such as a personal identification number (PIN), password or other factor known or possessed only by the authorized user,

A student's name and photograph will only be displayed on the district or school's web page(s) after receiving the written permission from the student's parent or student if over the age of 18.

The form for objecting to making directory information available is located in the back of the student handbook and must be completed and signed by the parent or age-eligible student and filed with the building principal's office no later than ten (10) school days after the beginning of each school year or the date the student is enrolled for school. Failure to file an objection by that time is considered a specific grant of permission. The district is required to continue to honor any signed-opt out form for any student no longer in attendance at the district.

The right to opt out of the disclosure of directory information under Family Educational Rights and Privacy Act (FERPA) does not prevent the District from disclosing or requiring a student to disclose the student's name, identifier, or institutional email address in a class in which the student is enrolled.

Parents and students over the age of 18 who believe the district has failed to comply with the requirements for the lawful release of student records may file a complaint with the U.S. Department of Education at

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW

4.14—STUDENT PUBLICATIONS AND THE DISTRIBUTION OF LITERATURE

Student Publications

All publications that are supported financially by the school or by use of school facilities, or are produced in conjunction with a class shall be considered school-sponsored publications. School publications do not provide a forum for public expression. Such publications, as well as the content of student expression in school-sponsored activities, shall be subject to the editorial control of the District's administration whose actions shall be reasonably related to legitimate pedagogical concerns and adhere to the following limitations.

1. Advertising may be accepted for publications that does not condone or promote products that are inappropriate for the age and maturity of the audience or that endorse such things as tobacco, alcohol, or drugs.
2. Publications may be regulated to prohibit writings which are, in the opinion of the appropriate teacher and/or administrator, ungrammatical, poorly written, inadequately researched, biased or prejudiced, vulgar or profane, or unsuitable for immature audiences.
3. Publications may be regulated to refuse to publish material which might reasonably be perceived to advocate drug or alcohol use, irresponsible sex, or conduct otherwise inconsistent with the shared values of a civilized social order, or to associate the school with any position other than neutrality on matters of political controversy.
4. Prohibited publications include:
 - a. Those that are obscene as to minors;
 - b. Those that are libelous or slanderous, including material containing defamatory falsehoods about public figures or governmental officials, which are made with knowledge of their falsity or reckless disregard of the truth;
 - c. Those that constitute an unwarranted invasion of privacy as defined by state law,
 - d. Publications that suggest or urge the commission of unlawful acts on the school premises;
 - e. Publications which suggest or urge the violation of lawful school regulations;
 - f. Hate literature that scurrilously attacks ethnic, religious, or racial groups.

Student Publications on School Web Pages

Student publications that are displayed on school web pages shall follow the same guidelines as listed above plus they shall

1. Not contain any non-educational advertisements. Additionally, student web publications shall;
2. Not contain any personally identifying information, as defined by "Directory Information" in **Policy 4.13** (Privacy of Student Records), without the written permission of the parent of the student or the student if over eighteen (18);
3. State that the views expressed are not necessarily those of the School Board or the employees of the district.

Student Distribution of Non-school Literature, Publications, and Materials

A student or group of students who distribute ten (10) or fewer copies of the same non-school literature, publications, or materials (hereinafter "non-school materials"), shall do so in a time, place, and manner that does not cause a substantial disruption of the orderly education environment. A student or group of students wishing to distribute more than ten (10) copies of non-school materials shall have school authorities review their non-school materials at least three (3) school days in advance of their desired time of dissemination. School authorities shall review the non-school materials, prior to their distribution and will bar from distribution those non-school materials that are obscene, libelous, pervasively indecent, or advertise unlawful products or services. Material may also be barred from distribution if there is evidence that reasonably supports a forecast that a

substantial disruption of the orderly operation of the school or educational environment will likely result from the distribution. Concerns related to any denial of distribution by the principal shall be heard by the superintendent, whose decision shall be final.

The school principal or designee shall establish reasonable regulations governing the time, place, and manner of student distribution of non-school materials.

The regulations shall:

1. Be narrowly drawn to promote orderly administration of school activities by preventing disruption and may not be designed to stifle expression;
2. Be uniformly applied to all forms of non-school materials;
3. Allow no interference with classes or school activities;
4. Specify times, places, and manner where distribution may and may not occur; and
5. Not inhibit a person's right to accept or reject any literature distributed in accordance with the regulations.

The Superintendent, along with the student publications advisors, shall develop administrative regulations for the implementation of this policy. The regulations shall include definitions of terms and timelines for the review of materials.

4.15—CONTACT WITH STUDENTS WHILE AT SCHOOL

CONTACT BY PARENTS

Parents wishing to speak to their children during the school day shall register first with the office.

CONTACT BY NON-CUSTODIAL PARENTS

If there is any question concerning the legal custody of the student, the custodial parent shall present documentation to the principal or the principal's designee establishing the parent's custody of the student. It shall be the responsibility of the custodial parent to make any court ordered "no contact" or other restrictions regarding the non-custodial parent known to the principal by presenting a copy of a file-marked court order. Without such a court order on file, the school will release the child to either of his/her parents. Non-custodial parents who file with the principal a date-stamped copy of current court orders granting visitation may eat lunch, volunteer in their child's classroom, or otherwise have contact with their child during school hours and the prior approval of the school's principal. Such contact is subject to the limitations outlined in Policy 4.16, Policy 6.5, and any other policies that may apply.

Arkansas law provides that, in order to avoid continuing child custody controversies from involving school personnel and to avoid disruptions to the educational atmosphere in the District's schools, the transfer of a child between his/her custodial parent and non-custodial parent, when both parents are present, shall not take place on the school's property on normal school days during normal hours of school operation. The custodial or non-custodial parent may send to/drop off the student at school to be sent to/picked up by the other parent on predetermined days in accordance with any court order provided by the custodial parent or by a signed agreement between both the custodial and non-custodial parents that was witnessed by the student's building principal. Unless a valid no-contact order has been filed with the student's principal or the principal's designee, district employees shall not become involved in disputes concerning whether or not that parent was supposed to pick up the student on any given day.

CONTACT BY LAW ENFORCEMENT, SOCIAL SERVICES, OR BY COURT ORDER

State Law requires that Department of Human Services employees, local law enforcement, or agents of the Crimes Against Children Division of the Department of Arkansas State Police, may interview students without a court order for the purpose of investigating suspected child abuse. In instances where the interviewers deem it necessary, they may exercise a "72-hour hold" without first obtaining a court order. Except as provided below, other questioning of students by non-school personnel shall be granted only with a court order directing such questioning, with permission of the parents of a student (or the student if above eighteen [18] years of age), or in response to a subpoena or arrest warrant.

If the District makes a report to any law enforcement agency concerning student misconduct or if access to a student is granted to a law enforcement agency due to a court order, the principal or the principal's designee shall make a good faith effort to contact the student's parent, legal guardian, or other person having lawful control by court order, or person acting in loco parentis identified on student enrollment forms. The principal or the principal's designee shall not attempt to make such contact if presented documentation by the investigator that notification is prohibited because a parent, guardian, custodian, or person standing in loco parentis is named as an alleged offender of the suspected child maltreatment. This exception applies only to interview requests made by a law enforcement officer, an investigator of the Crimes Against Children Division of the Department of Arkansas State Police, or an investigator or employee of the Department of Human Services.

In instances other than those related to cases of suspected child abuse, principals must release a student to either a police officer who presents a subpoena for the student, or a warrant for arrest, or to an agent of state social services or an agent of a court with jurisdiction over a child with a court order signed by a judge. Upon release of the student, the principal or designee shall give the student's parent, legal guardian, or other person having lawful control by court order, or person acting in loco parentis notice that the student has been taken into custody by law enforcement personnel or a state's social services agency. If the principal or designee is unable to reach the parent, he or she shall make a reasonable, good faith effort to get a message to the parent to call the principal or designee, and leave both a day and an after-hours telephone number.

4.17—STUDENT DISCIPLINE

The Pottsville School District Board of Education has a responsibility to protect the health, safety, and welfare of the District's students and employees. To help maintain a safe environment conducive to high student achievement, the Board establishes policies necessary to regulate student behavior to promote an orderly school environment that is respectful of the rights of others and ensures the uniform enforcement of student discipline. Students are responsible for their conduct that occurs: at any time on the school grounds; off school grounds at a school sponsored function, activity, or event; going to and from school or a school activity.

The District's administrators may also take disciplinary action against a student for off-campus conduct occurring at any time that would have a detrimental impact on school discipline, the educational environment, or the welfare of the students and/or staff. A student who has committed a criminal act while off campus and whose presence on campus could cause a substantial disruption to school or endanger the welfare of other students or staff is subject to disciplinary action up to and including expulsion. Such acts could include, but are not limited to a felony or an act that would be considered a felony if committed by an adult, an assault or battery, drug law violations, or sexual misconduct of a serious nature. Any disciplinary action pursued by the District shall be in accordance with the student's appropriate due process rights.

The District's licensed personnel policy committee shall review the student discipline policies annually and may recommend changes in the policies to the Pottsville School Board. The Board has the responsibility of determining whether to approve any recommended changes to student discipline policies.

The District's student discipline policies shall be distributed to each student during the first week of school each year and to new students upon their enrollment. Each student's parent or legal guardian shall sign and return to the school an acknowledgement form documenting that they have received the policies.

It is required by law that the principal or the person in charge report to the police any incidents the person has personal knowledge of or has received information leading to a reasonable belief that a person has committed or threatened to commit an act of violence or any crime involving a deadly weapon on school property or while under school supervision. If the person making the report is not the Superintendent, that person shall also inform the Superintendent of the incident. Additionally, the principal shall inform any school employee or other person who initially reported the incident that a report has been made to the appropriate law enforcement agency. The Superintendent or designee shall inform the Board of Directors of any such report made to law enforcement.

4.19—CONDUCT TO AND FROM SCHOOL AND TRANSPORTATION ELIGIBILITY

Students are subject to the same rules of conduct while traveling to and from school as they are while on school grounds. Appropriate disciplinary actions may be taken against commuting students who violate student code of conduct rules.

The preceding paragraph also applies to student conduct while on school buses. Students shall be instructed in safe riding practices. The driver of a school bus shall not operate the school bus until every passenger is seated. Disciplinary measures for problems related to bus behavior shall include suspension or expulsion from school, or suspending or terminating the student's bus transportation privileges. Transporting students to and from school who have lost their bus transportation privileges shall become the responsibility of the student's parent or legal guardian.

4.20—DISRUPTION OF SCHOOL

No student shall by the use of violence, force, noise, coercion, threat, intimidation, fear, passive resistance, or any other conduct, intentionally cause the disruption of any lawful mission, process, or function of the school, or engage in any such conduct for the purpose of causing disruption or obstruction of any lawful mission, process, or function. Nor shall any student encourage any other student to engage in such activities.

Disorderly activities by any student or group of students that adversely affect the school's orderly educational environment shall not be tolerated at any time on school grounds. Teachers may remove from class and send to the principal or principal's designee office a student whose behavior is so unruly, disruptive, or abusive that it seriously interferes with the teacher's ability to teach the students, the class, or with the ability of the student's classmates to learn. Students who refuse to leave the classroom voluntarily will be escorted from the classroom by the school administration, the district resource officer, or, if necessary, local authorities.

4.21—STUDENT ASSAULT OR BATTERY

A student shall not threaten, physically abuse, or attempt to physically abuse, or behave in such a way as to be perceived to threaten bodily harm to any other person (student, school employee, or school visitor). Any gestures, vulgar, abusive or insulting language, taunting, threatening, harassing, or intimidating remarks by a student toward another person that threatens their well-being is strictly forbidden. This includes, but is not limited to, fighting, racial, ethnic, religious, or sexual slurs.

Furthermore, it is unlawful, during regular school hours, and in a place where a public school employee is required to be in the course of his or her duties, for any person to address a public school employee using language which, in its common understanding, is calculated to: a) cause a breach of the peace; b) materially and substantially interfere with the operation of the school; c) arouse the person to whom it is addressed to anger, to the extent likely to cause imminent retaliation. Students guilty of such an offense may be subject to legal proceedings in addition to student disciplinary measures.

4.22—WEAPONS AND DANGEROUS INSTRUMENTS

No student shall possess a weapon, display what appears to be a weapon, or threaten to use a weapon while in school, on or about school property, before or after school, in attendance at school or any school sponsored activity, en route to or from school or any school sponsored activity, off the school grounds at any school bus stop, or at any school sponsored activity or event.

A weapon is defined as any firearm; knife; razor; ice pick; dirk; box cutter; numchucks; pepper spray; mace; or other noxious spray; explosive; taser or other instrument that uses electrical current to cause neuromuscular incapacitation; or any other instrument or substance capable of causing bodily harm. For the purpose of this policy, "firearm" means any device designed, made, or adapted to expel a projectile by the action of an explosive or any device readily convertible to that use.

Possession means having a weapon, as defined in this policy, on the student's body or in an area under his/her control. If, a student discovers prior to any questioning or search by any school personnel that he/she has accidentally brought a weapon, other than a firearm, to school on his/her person, in a book bag/purse or in his/her vehicle on school grounds, and the student informs the principal or a staff person immediately, the student will not be considered to be in possession of a weapon unless it is a firearm. The weapon shall be confiscated and held in the office until such time as the student's parent/legal guardian shall pick up the weapon from the school's office. Repeated offenses are unacceptable and shall be grounds for disciplinary action against the student as otherwise provided for in this policy.

Except as permitted in this policy, students found to be in possession on the school campus of a firearm or weapon used in a threatening manner shall be recommended for expulsion for a period of not less than one year. The superintendent shall have the discretion to modify such expulsion recommendation for a student on a case-by-case basis. Parents or legal guardians of students expelled under this policy shall be given a copy of the current laws regarding the possibility of parental responsibility for allowing a child to possess a firearm on school property. Parents or legal guardians shall sign a statement acknowledging that they have read and understand said laws prior to readmitting the student. Parents or legal guardians of a student enrolling from another school after the expiration of an expulsion period for a firearm policy violation shall also be given a copy of the current laws regarding the possibility of parental responsibility for allowing a child to possess a firearm on school property. The parents or legal guardians shall sign a statement acknowledging that they have read and understand said laws prior to the student being enrolled in school.

The mandatory expulsion requirement for possession of a firearm does not apply to a firearm brought to school for the purpose of participating in activities approved and authorized by the district that include the use of firearms. Such activities may include ROTC programs, hunting safety or military education, or before or after-school hunting or rifle clubs. Firearms brought to school for such purposes shall be brought to the school employee designated to receive such firearms. The designated employee shall store the firearms in a secure location until they are removed for use in the approved activity.

The district shall report any student who brings a firearm to school to the criminal justice system or juvenile delinquency system by notifying local law enforcement.

Students who violate this policy may be subject to legal proceedings in addition to student disciplinary measures.

With the exception of recognized tobacco cessation products, this policy's prohibition includes any tobacco or nicotine delivery system or product. Specifically, the prohibition includes any product that is manufactured, distributed, marketed, or sold as e-cigarettes, e-cigars, e-pipes, or under any other name or descriptor.

4.24—DRUGS AND ALCOHOL

An orderly and safe school environment that is conducive to promoting student achievement requires a student population free from the deleterious effects of alcohol and drugs. Their use is illegal, disruptive to the educational environment, and diminishes the capacity of students to learn and function properly in our schools.

Therefore, no student in the Pottsville School District shall possess, attempt to possess, consume, use, distribute, sell, buy, attempt to sell, attempt to buy, give to any person, or be under the influence of any substance as defined in this policy, or what the student represents or believes to be any substance as defined in this policy. This policy applies to any student who: is on or about school property; is in attendance at school or any school sponsored activity; has left the school campus for any reason and returns to the campus; is en route to or from school or any school sponsored activity.

Prohibited substances shall include, but are not limited to, alcohol, or any alcoholic beverage, inhalants or any ingestible matter that alter a student's ability to act, think, or respond, LSD, or any other hallucinogen, marijuana, cocaine, heroin, or any other narcotic drug, PCP, amphetamines, steroids, "designer drugs", look-alike drugs, or any controlled substance.

Selling, distributing, or attempting to sell or distribute, or using over-the-counter or prescription drugs not in accordance with the recommended dosage is prohibited.

4.25—STUDENT DRESS AND GROOMING

The Pottsville School District Board of Education recognizes that dress can be a matter of personal taste and preference. At the same time, the District has a responsibility to promote an environment conducive to student learning. This requires limitations to student dress and grooming that could be disruptive to the educational process because they are immodest, disruptive, unsanitary, unsafe, could cause property damage, or are offensive to common standards of decency.

Students are prohibited from wearing, while on the school grounds during the school day and at school-sponsored events, clothing that exposes underwear, buttocks, or the breast of a female. This prohibition does not apply, however to a costume or uniform worn by a student while participating in a school-sponsored activity or event.

The Superintendent shall establish student dress codes for the District's schools, to be included in the student handbook, and are consistent with the above criteria.

4.26—GANGS AND GANG ACTIVITY

The Board is committed to ensuring a safe school environment conducive to promoting a learning environment where students and staff can excel. An orderly environment cannot exist where unlawful acts occur causing fear, intimidation, or physical harm to students or school staff. Gangs and their activities create such an atmosphere and shall not be allowed on school grounds or at school functions.

The following actions are prohibited by students on school property or at school functions:

1. Wearing or possessing any clothing, bandanas, jewelry, symbol, or other sign associated with membership in, or representative of, any gang;
2. Engaging in any verbal or nonverbal act such as throwing signs, gestures, or handshakes representative of membership in any gang;
3. Recruiting, soliciting, or encouraging any person through duress or intimidation to become or remain a member of any gang; and/or
4. Extorting payment from any individual in return for protection from harm from any gang.

Students found to be in violation of this policy shall be subject to disciplinary action up to and including expulsion.

Students arrested for gang related activities occurring off school grounds shall be subject to the same disciplinary actions as if they had occurred on school grounds.

4.27—STUDENT SEXUAL HARASSMENT

The Pottsville School District is committed to having an academic environment in which all students are treated with respect and dignity. Student achievement is best attained in an atmosphere of equal educational opportunity that is free of discrimination. Sexual harassment is a form of discrimination that undermines the integrity of the educational environment and will not be tolerated.

Believing that prevention is the best policy, the District will periodically inform students and employees about the nature of sexual harassment, the procedures for registering a complaint, and the possible redress that is available. The information will stress that the district does not tolerate sexual harassment and that students can report inappropriate behavior of a sexual nature without fear of adverse consequences. The information will take into account and be appropriate to the age of the students.

It shall be a violation of this policy for any student to be subjected to, or to subject another person to, sexual harassment as defined in this policy. Any student found, after an investigation, to have engaged in sexual harassment will be subject to disciplinary action up to, and including, expulsion.

Sexual harassment refers to unwelcome sexual advances, requests for sexual favors, or other personally offensive verbal, visual, or physical conduct of a sexual nature made by someone under any of the following conditions:

1. Submission to the conduct is made, either explicitly or implicitly, a term or condition of an individual's education;
2. Submission to, or rejection of, such conduct by an individual is used as the basis for academic decisions affecting that individual; and/or

3. Such conduct has the purpose or effect of substantially interfering with an individual's academic performance or creates an intimidating, hostile, or offensive academic environment.

The terms "intimidating," "hostile," and "offensive" include conduct of a sexual nature which has the effect of humiliation or embarrassment and is sufficiently severe, persistent, or pervasive that it limits the student's ability to participate in, or benefit from, an educational program or activity. Actionable sexual harassment is generally established when an individual is exposed to a pattern of objectionable behaviors or when a single, serious act is committed. What is, or is not, sexual harassment will depend upon all of the surrounding circumstances. Depending upon such circumstances, examples of sexual harassment include, but are not limited to: unwelcome touching; crude jokes or pictures; discussions of sexual experiences; pressure for sexual activity; intimidation by words, actions, insults, or name calling; teasing related to sexual characteristics; or the belief or perception that an individual is not conforming to expected gender roles or conduct or is homosexual, regardless of whether or not the student self-identifies as homosexual; and spreading rumors related to a person's alleged sexual activities.

Students who believe they have been subjected to sexual harassment, or parents of a student who believes their child has been subjected to sexual harassment, are encouraged to file a complaint by contacting a counselor, teacher, Title IX coordinator, or administrator who will assist them in the complaint process. Under no circumstances shall a student be required to first report allegations of sexual harassment to a school contact person if that person is the individual who is accused of the harassment.

To the extent possible, complaints will be treated in a confidential manner. Limited disclosure may be necessary in order to complete a thorough investigation. Students who file a complaint of sexual harassment will not be subject to retaliation or reprisal in any form.

Students who knowingly fabricate allegations of sexual harassment shall be subject to disciplinary action up to and including expulsion.

Individuals who withhold information, purposely provide inaccurate facts, or otherwise hinder an investigation of sexual harassment shall be subject to disciplinary action up to and including expulsion.

4.28—LASER POINTERS

School personnel shall seize any laser pointer from the student possessing it and the student may reclaim it at the close of the school year, or when the student is no longer enrolled in the District.

4.29—COMPUTER USE POLICY

The Pottsville School District makes computers and/or computer Internet access available to students, to permit students to perform research and to allow students to learn how to use computer technology. Use of district computers is for educational and/or instructional purposes only. It is the policy of this school district to equip each computer with Internet filtering software designed to prevent users from accessing material that is harmful to minors. For the purposes of this policy "harmful to minors" is defined as any picture, image, graphic image file, or other visual depiction that--

- A. taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion;
- B. depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or
- C. perverted sexual acts, or a lewd exhibition of the genitals; and
- D. taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.

No student will be granted Internet access until and unless a computer-use agreement, signed by both the student and the parent or legal guardian (if the student is under the age of eighteen [18]) is on file. The current version of the computer use agreement is incorporated by reference into board policy and is considered part of the student handbook.

Student use of computers shall only be as directed or assigned by staff or teachers; students are advised that they enjoy no expectation of privacy in any aspect of their computer use, including email, and that monitoring of student computer use is continuous. Students must not disable or bypass security procedures, compromise, attempt to compromise, or defeat the district's technology network security or Internet filtering software, alter data without authorization, or disclose passwords to other students. Students who misuse district-owned computers or Internet access in any way,

including using computers to violate any other policy or contrary to the computer use agreement, or using the computers to access or create sexually explicit or pornographic text or graphics, will face disciplinary action, as specified in the student handbook and/or computer use agreement.

In an effort to help protect student welfare when they navigate the Internet, the district will work to educate students about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyberbullying awareness and response.

4.30—SUSPENSION FROM SCHOOL

Students who are not present at school cannot benefit from the educational opportunities the school environment affords. Administrators, therefore, shall strive to find ways to keep students in school as participants in the educational process. There are instances, however, when the needs of the other students or the interests of the orderly learning environment require the removal of a student from school. The Board authorizes school principals or their designees to suspend students for disciplinary reasons for a period of time not to exceed ten (10) school days, including the day upon which the suspension is imposed. The suspension may be in school or out of school. Students are responsible for their conduct that occurs:

- At any time on the school grounds;
- Off school grounds at a school-sponsored function, activity, or event;
- Going to and from school or a school activity.

A student may be suspended for behavior including, but not limited to that which:

1. Is in violation of school policies, rules, or regulations;
2. Substantially interferes with the safe and orderly educational environment;
3. School administrators believe will result in the substantial interference with the safe and orderly educational environment; and/or
4. Is insubordinate, incorrigible, violent, or involves moral turpitude.

Out of school suspension shall not be used to discipline a student for skipping class, excessive absences, or other forms of truancy.

The school principal or designee shall proceed as follows in deciding whether or not to suspend a student:

- a. the student shall be given written notice or advised orally of the charges against him/her;
- b. if the student denies the charges, he/she shall be given an explanation of the evidence against him/her and be allowed to present his/her version of the facts;
- c. if the principal finds the student guilty of the misconduct, he/she may be suspended.

When possible, notice of the suspension, its duration, and any stipulations for the student's re-admittance to class will be given to the parent(s), legal guardian(s), or to the student if age 18 or older prior to the suspension. Such notice shall be handed to the parent(s), legal guardian(s), or to the student if age 18 or older or mailed to the last address reflected in the records of the school district.

Generally, notice and hearing should precede the student's removal from school, but if prior notice and hearing are not feasible, as where the student's presence endangers persons or property or threatens disruption of the academic process, thus justifying immediate removal from school, the necessary notice and hearing should follow as soon as practicable.

It is the parents' or legal guardians' responsibility to provide current contact information to the district which the school shall use to immediately notify the parent or legal guardian upon the suspension of a student. The notification shall be by one of the following means, listed in order of priority:

- A primary call number
 - The contact may be by voice, voice mail, or text message
- An email address
- A regular first class letter to the last known mailing address

The district shall keep a log of contacts attempted and made to the parent or legal guardian.

During the period of their suspension, students serving out-of-school suspensions shall not be permitted on campus except to attend a student/parent/administrator conference.

During the period of their suspension, students serving in-school suspension shall not attend or participate in any school-sponsored activities during the imposed suspension.

Suspensions initiated by the principal or his/her designee may be appealed to the Superintendent, but not to the Board.

Suspensions initiated by the Superintendent may be appealed to the Board.

4.31—EXPULSION

The Board of Education may expel a student for a period longer than ten (10) school days for violation of the District's written discipline policies. The Superintendent may make a recommendation of expulsion to the Board of Education for student conduct deemed to be of such gravity that suspension would be inappropriate, or where the student's continued attendance at school would disrupt the orderly learning environment or would pose an unreasonable danger to the welfare of other students or staff.

The Superintendent or his/her designee shall give written notice to the parents or legal guardians (mailed to the address reflected on the District's records) that he/she will recommend to the Board of Education that the student be expelled for the specified length of time and state the reasons for the recommendation to expel. The notice shall give the date, hour, and place where the Board of Education will consider and dispose of the recommendation.

The hearing shall be conducted not later than ten (10) school days* following the date of the notice, except that representatives of the Board and student may agree in writing to a date not conforming to this limitation.

The President of the Board, Hearing Officer, or other designated Board member shall preside at the hearing. The student may choose to be represented by legal counsel. The hearing shall be conducted in open session of the Board unless the parent requests that the hearing be conducted in executive session. Any action taken by the Board shall be in open session.

During the hearing, the Superintendent will present evidence, including the calling of witnesses that gave rise to the recommendation of expulsion. The student, or his/her representative, may then present evidence including statements from persons with personal knowledge of the events or circumstances relevant to the charges against the student. Formal cross-examination will not be permitted. 4.32—SEARCH, SEIZURE, AND INTERROGATIONS

The District respects the rights of its students against arbitrary intrusion of their person and property. At the same time, it is the responsibility of school officials to protect the health, safety, and welfare of all students enrolled in the District in order to promote an environment conducive to student learning. The Superintendent, principals, and their designees have the right to inspect and search school property and equipment. They may also search students and their personal property in which the student has a reasonable expectation of privacy, when there is reasonable and individualized suspicion to believe such student or property contains illegal items or other items in violation of Board policy or dangerous to the

school community. School authorities may seize evidence found in the search and disciplinary action may be taken. Evidence found which appears to be in violation of the law shall be reported to the appropriate authority.

School property shall include, but not be limited to, lockers, desks, and parking lots, as well as personal effects left there by students. When possible, prior notice will be given and the student will be allowed to be present along with an adult witness, however, searches may be done at any time with or without notice or the student's consent. A personal search must not be excessively intrusive in light of the age and sex of the student and the nature of the infraction.

The Superintendent, principals, and their designees may request the assistance of law enforcement officials to help conduct searches. Such searches may include the use of specially trained dogs.

A school official of the same sex shall conduct personal searches with an adult witness of the same sex present.

State Law requires that Department of Human Services employees, local law enforcement, or agents of the Crimes Against Children Division of the Department of Arkansas State Police, may interview students without a court order for the purpose of investigating suspected child abuse. In instances where the interviewers deem it necessary, they may exercise a "72-hour hold" without first obtaining a court order. Other questioning of students by non-school personnel shall be granted only with a court order directing such questioning, with permission of the parents of a student (or the student if above eighteen [18] years of age), or in response to a subpoena or arrest warrant.

If the District makes a report to any law enforcement agency concerning student misconduct or if access to a student is granted to a law enforcement agency due to a court order, the principal or the principal's designee shall make a good faith effort to contact the student's parent, legal guardian, or other person having lawful control by court order, or person acting in loco parentis on student enrollment forms. The principal or the principal's designee shall not attempt to make such contact if presented documentation by the investigator that notification is prohibited because a parent, guardian, custodian, or person standing in loco parentis is named as an alleged offender of the suspected child maltreatment. This exception applies only to interview requests made by a law enforcement officer, an investigator of the Crimes Against Children Division of the Department of Arkansas State Police, or an investigator or employee of the Department of Human Services.

In instances other than those related to cases of suspected child abuse, principals must release a student to either a police officer who presents a subpoena for the student, or a warrant for arrest, or to an agent of state social services or an agent of a court with jurisdiction over a child with a court order signed by a judge. Upon release of the student, the principal or designee shall give the student's parent, legal guardian, or other person having lawful control by court order, or person acting in loco parentis notice that the student has been taken into custody by law enforcement personnel or a state's social services agency. If the principal or designee is unable to reach the parent, he or she shall make a reasonable, good faith effort to get a message to the parent to call the principal or designee, and leave both a day and an after-hours telephone number.

A student who has presented a valid driver's license and proof of insurance to the appropriate office personnel, may drive their vehicle to school. Vehicles driven to school shall be parked in the area designated for student parking. Parking on school property is a privilege which may be denied to a student for any disciplinary violation, at the discretion of the student's building principal.

It is understood that there is no expectation of privacy in vehicles in parking areas. 4.34—COMMUNICABLE DISEASES AND PARASITES

Students with communicable diseases or with human host parasites that are transmittable in a school environment shall demonstrate respect for other students by not attending school while they are capable of transmitting their condition to others. Students whom the school nurse determines are unwell or unfit for school attendance or who are believed to have a communicable disease or condition will be required to be picked up by their parent or guardian. Specific examples include, but are not limited to: Varicella (chicken pox), measles, scabies, conjunctivitis (Pink Eye), impetigo/MRSA (Methicillin-resistant *Staphylococcus aureus*), streptococcal and staphylococcal infections, ringworm, mononucleosis, Hepatitis A, B

or C, mumps, vomiting, diarrhea, and fever (100.4 F when taken orally). A student who has been sent home by the school nurse will be subsequently readmitted, at the discretion of the school nurse, when the student is no longer a transmission risk. In some instances, a letter from a health care provider may be required prior to the student being readmitted to the school.

To help control the possible spread of communicable diseases, school personnel shall follow the District's exposure control plan when dealing with any blood borne, foodborne, and airborne pathogens exposures. Standard precautions shall be followed relating to the handling, disposal, and cleanup of blood and other potentially infectious materials such as all body fluids, secretions and excretions (except sweat).

In accordance with 4.57—IMMUNIZATIONS, the District shall maintain a copy of each student's immunization record and a list of individuals with exemptions from immunization which shall be education records as defined in policy 4.13. That policy provides that an education record may be disclosed to appropriate parties in connection with an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals.

A student enrolled in the District who has an immunization exemption may be removed from school at the discretion of the Arkansas Department of Health during an outbreak of the disease for which the student is not vaccinated. The student may not return to the school until the outbreak has been resolved and the student's return to school is approved by the Arkansas Department of Health.

The parents or legal guardians of students found to have live human host parasites that are transmittable in a school environment will be asked to pick their child up immediately. The parents or legal guardians will be given information concerning the eradication and control of human host parasites. A student may be readmitted after the school nurse or designee has determined the student no longer has live human host parasites that are transmittable in a school environment.

Each school may conduct screenings of students for human host parasites that are transmittable in a school environment as needed. The screenings shall be conducted in a manner that respects the privacy and confidentiality of each student.

4.40—HOMELESS STUDENTS

The Pottsville School District will afford the same services and educational opportunities to homeless children as are afforded to non-homeless children. The Superintendent or his/her designee shall appoint an appropriate staff person to be the local educational liaison for homeless children and youth whose responsibilities shall include, but are not limited to:

- Receive appropriate time and training in order to carry out the duties required by law and this policy;
- Coordinate and collaborate with the State Coordinator, community, and school personnel responsible for education and related services to homeless children and youths;
- Ensure that school personnel receive professional development and other support regarding their duties and responsibilities for homeless youths;
- Ensure that unaccompanied homeless youths:
 - Are enrolled in school;
 - Have opportunities to meet the same challenging State academic standards as other children and youths; and
 - Are informed of their status as independent students under the Higher Education Act of 1965 and that they may obtain assistance from the LEA liaison to receive verification of such status for purposes of the Free Application for Federal Student Aid;
- Ensure that public notice of educational rights of the homeless children and youths is disseminated in locations frequented by parents or guardians of youth, and unaccompanied homeless youths, including schools, shelters, public libraries, and soup kitchens, in a manner and form that is easily understandable.

To the extent possible, the LEA liaison and the building principal shall work together to ensure no homeless child or youth is harmed due to conflicts with District Policies solely because of the homeless child or youth's living situation; this is especially true for District policies governing fees, fines, and absences.

Notwithstanding Policy 4.1, homeless students living in the district are entitled to enroll in the district's school that non-homeless students who live in the same attendance area are eligible to attend. If there is a question concerning the enrollment of a homeless child due to a conflict with Policy 4.1 or 4.2, the child shall be immediately admitted to the school in which enrollment is sought pending resolution of the dispute, including all appeals. It is the responsibility of the District's LEA liaison for homeless children and youth to carry out the dispute resolution process.

For the purposes of this policy "school of origin" means:

- The school that a child or youth attended when permanently housed or the school in which the child or youth was last enrolled, including a preschool; and
- The designated receiving school at the next grade level for all feeder schools when the child completes the final grade provided by the school of origin.

The District shall do one of the following according to what is in the best interests of a homeless child:

1. Continue the child's or youth's education in the school of origin for the duration of homelessness;

- In any case in which a family becomes homeless between academic years or during an academic year; and

- For the remainder of the academic year, if the child or youth becomes permanently housed during an academic school year; or
2. Enroll the child or youth in any public school that nonhomeless students who live in the attendance area in which the child or youth is actually living are eligible to attend.

In determining the best interest of the child or youth, the District shall:

- Presume that keeping the child or youth in the school of origin is in the child's or youth's best interest except when doing so is contrary to the request of the child's or youth's best interest to attend the school of origin or the school requested by the parent or guardian or (in the case of an unaccompanied youth) the youth, the District shall provide the child's or youth's parent or guardian or the unaccompanied youth with a written explanation for its determination, in a manner and form understandable to such parent, guardian, or unaccompanied youth, including information regarding the right to appeal. For an unaccompanied youth, the District shall ensure that the LEA liaison assists in placement or enrollment decisions, gives priority to the views of such unaccompanied youth, and provides notice to such youth of the right to appeal.

The homeless child or youth must be immediately enrolled in the selected school regardless of whether application or enrollment deadlines were missed during the period of homelessness.

The District shall be responsible for providing transportation for a homeless child, at the request of the parent or guardian (or in the case of an unaccompanied youth, the LEA Liaison), to and from the child's school of origin.*

For the purposes of this policy, students shall be considered homeless if they lack a fixed, regular, and adequate nighttime residence and:

A. Are:

- Sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason;
- Living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations;
- Living in emergency or transitional shelters;
- Abandoned in hospitals; or
- Awaiting foster care placement;

B. Have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings;

C. Are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and

D. Are migratory children who are living in circumstances described in clauses (a) through (c).

In accordance with Federal law, information on a homeless child or youth's living situation is a part of a student's education record and shall not be considered, or added, to the list of directory information in Policy 4.13.

4.44— ATTENDANCE REQUIREMENTS FOR STUDENTS IN GRADES 9 - 12

Students in grades nine through twelve (9-12) are required to schedule and attend at least 350 minutes of regularly scheduled class time daily. Part of this requirement may be met by students taking post-secondary courses. Eligible students' enrollment and attendance at a post-secondary institution shall count toward the required weekly time of school attendance. Each credit hour shall count as three (3) hours of attendance time. This means a three (3) hour course shall count as nine (9) hours of the weekly required time of attendance.

Study Halls

Students may be assigned to no more than one (1) class period each day for a study hall that the student shall be required to attend and participate in for the full period. Such study halls are to be used for the purposes of self-study or for organized tutoring which is to take place in the school building.

Extracurricular Classes

Students may be assigned to no more than one (1) class period each day for organized and scheduled student extracurricular classes that the student shall be required to attend and participate in for the full class period. Extracurricular classes related to a seasonal activity shall meet for an entire semester whether or not the season ends prior to the end of the semester. Students must attend and participate in the class for the entire semester in order to receive credit for the course. For the purpose of this policy, extracurricular classes is defined as school sponsored activities which are not an Arkansas Department of Education approved course counting toward graduation requirements or classes that have not been approved by the Arkansas Department of Education for academic credit. Such classes may include special interest, fine arts, technical, scholastic, intramural, and interscholastic opportunities.

Course Enrollment Outside of District

Enrollment and attendance in vocational-educational training courses, college courses, school work programs, and other department-sanctioned educational programs may be used to satisfy the student attendance requirement even if the programs are not located at the public schools. Attendance in such alternative programs must be pre-approved by the school's administration. The district shall strive to assign students who have been dropped from a course of study or removed from a school work program job during the semester into another placement or course of study. In the instances where a subsequent placement is unable to be made, the district may grant a waiver for the student for the duration of the semester in which the placement is unable to be made.

In rare instances, students may be granted waivers from the mandatory attendance requirement if they would experience proven financial hardships if required to attend a full day of school. For the purpose of this policy, proven financial hardships is defined as harm or suffering caused by a student's inability to obtain or provide basic life necessities of food, clothing, and shelter for the student or the student's family. The superintendent shall have the authority to grant such a waiver, on a case-by-case basis, only when convinced the student meets the definition of proven financial hardships.

In any instance where a provision of a student's Individual Education Plan (IEP) conflicts with a portion(s) of this policy, the IEP shall prevail.

4.45—SMART CORE CURRICULUM AND GRADUATION REQUIREMENTS FOR THE CLASSES OF 2017

All students are required to participate in the Smart Core curriculum unless their parents or guardians, or the students if they are 18 years of age or older, sign a *Smart Core Waiver Form* to not participate. While Smart Core is the default option, both a *Smart Core Informed Consent Form* and a *Smart Core Waiver Form* will be sent home with students prior to their enrolling in seventh grade, or when a 7-12 grade student enrolls in the district for the first time and there is not a signed form in the student's permanent record. Parents must sign one of the forms and return it to the school so it can be placed in the students' permanent records. This policy is to be included in student handbooks for grades 6-12 and both students and parents must sign an acknowledgement they have received the policy. Those students not participating in the Smart Core curriculum will be required to fulfill the Core curriculum or the requirements of their IEP (when applicable) to be eligible for graduation. Counseling by trained personnel shall be available to students and their parents or legal guardians prior to the time they are required to sign the consent forms.

While there are similarities between the two curriculums, following the Core curriculum may not qualify students for some scholarships and

admission to certain colleges could be jeopardized. Students initially choosing the Core curriculum may subsequently change to the Smart Core curriculum **providing** they would be able to complete the required course of study by the end of their senior year. Students wishing to change their choice of curriculums must consult with their counselor to determine the feasibility of changing paths.

This policy, the Smart Core curriculum, and the courses necessary for graduation shall be reviewed by staff, students, and parents at least every other year to determine if changes need to be made to better serve the needs of the district's students. The superintendent, or his/her designee, shall select the composition of the review panel.

Sufficient information relating to Smart Core and the district's graduation requirements shall be communicated to parents and students to ensure their informed understanding of each. This may be accomplished through any or all of the following means.

- Inclusion in the student handbook of the Smart Core curriculum and graduation requirements;
- Discussion of the Smart Core curriculum and graduation requirements at the school's annual public meeting, PTA meetings, or a meeting held specifically for the purpose of informing the public on this matter;
- Discussions held by the school's counselors with students and their parents; and/or
- Distribution of a newsletter(s) to parents or guardians of the district's students.

Administrators, or their designees, shall train newly hired employees, required to be licensed as a condition of their employment, regarding this policy. The district's annual professional development shall include the training required by this paragraph.

To the best of its ability, the District shall follow the requirements covering the transfer of course credit and graduation set forth in the Interstate Compact on Educational Opportunity for Military Children for all students who meet the definition of "eligible child" in Policy 4.2—ENROLLMENT.

To protect the security of state originated tests that are administered as part of state assessments, no electronic, device as defined in this policy shall be accessible by a student at any time during test administration unless specifically permitted by a student's IEP or individual health plan. This means that when a student is taking a state assessment, the student shall not have his/her electronic device in his/her possession. Any student violating this provision shall be subject to this policy's disciplinary provisions.

As used in this policy, "electronic devices" means anything that can be used to transmit or capture images, sound, or data.

Before and after normal school hours, possession of electronic devices is permitted on the school campus. The use of such devices at school sponsored functions outside the regular school day is permitted to the extent and within the limitations allowed by the event or activity the student is attending.

The placement of video/audio surveillance cameras shall be based on the presumption and belief that students, staff, and visitors have no reasonable expectation of privacy anywhere on or near school property, facilities, vehicles, or equipment, with the exception of places such as rest rooms or dressing areas where an expectation of bodily privacy is reasonable and customary.

Signs shall be posted on campus buildings and in district vehicles to notify students, staff, and visitors that video cameras may be in use. Parents and students shall also be notified through the student handbook that cameras may be in use in school buildings, on school grounds and in school vehicles. Students will be held responsible for any violations of school discipline rules caught by the cameras and other technologies authorized in this policy.

4.52—STUDENTS WHO ARE FOSTER CHILDREN

The District will afford the same services and educational opportunities to foster children that are afforded other children and youth. The District shall work with the Department of Human Services ("DHS"), the Arkansas Department of Education (ADE), and individuals involved with each foster child to ensure that he/she is able to maintain his/her continuity of educational services to the fullest extent that is practical and reasonable.

The Superintendent or his/her designee shall appoint an appropriate staff person to be the local educational liaison for foster children and youth whose responsibilities shall include ensuring the timely school enrollment of each foster child and assisting foster children who transfer between schools by expediting the transfer of relevant educational records.

The District, working with other individuals and agencies shall, unless the presiding court rules otherwise, ensure that the foster child remains in his/her current school, even if a change in the foster child's placement results in a residency that is outside the district. In such a situation, the District will work with DHS to arrange for transportation to and from school for the foster child to the extent it is reasonable and practical.

Upon notification to the District's foster care liaison by a foster child's caseworker that a foster child's school enrollment is being changed to one of the District's schools, the school receiving the child must immediately enroll him/her. Immediate enrollment is required even if a child lacks the required clothing, academic or medical records, or proof of residency.

A foster child's grades shall not be lowered due to absence from school that is caused by a change in the child's school enrollment, the child's attendance at dependency-neglect court proceedings, or other court-ordered counseling or treatment.

Any course work completed by the foster child prior to a school enrollment change shall be accepted as academic credit so long as the child has satisfactorily completed the appropriate academic placement assessment.

If a foster child was enrolled in a District school immediately prior to completing his/her graduation requirements while detained in a juvenile detention facility or while committed to the Division of Youth Services of DHS, the District shall issue the child a diploma.

4.53— PLACEMENT OF MULTIPLE BIRTH SIBLINGS

The parent, guardian or other person having charge or custody of multiple birth siblings in grades pre-K through 6 may request that the multiple birth siblings are placed in either the same or separate classrooms. The request shall be in writing not later than the 14th calendar day prior to the first day of classes at the beginning of the academic year. The school shall honor the request unless it would require the school to add an additional class to the sibling's grade level. If one parent of multiple birth siblings requests a placement that differs from that of the other parent of the same multiple birth siblings, the school shall determine the appropriate placement of the siblings.

The school may change the classroom placement of one or more of the multiple birth siblings if:

- There have been a minimum of 30 instructional days since the start of the school year; and
 - After consulting with each classroom teacher in which the siblings were placed, the school determines the parent's classroom placement request is:
 - Detrimental to the educational achievement of one or more of the siblings;
 - Disruptive to the siblings' assigned classroom learning environment; or
 - Disruptive to the school's educational or disciplinary environment.

If a parent believes the school has not followed the requirements of this policy, the parent may appeal the multiple birth siblings' classroom placement to the Superintendent. The Superintendent's decision regarding the appeal shall be final.

4.54 - STUDENT ACCELERATION

The Board believes that acceleration is an effective and research-based intervention for the academic growth of students who are ready for an advanced or faster-paced curriculum. It can allow a student to move through the traditional educational setting more rapidly, based on assessed readiness, capability and motivation. At the same time, the Board understands that acceleration is not a replacement for gifted education services or programs.

Generally, acceleration can occur through one of two broad categories: content based and grade based. Grade based acceleration shortens the number of years a student would otherwise spend in K-12 education, while content based acceleration occurs within the normal K-12 time span. Either form of acceleration can be triggered by either a parent/guardian, student, or community member's request or by the referral of school personnel. In either case, the process of determining the appropriateness of the request shall be under the direction of the district Gifted and Talented Program Coordinator who shall convene the individuals necessary to make an informed decision which shall include the student's parents or guardians.

While the needs of the student should dictate when acceleration decisions are considered, the Board believes the optimal time for referrals is in the spring which gives adequate time for working through the determination process and for preparing those concerned for a smooth transition to the acceleration beginning in the following school-year.

The District's Gifted and Talented Program Coordinator will create a written format to govern the referral and determination process which shall be made available to any parent or staff member upon request.

The parents/guardians of any student whose request for acceleration has been denied may appeal the decision, in writing, to the District's GT Coordinator. The District's GT Coordinator and the Acceleration Placement Committee will again thoroughly review the case study that was completed on the student. Upon completion of the review, the Committee will either request additional new testing be conducted to help the Committee make its determination or it will uphold the initial decision. The Committee's decision may not be further appealed.

4.55—PROMOTION/RETENTION/COURSE CREDIT FOR 10-12 SCHOOLS

A disservice is done to students through social promotion and is prohibited by state law. The District shall, at a minimum, evaluate each student annually in an effort to help each student who is not performing at grade level. Each school in the Pottsville School District shall include in the student handbook, the criteria for promotion of students to the next grade as well as the criteria for being required to retake a course, if applicable. Parents or guardians shall be kept informed concerning the progress of their student(s). Notice of a student's possible retention or required retaking of a course shall be included with the student's grades sent home to each parent/guardian or the student if 18 or older. Parent-teacher conferences are encouraged and may be held as necessary in an effort to improve a student's academic success.

Any grades, course credits, and/or promotions received by a student while enrolled in the Division of Youth Services system of education shall be considered transferable in the same manner as those grades, course credits, and promotions from other accredited Arkansas public educational entities.

Promotion or retention of students, or their required retaking of a course shall be primarily based on the following criteria. If there is doubt concerning the promotion or retention of a student, or their required retaking of a course, a conference shall be held before a final decision is made that includes the following individuals:

- a) The building principal or designee;
- b) The student's teacher;
- c) School counselor;
- d) A 504/special education representative (if applicable); and
- e) The student's parents.

The conference shall be held at a time and place that best accommodates those participating in the conference. The school shall document participation or non-participation in required conferences. If the conference attendees fail to agree concerning the student's placement or receipt of course credit, the final decision to promote or retain shall rest with the principal or his/her designee.

Regardless of the student having earned passing grades, a student who falls under one of the following categories shall be considered for retention or shall not receive credit for the course associated with the applicable assessment. The student:²

does not take the State mandated assessment for the student's grade level or course within the time frame specified by the State;

takes the State mandated assessment but does not put forth a good faith effort on the assessment as determined by the assessment administrator/proctor.

The Superintendent or designee may wave this provision when the student's failure was due to exceptional or extraordinary circumstances.³

Students who do not score proficient or above on their grade level State assessments shall be required to participate in an Academic Improvement Plan (AIP). Each AIP shall be developed by school personnel and the student's parents and shall be designed to assist the student in attaining the expected achievement level. The AIP shall also state the parent's role as well as the consequences for the student's failure to participate in the plan, which shall include the student's retention in their present grade.

All students must successfully pass all end-of-course (EOC)/state assessments they are required to take unless exempted by the student's individualized education program (IEP). To receive academic credit on his/her transcript in a course requiring a student to take a EOC/state assessment, the student must either receive a passing score on the initial assessment or successfully participate in the remediation program identified in his/her Individualized Academic Improvement Plan (IAIP) which shall focus on the areas in which the student failed to meet the necessary passing score. Additionally, the lack of credit could jeopardize the student's grade promotion or classification.

To the extent required by the State Board of Education, students in grade eleven (11) and below who do not meet the required score on a college and career readiness measurement shall participate in the remediation activities prescribed in his/her IAIP which may include additional opportunities to retake the measurement.

Promotion/retention or graduation of students with an Individual Educational Plan (IEP) shall be based on their successful attainment of the goals set forth in their IEP.

4.56—EXTRACURRICULAR ACTIVITIES – SECONDARY SCHOOLS

Each school in the District shall post on its website its schedule of interscholastic activities, including sign-up, tryout, and participation deadlines, at least one semester in advance of those activities. A hard copy of the schedule shall be available upon request.

The Board believes in providing opportunities for students to participate in extracurricular activities that can help enrich the student's educational experience. At the same time, the Board believes that a student's participation in extracurricular activities cannot come at the expense of his/her classroom academic achievement. Interruptions of instructional time in the classroom are to be minimal. Additionally, a student's participation in, and the District's operation of, extracurricular activities shall be subject to the following policy. All students meeting this policy's criteria are eligible for extracurricular activities unless specifically denied eligibility on the basis of criteria outlined in this policy.

Any student who refuses to sit for a state assessment or attempts to boycott a state assessment by failing to put forth a good effort on the assessment as determined by the assessment administrator/proctor, or who parents do not send their student to school on the dates the assessments are administered or scheduled as make-up days shall not be permitted to participate in any non-curriculum related extracurricular activity. The student shall remain ineligible to participate until the student takes the same or a following state mandated assessment, as applicable, or completes the required remediation for the assessment the student failed to put forth a good faith effort on. The superintendent or designee may wave this paragraph's provisions when the student's failure was due to exceptional or extraordinary circumstances. Students falling under the provisions of this paragraph shall be permitted to attend curriculum related field trips occurring during the school day.

A student who enrolls in the district and meets the definition of "eligible child" in Policy 4.2—ENTRANCE REQUIREMENTS shall be eligible to tryout for an extracurricular activity regardless of the date the student enrolls in the District so long as the student meets all other eligibility requirements and the extracurricular activity is still ongoing.

Definitions:

Extracurricular activities are defined as: any school sponsored program where students from one or more schools meet, work, perform, practice under supervision outside of regular class time, or are competing for the purpose of receiving an award, rating, recognition, or criticism, or qualification for additional competition. Examples include, but are not limited to, interscholastic athletics, cheerleading, band, choral, math, or science competitions, and club activities.

Academic Courses are those courses that are identified in the Arkansas Department of Education's Standards for Accreditation of Arkansas Public Schools as one of the 38 course offerings or is a definable course for which class time is scheduled and which can be credited to meet the minimum requirements for graduation and is taught by a teacher required to have State certification in the course, and has been approved by the Arkansas Department of Education. Any of the courses for which concurrent high school credit is earned may be from an institution of higher education recognized by the Arkansas Department of Education. If a student passes an academic course offered on a block schedule, the course can be counted twice toward meeting the requirement for students to pass four (4) academic courses per semester as required by this policy.

ACADEMIC REQUIREMENTS: Junior High

A student promoted from the sixth to the seventh grade automatically meets scholarship requirements. A student promoted from the seventh to the eighth grade automatically meets scholarship requirements for the first semester. The second semester eighth-grade student meets the scholarship requirements for junior high if he/she has successfully passed four (4) academic courses the previous semester.

The first semester ninth-grade student meets the scholarship requirements for junior high if he/she has successfully passed four (4) academic courses the previous semester.

The second semester ninth-grade student meets the scholarship requirements for junior high if he/she has successfully passed (4) academic courses the previous semester which count toward his/her graduation requirements.

Ninth-grade students must meet the requirements of the senior high scholarship rule by the end of the second semester in the ninth grade in order to be eligible to participate the fall semester of their tenth-grade year.

ACADEMIC REQUIREMENTS: Senior High

In order to remain eligible for competitive interscholastic activity, a student must have passed (4) academic courses the previous semester and either:

- 1) Have earned a minimum Grade Point Average of 2.0 from all academic courses the previous semester; or
- 2) If the student has passed four (4) academic courses the previous semester but does not have a 2.0 GPA the student must be enrolled and successfully participating in a supplemental instruction program to maintain their competitive interscholastic extracurricular eligibility.

STUDENTS WITH AN INDIVIDUAL EDUCATION PROGRAM

In order to be considered eligible to participate in competitive interscholastic activities, students with disabilities must pass at least four (4) courses per semester as required by their individual education program (IEP).

ARKANSAS ACTIVITIES ASSOCIATION

In addition to the foregoing rules, the district shall abide by the rules and regulations of the Arkansas Activities Association (AAA) governing interscholastic activities. AAA provides catastrophic insurance coverage for students participating in AAA governed extracurricular activities who are enrolled in school. As a matter of District policy, no student may participate in a AAA governed extracurricular activity unless he or she is enrolled in a district school, to ensure all students are eligible for AAA catastrophic insurance.

4.56.1—EXTRACURRICULAR ACTIVITIES - ELEMENTARY

The Board believes in providing opportunities for students to participate in extracurricular activities that can help enrich the student's educational experience. At the same time, the Board believes that a student's participation in extracurricular activities cannot come at the expense of his/her classroom academic achievement. Interruptions of instructional time in the classroom are to be minimal.

A student may lose his/her eligibility to participate in extracurricular activities when, in the opinion of the school's administration, the student's participation in such an activity may adversely jeopardize his/her academic achievement. Students may also be denied permission to participate in extracurricular activities as a consequence of disciplinary action taken by the administration for inappropriate behavior.

Any student who refuses to sit for a state assessment or attempts to boycott a state assessment by failing to put forth a good effort on the assessment as determined by the assessment administrator/proctor, or whose parents do not send their student to school on the dates the assessments are administered or scheduled as make-up days shall not be permitted to participate in any non-curriculum related extracurricular activity. The student shall remain ineligible to participate until the student takes the same or a following state mandated assessment, as applicable, or completes the required remediation for the assessment the student failed to put forth a good faith effort on. The superintendent or designee may waive this paragraph's provisions when the student's failure was due to exceptional or extraordinary circumstances. Students falling under the provisions of this paragraph shall be permitted to attend curriculum related field trips occurring during the school day.

A student who enrolls in the district and meets the definition of "eligible child" in Policy 4.2—ENROLLMENT shall be eligible to tryout for an extracurricular activity regardless of the date the student enrolls in the District so long as the student meets all other eligibility requirements and the extracurricular activity is still ongoing.

For the purposes of this policy, extracurricular activities are defined as: any school sponsored program where students from one or more schools meet, work, perform, practice under supervision outside of regular class time, or are competing for the purpose of receiving an award, rating, recognition, or criticism, or qualification for additional competition. Examples include, but are not limited to, interscholastic athletics, cheerleading, band, choral, math, or science competitions, and club activities.

4.57—IMMUNIZATIONS

Definitions

"In process" means the student has received at least one dose of the required immunizations and is waiting the minimum time interval to receive the additional dose(s).

"Serologic testing" refers to a medical procedure used to determine an individual's immunity to Hepatitis B, Measles, Mumps, Rubella and Varicella.

General Requirements

Unless otherwise provided by law or this policy, no student shall be admitted to attend classes in the District who has not been age appropriately immunized against¹:

- Poliomyelitis;
- Diphtheria;
- Tetanus;
- Pertussis;
- Red (rubeola) measles;
- Rubella;
- Mumps;
- Hepatitis A;
- Hepatitis B;
- Meningococcal disease;
- Varicella (chickenpox); and
- Any other immunization required by the Arkansas Department of Health (ADH).

The District administration has the responsibility to evaluate the immunization status of District students. The District shall maintain a list of all students who are not fully age appropriately immunized or who have an exemption provided by ADH to the immunization requirements based on medical, religious, or philosophical grounds. Students who are not fully age appropriately immunized when seeking admittance shall be referred to a medical authority for consultation.

The only types of proof of immunization the District will accept are immunization records provided by a:

- A. Licensed physician;
- B. Health department;
- C. Military service; or
- D. Official record from another educational institution in Arkansas.

The proof of immunization must include the vaccine type and dates of vaccine administration. Documents stating "up-to-date", "complete", "adequate", and the like will not be accepted as proof of immunization. No self or parental history of varicella disease will be accepted. Valid proof of immunization and of immunity based on serological testing shall be entered into the student's record.

In order to continue attending classes in the District, the student must have submitted:

- 1) Proof of immunization showing the student to be fully age appropriately vaccinated;
- 2) Written documentation by a public health nurse or private physician of proof the student is in process of being age appropriately immunized, which includes a schedule of the student's next immunization;
- 3) A copy of a letter from ADH indicating immunity based on serologic testing; and/or
- 4) A copy of the letter from ADH exempting the student from the immunization requirements for the current school year, or a copy of the application for an exemption for the current school year if the exemption letter has not yet arrived.

Students whose immunization records or serology results are lost or unavailable are required to receive all age appropriate vaccinations or submit number 4 above.

Temporary Admittance

While students who are not fully age appropriately immunized or have not yet submitted an immunization waiver may be enrolled to attend school, such students shall be allowed to attend school on a temporary basis only. Students admitted on a temporary basis may be admitted for a maximum of thirty (30) days (or until October 1st of the current school year for the tetanus, diphtheria, pertussis, and meningococcal vaccinations required at ages eleven (11) and sixteen (16) respectively if October 1st is later in the current school year than the thirty (30) days following the student's

admittance). No student shall be withdrawn and readmitted in order to extend the thirty (30) day period. Students may be allowed to continue attending beyond the thirty (30) day period if the student submits a copy of either number 2 or number 4 above.

Students who are in process shall be required to adhere to the submitted schedule. Failure of the student to submit written documentation from a public health nurse or private physician demonstrating the student received the vaccinations set forth in the schedule may lead to the revocation of the student's temporary admittance; such students shall be excluded from school until the documentation is provided.

The District will not accept copies of applications requesting an exemption for the current school year that are older than two (2) weeks based on the date on the application. Students who submit a copy of an application to receive an exemption from the immunization requirements for the current year to gain temporary admittance have thirty (30) days from the admission date to submit either a letter from ADH granting the exemption or documentation demonstrating the student is in process and a copy of the immunization schedule. Failure to submit the necessary documentation by the close of the thirty (30) days will result in the student being excluded until the documentation is submitted.

Exclusion From School

In the event of an outbreak, students who are not fully age appropriately immunized, are in process, or are exempt from the immunization requirements may be required to be excluded from school in order to protect the student. ADH shall determine if it is necessary for students to be excluded in the event of an outbreak. Students may be excluded for twenty-one (21) days or longer depending on the outbreak. No student excluded due to an outbreak shall be allowed to return to school until the District receives approval from ADH.

Students who are excluded from school are not eligible to receive homebound instruction unless the excluded student had a pre-existing IEP or 504 Plan and the IEP/504 team determines homebound instruction to be in the best interest of the student. To the extent possible, the student's teacher(s) shall place in the principal's office a copy of the student's assignments:

- for the remainder of the week by the end of the initial school day of the student's exclusion; and
- by the end of each school's calendar week for the upcoming week until the student returns to school.²

It is the responsibility of the student or the student's parent/legal guardian to make sure that the student's assignments are collected.

Students excluded from school shall have five (5) school days from the day the student returns to school to submit any homework and to make up any examinations. State mandated assessments are not included in "examinations" and the District has no control over administering state mandated make-up assessments outside of the state's schedule. Students shall receive a grade of zero for any assignment or examination not completed or submitted on time.³

4.58—FOOD SHARING AND ITS REMOVAL FROM FOOD SERVICE AREA

Food Sharing Table

The District has no food sharing system for food items other than milk and juice.² Students who do not intend to drink milk or juice received as part of a meal may place the milk/juice in a designated ice-filled cooler located at the end of the service line where another student may retrieve it at no charge. Milk and juice may not be taken by another student unless the carton is unopened and was completely covered by ice while in the cooler. A student may not return to the cooler to place for sharing or retrieve an item after the student has left the service line.

At all times, the cooler will be under the supervision of the food service staff. Remaining items should be discarded at the end of the meal period, and no item is to remain in the cooler for longer than four (4) hours.

Removing Food Items From the Food Service Area

No student shall remove school provided food items from the food service area at the end of the meal period, especially milk, juice, and other items requiring temperature controlled environments.

Except for food service workers as required by their job duties, District employees may only remove school provided food items from the food service area when required by a 504 plan or a student's IEP.

5.15—GRADING

Parents or guardians shall be kept informed concerning the progress of their student. Parent-teacher conferences are encouraged and may be requested by parents, guardians, or teachers. If the progress of a student is unsatisfactory in a subject, the teacher shall attempt to schedule a parent-teacher conference. In the conference, the teacher shall explain the reasons for difficulties and shall develop, cooperatively with the parents, a plan for remediation which may enhance the probability of the student succeeding. The school shall also send timely progress reports and issue grades for each nine (9) week grading period to keep parents/guardians informed of their student's progress.

The evaluation of each student's performance on a regular basis serves to give the parents/guardians, students, and the school necessary information to help effect academic improvement. Students' grades shall reflect only the extent to which a student has achieved the expressed educational objectives of the course.

The grades of a child in foster care shall not be lowered due to an absence from school due to:

- (1) A change in the child's school enrollment;
- (2) The child's attendance at a dependency-neglect court proceeding; or
- (3) The child's attendance at court-ordered counseling or treatment.

The grading scale for all schools in the district (with the exception of the elementary school) shall be as follows:

A = 100 – 90
B = 89 – 80
C = 79 – 70
D = 69 -- 60
F = 59 and below

Pottsville Elementary school teachers will use the above grading scale, the following grading scale, or both (except for Kindergarten):

Proficiency Level
4 – Advanced
3 – Proficient
2 – Basic
1 – Below Basic

Kindergarten teachers will use a “√” to indicate a student is performing on or above grade level in a given area and a “--” to indicate below grade level performance.

For the purpose of determining grade point averages, the numeric value of each letter grade shall be:

A = 4 points
B = 3 points
C = 2 points
D = 1 point
F = 0 points

If a student takes the end of course AP exam, the grade point values for AP and approved honor courses shall be one (1) point greater than for regular courses with the exception that an F shall still be worth zero (0) points.

The final grades of students who transfer in for part of a semester will be determined by blending the grades earned in the district with those earned outside the district. Each final grade will be the sum of the percentage of days in the grading period transferred from outside the district times the transferred grade from outside the district plus the percentage of days in the grading period while in the district times the grade earned in the district.

For example: The grading period had forty (40) days. A student transferred in with a grade of eighty-three (83%) earned in ten (10) days at the previous school. The student had a grade of seventy-five percent (75%) in our district's school earned in the remaining thirty (30) days of the grading period. Ten (10) days is twenty-five percent (25%) of forty (40) days while thirty (30) days is seventy-five (75%) of forty (40) days. Thus, the final grade would be $(0.25 \times 83) + (0.75 \times 75) = 77\%$.

5.19.2—EXTRACURRICULAR ACTIVITY ELIGIBILITY FOR HOME SCHOOLED STUDENTS

Each school in the District shall post on its website its schedule of interscholastic activities, including sign-up, tryout, and participation deadlines, at least one semester in advance of those activities. A hard copy of the schedule shall be available upon request.

Home-schooled students whose parents or guardians are legal residents of the school district will be permitted to pursue participation in an interscholastic activity in the student's resident school zone as permitted by this policy. Although not guaranteed participation in an interscholastic activity, home-school students who meet the provisions of this policy, AAA Rules, and applicable Arkansas statutes shall have an equal opportunity to try out and participate in an interscholastic activity without discrimination.

The District shall abide by this policy and by the rules contained in the Arkansas Activities Association (AAA) Handbook governing interscholastic activity participation of students who are home-schooled. Areas of eligibility criteria, such as a student's age, and semesters of eligibility are the same for home-schooled and traditional student and are governed by the current AAA Handbook.

Home-schooled student means a student legally enrolled in an Arkansas home school and who meet or have met the criteria for being a home-schooled student, as established by A.C.A. 6-15-503.

Interscholastic activity means an activity between schools subject to regulations of the Arkansas Activities Association that is outside the regular curriculum of the school district, such as an athletic activity, fine arts program, or a special interest group or club.

The parent of any student wishing to participate in an interscholastic activity shall mail or hand deliver a completed application for 5.19.2F to his/her child's school's principal before the signup, tryout or participation deadline established for traditional students. The Superintendent shall approve those applications which meet the enrollment application requirements identified in this policy and AAA Rules and shall deny those that don't meet the requirements.

Approved applications shall apply only for the semester in which the student enrolls in the student's resident school zone. The student shall regularly attend the class in which the student is enrolled beginning no later than the eleventh (11) day of the semester in which the student's interscholastic activity begins prior to the first day of the semester in which the student is enrolled, to maintain eligibility, the student must attend the practices for the interscholastic activity to the same extent as is required of traditional students.

A home-schooled student whose application has been approved; who has met the criteria; and who has been selected to participate in the interscholastic activity shall meet the following criteria; and who has been selected to participate in the interscholastic activity shall meet the following criteria that also apply to traditional students enrolled the school;

- Standards of behavior and codes of conduct;
- Attend the practices for interscholastic activity to the same extent as is required of traditional students;
- Required drug testing
- Permission slips, waivers, physical exams; and
- Participation or activity fees.

A student whose application for eligibility to participate in an interscholastic activity is accepted is required to enroll in no more than one course in the District's school where the student is intending to participate in an interscholastic activity. Home-schooled students shall meet the same enrollment criteria as are required for traditional students in policies 4.1---RESIDENCE REQUIREMENTS and 4.2---ENTRANCE REQUIREMENTS and the parent or guardians shall sign a form acknowledging receipt and understanding of the school's student handbook and to be bound by the applicable portions thereof.

If the student's desired interscholastic activity is **not** associated with a specific class or course that meets during the school day, to be eligible to participate in the student's desired interscholastic activity, the home-schooled student shall enroll in a class or course that is age and grade appropriate for the student.

Students who participate in extracurricular or athletic activities under this policy will be transported to and from interscholastic activities on the same basis as other students are transported.

A student who withdraws from an Arkansas Activities Association member school to be home-schooled shall not participate in an interscholastic activity in the resident school district for a minimum of three hundred sixty-five days after the student withdraws from the member school.

ARKANSAS ACTIVITIES ASSOCIATION

In addition to the foregoing rules, the district shall abide by the rules and regulations of the Arkansas Activities Association (AAA) governing interscholastic activities. AAA provides catastrophic insurance coverage for students participating in extracurricular activities who are enrolled in school. As a matter of District policy, no student may participate in an extracurricular activity unless he or she is enrolled in a district school, to ensure all students are eligible for AAA catastrophic insurance.

5.21—ADVANCED PLACEMENT, INTERNATIONAL BACCALAUREATE, and HONORS COURSES

Students in grades 7-12 who take advanced placement courses, International Baccalaureate courses, or honors or concurrent credit college courses approved for weighted credit by the Arkansas Department of Education shall be graded according to the following schedule.

A = 100 – 90

B = 89 – 80

C = 79 – 70

D = 69-60

F = 59 and below

For the purpose of determining grade point averages, the numeric value of each letter grade shall be

A = 5 points

B = 4 points

C = 3 points

D = 2 point

F = 0 points

For a student to be eligible to receive weighted credit for an AP, or IB course, the student's course must have been taught by an Arkansas licensed teacher who has received the appropriate training required by Arkansas statute and ADE Rule or, for an AP teacher, is in the process of completing an Additional Training Plan.

Additionally, for students taking AP or International Baccalaureate courses to receive weighted credit they must take the applicable AP or IB examination after completing the entire course. Credit shall be given for each grading period during the course of the year, but shall be retroactively removed from a student's grade for any course in which the student fails to take the applicable AP exam. Students who do not take the AP exam shall receive the same numeric value for the grade he/she receives in the course as if it were a non-AP course.

"Honors Courses" are those courses that have been approved by a Department of Education Committee as honors courses. Honors courses must stress higher order learning and be offered in addition to curriculum offerings required by the Standards for Accreditation, Arkansas Public Schools.

Students who transfer into the district will be given weighted credit for the Advanced Placement courses, honors courses approved by the Arkansas Department of Education, and concurrent college courses taken for weighted credit at his/her previous school(s) according to the preceding scale.

5.22—CONCURRENT CREDIT

A ninth through twelfth grade student who successfully completes a college course(s) from an institution approved by the Arkansas Department of Education shall be given credit toward high school grades and graduation at the rate of one high school credit for each three (3) semester hours of college credit. Unless approved by the school's principal, **prior to enrolling for the course**, the concurrent credit shall be applied toward the student's graduation requirements as an elective.

A student who takes a three-semester hour remedial/developmental education course, as permitted by the ADE Rules Governing Concurrent College and High School Credit, shall be the equivalent of one-half unit of credit for a high school career focus elective. The remedial/developmental education course cannot be used to meet the core subject area/unit requirements in English and mathematics.

Participation in the concurrent high school and college credit program must be documented by a written agreement between:

- The District's student, and his or her parent(s) or guardian(s) if the public school student is under the age of eighteen (18);
- The District; and
- The publicly supported community college, technical college, four-year college or university, or private institution the student attends to take the concurrent credit course.

Students are responsible for having the transcript for the concurrent credit course(s) they've taken sent to their school in order to receive credit for the course(s). Credit for concurrent credit courses will not be given until a transcript is received. Transcripts for students who take concurrent credit courses as partial fulfillment of the required full day of class for students in grades 9-12 (see Policy 4.44) are to be received by the school within 20 school days of the end of the semester in which the course is taken. Students may not receive credit for the course(s) they took or the credit may be delayed if the transcripts are not received in time, or at all. This may jeopardize students' eligibility for extracurricular activities or graduation.

Students will retain credit earned through the concurrent credit program which was applied toward a course required for high school graduation from a previously attended, accredited, public school.

Any and all costs of higher education courses taken for concurrent credit are the student's responsibility.

CHEMICAL SCREEN TEST POLICY

The Pottsville School District recognizes that chemical abuse or misuse is a significant health problem for students, detrimentally affecting overall health, behavior, learning ability, reflexes, and the total development of each individual. The Pottsville Board of Education is determined to help students by providing another option for them to say "No". Chemical abuse includes, but is not limited to, the use of illegal drugs, alcohol, and the misuse of the legal drugs and medications.

Purpose of a Chemical Abuse Policy:

1. To allow the students of Pottsville Schools to know that the school is concerned about their total well-being. The School District is interested in helping the students who may be having problems.
2. To emphasize concerns for the health of students in areas of safety while they are participating in activities as well as the long-term physical and emotional effects of chemical use on their health.
3. To confirm and support state law which restrict the use of such mood-altering chemicals.
4. To assist students of Pottsville Schools to resist the peer pressure that directs them toward the abuse or misuse of chemical substances.
5. To establish standards of conduct for students of Pottsville Schools who are considered leaders among their peers.
6. To work cooperatively with parents by assisting them in keeping their children free from mood-altering chemicals.
7. To assist students who need to be referred for assistance or evaluation regarding their use of illegal drugs.
8. To deter chemical abuse or misuse by all students through the use of random drug testing.

Scope: The provisions of this policy apply to students in Pottsville Schools in grades seven through twelve. No student will be allowed to participate in any school activity (any activity outside the regular curriculum) or park on campus until the consent form has been signed by both student and custodial parent/legal guardian and returned to the principal. Positive screening results are considered cumulative and follow the student for the duration of enrollment in Pottsville School District.

Definition: *Illegal Drugs* are defined as any substance, including alcohol, considered illegal by Arkansas Statutes or which the Food and Drug Administration control unless prescribed by a license physician.

Prescription Medication: The existence of lawfully prescribed medication in the student's sample is not a violation of this policy when taken in accordance with a physician's recommendation or prescription to a specific student. Some over-the-counter medications may have similarities to unlawful drugs when tested. Students who are taking prescription medication may provide a copy of the prescription or a doctor's verification in a sealed envelope to school personnel at the time the sample is collected. The specific name of over-the-counter medication should also be disclosed to the school official. Students who refuse to provide verification and test positive will be subject to the actions specified in this policy for "positive test."

Consent Form: Students and parents/guardians will be strongly encouraged to sign a consent form to the random testing. The form must be co-signed by the student's custodial parent/legal guardian. No student will be allowed to participate in any school activity (any activity outside the regular curriculum) or to park on school district property until the consent form has been signed by both student and custodial parent/legal guardian and returned to the principal. Consent forms for students participating in fall sports or extracurricular activities must be signed prior to physical examinations. All other students must sign the consent form during the first two weeks of school. Students moving into the district during the school year must sign the consent form during the first two weeks of enrollment. No student will be allowed to sign the consent form after these dates.

Selection Process: While students are in school, they will be subject to random selection for testing. Particular days will be selected for testing. If a student is selected for testing but is absent on that day, he/she will be tested on the next test date. The number of names drawn will be no less than

(2%) or greater than (15%) of the students in grades seven through twelve. A urinalysis will be the method utilized to test for the presence of chemicals in the body. All students selected must report to the designated testing site.

Testing Agency: The district will choose a qualified agency for the purpose of processing samples and maintaining privacy with respect to test results and related matters.

Cost: The cost of the test to be given during random selection will be paid by the district. Any test administered to a student to regain eligibility will be at the district's expense.

Refusal to Consent to Testing: Students not consenting to be tested (in the random pool) are allowed to join clubs or organizations but are not allowed to attend after school meetings, participate in any activities, or park on campus.

Refusal to Submit to Testing: Any participant who refuses to submit to random drug testing and/or retesting is considered having tested positive.

Testing Procedure: All test results from the laboratory will be communicated to the Superintendent or designee. All urine specimens will be taken at a designated restroom. Any student who is requested to provide a urine specimen will be directed to the collection site where the student will complete the necessary forms. Students who test positive will be required to sign additional consent forms. The following precautions will be taken, as appropriate, at the collection site:

1. The examinee will be positively identified.
2. The observer will ask the individual to remove any unnecessary outer garments (i.e., coat, jacket, etc.) that might conceal items or substances that could be used to tamper with or alter the urine specimen. All personal belongings (i.e., purse, backpack, etc.) must remain with the outer garments. The observer will note any unusual behavior or appearance.
3. The student will not be outside of the presence of the observer and not have access to faucets, soap dispensers, or cleaning agents until after the specimen has been provided and sealed.
4. The student will be allowed to provide the specimen in a stall or other partitioned area that allows for individual privacy. After the specimen has been provided, the student should leave the stall.
5. At the collection site, toilet bluing agents will be placed in the toilet tanks, whenever possible. No other source of water will be available in the enclosure where urination occurs.
6. If a student fails to provide the necessary amount of urine for a valid specimen, the student will be given reasonable amounts of water for drinking and extra time to produce an adequate sample. During this time, the student will remain in the vicinity of the collection area and under the observation of the district staff.
7. Immediately after collection, the observer will check the temperature of the specimen and inspect the specimen for color and signs of contaminants.
8. Both the observer and student being tested will keep the specimen in view at all times prior to its being sealed and labeled.

Analysis Process: Testing protocol involves on-site collection and testing of urine samples. If a sample initially tests positive for any substance, that sample will be immediately retested. In the event that the second test reports negative, the sample will be considered negative for reporting purposes. A second positive test will result in the sample's being immediately delivered to an SAMHSA certified laboratory for GC/MS confirmation with results provided to the school in one or two days.

Results and Notification: Test results will be reported to the Superintendent or his designee. All reports will be in writing. All specimens testing negative on the initial test or negative on the confirmation test will be reported as negative. Only specimens confirmed as positive will be reported as positive for a specific drug (s).

Records: The Superintendent or his designee in a separate, locked file will maintain all records concerning chemical abuse testing. The records will not be kept in a student's regular file. Only the Superintendent or his designee will have access to the files. The files on each student will be destroyed upon graduation or two years after termination of enrollment. A student and the student's custodial parents, legal guardians may obtain a copy of his chemical abuse upon written request.

First Positive Test: Upon receipt of a positive test result for any student, a custodial parent or legal guardian will be notified and a meeting will be schedule with the superintendent or his designee, the student, the custodial parent or legal guardian, the student's principal, the student's head coach or sponsor. Counseling/rehabilitation for the student will be strongly recommended for the student who tests positive. A referral/resource list will be made available to the student and parent/legal guardian. Any counseling/rehabilitation service costs will be the responsibility of the student and/or parent. The student will be placed on probation for thirty days. If there are not thirty days left in the school year, the thirty-day period will carry forward to the following school year. During the probation time, the student will not be allowed to participate and/or attend any curricular or extracurricular activities, which occur outside the regular school day or park on campus.

Students participating in a sport or activity that requires a physical must have doctor's approval to continue practicing during the probationary period. In order to regain eligibility after the thirty-day probationary period, the student must be tested again at the district's expense and a written copy of the results will be given to the Superintendent or his designee. If the test is negative, the probation will be lifted. If the test is positive, the student will not be allowed to participate in or attend extracurricular activities or park on campus for one calendar year. A positive retest at the end of thirty-day probation period will be considered a second positive test. To regain eligibility for participation in activities, a student must have a negative Chemical Screening Test. This will be administered by the District's chemical screening company and at the district's expense. *Exception:* A student must be retested on day thirty-one. However, certain chemicals that take more than thirty days to leave the student's system will be considered differently if a doctor's written opinion details said residual effects of that particular substance.

Second Positive Test: For the second positive test, the student will not be allowed to participate in or attend extracurricular activities or park on campus for one calendar year. To regain eligibility for participation in activities, a student must have a negative Chemical Screening Test. This will be administered by the district's chemical screening company and at the district's expense.

Third Positive Result: For the third positive result, the student will be permanently suspended from participating in or attending any activity program and park on campus for the remainder of his enrollment with the school. A third positive screen could come from third positive test from the random pool or a result of a re-screen at the end of a probation period.

Nature of Policy: No student will be penalized academically for testing positive for illegal drugs. The results of any drug test pursuant to this policy will not be documented in any student's academic records.

Other Disciplinary Measures: The district, by accepting this policy, is not precluded from utilizing other disciplinary measures set forth in the student handbook and this policy does not preclude the district from taking disciplinary procedure and resulting action when founded upon reasonable belief and suspicion that a student has participated in drug-related activities.

Counseling/rehabilitation is recommended for the student who tests positive. Any counseling/rehabilitation service cost will be the responsibility of the parent/guardian. The following are some agencies that provide counseling/rehabilitation services. In supplying the list, the Pottsville School Board, its agents, or employees take no responsibility in the selection of which agency the parent decides to use. The final decision to seek counseling for the student and the cost of counseling/rehabilitation shall be the responsibility of the parent/guardian.

5.8—USE OF COPYRIGHTED MATERIALS

Use of Copyrighted Work in Face-to-Face Classroom

The Board of Education encourages the enrichment of the instructional program through the proper use of supplementary materials. To help ensure the appropriate use of copyrighted materials, the Superintendent, or designee, will provide district personnel with information regarding the "fair use" doctrine of the U.S. Copyright Code as detailed in the "Agreement on Guidelines for Classroom Copying in Not-for-Profit Educational Institutions with Respect to Books and Periodicals" and "Guidelines for Educational Uses of Music."¹

Use of Copyrighted Works in Digital Transmissions

Definitions

"Class session"² means the length of time provided for students to access the materials necessary for the completion of course assignments and tests. Depending on the copyrighted work's overall importance to the course, which can vary from a single assignment to an entire course focusing on the copyrighted work, the class session will end on:

The date set by the teacher for an assignment to be submitted; or

The date on the school calendar for the end of classes.

"Course packs" are premade compilations of book excerpts; newspaper, magazine, and journal articles; and instructor-authored materials.

"Mediated Instructional activities" includes textbooks, workbooks, and course packs.

"Transmission" is the remote accessing, whether on or off campus, by students of a copyrighted work by means of a closed circuit television, an educational television channel, or in a digital format on a password protected secure webpage.³

The District recognizes that advances in technology have resulted in the need for guidelines for the use of copyrighted materials that are transmitted to students through a digital network. While the requirements to use a copyrighted work in a digital transmission have many similarities to those required to use a copyrighted work in a face-to-face classroom, Federal law places several additional requirements on the District's teachers, IT staff, and librarians for the use of a digitally transmitted copyrighted work. The District is dedicated to providing the tools necessary for teachers, IT staff, and librarians to meet these additional Federal requirements.

The District shall make sure the server where materials are stored is secured, whether the server is located locally or remotely.

The District's Informational Technologies staff shall develop the proper protocols and train teachers on their use in order to ensure:

The transmission of the copyrighted work is limited to only the students enrolled in the course;

Each student shall have a unique ID and password for accessing digital courses/materials⁴; or

Each course shall have a unique password to access course materials; and

The password to access the course materials shall be changed immediately following the close of the course.

To prevent students from retaining or further disseminating the copyrighted work for more than one class session;

The print function will be disabled;

A transparency shall be placed over any literary work, sheet music, or photograph;

Audio and video transmissions will be set to be streamed; and

The link to the webpage with a copyrighted work shall be deactivated at the end of the applicable class session.

Teachers who wish to provide copyrighted works to students through a digital transmission as part of a digital course as well as teachers wishing to supplement a face-to-face classroom course with a digital transmission must meet applicable copyright statutes and policy 5.11—DIGITAL LEARNING COURSES as well as the following requirements in order to use a copyrighted work:

The use of the copyrighted work(s), whether in whole or in part, must be a part of regular classroom instruction and must be directly related and of material assistance to the course content;

The extent of a copyrighted work that is used must comply with one or more of the following criteria:

The entirety of a non dramatic literary or musical work may be used. A non dramatic literary work includes poems and short stories. A non dramatic musical work covers all music that is not part of an opera or musical and does not cover the use of the music video format of a song.

Dramatic literary and musical works as well as videos may only be used in limited portions. Dramatic literary and musical works may only be used in the same amount as set forth in the requirements for a face-to-face classroom while videos, including music videos, may only have the portion used that is directly related to the subject of the class session and may not be transmitted in their entirety.

Still images or slides that a teacher would have used in the ordinary course of a face-to-face classroom session on a projector or a transparency may be used in a transmission.

Works primarily produced or marketed for use in the digital education market may not be transmitted.

Works the teacher had knowledge or reasonably believes to be unlawfully made or acquired may not be used.

Mediated Instructional activities may not be transmitted.

A statement that works may be subject to copyright shall be placed in at least one of the following areas to provide notice to students of copyright status:⁵

Course syllabus;

Home webpage for the course;

Webpage for the particular class session; and/or
webpage with the copyrighted work.

The teacher and the District librarian shall work together when making digital copies of copyrighted work from physical or analog versions and shall fulfill the following requirements:

The amount converted is only the amount allowed by law; and

The District has no digital copy of the copyrighted work available; or

The District's digital copy of the copyrighted work that is available has technological protections that prevent the use of the copyrighted work in the manner prescribed by law.

The District will not be responsible for any employee violations of the use of copyrighted materials.

5.11—DIGITAL LEARNING COURSES

Definitions

For the purposes of this policy:

"Blended Learning" is education in which instruction and content are delivered through supervised instruction in a classroom and online delivery of instruction with some element of student control over time, place, path, or pace.

"Digital Learning" means a digital technology or internet-based educational delivery model that does not rely exclusively on compressed interactive video (CIV). Digital learning includes online and blended learning.

"Instructional Materials" means:

Traditional books, textbooks, and trade books in printed and bound form;

Activity-oriented programs that may include:

Manipulatives;

Hand-held calculators;

Other hands-on materials; and

Technology-based materials that require the use of electronic equipment in order to be used in the learning process.

"Online Learning" is education in which instruction and content are delivered primarily over the Internet. The term does not include print-based correspondence education, broadcast television or radio, videocassettes, compact disks and stand-alone educational software programs that do not have a significant Internet-based instructional component.

"Public School Student Accessing Courses at a Distance" means a student who is scheduled for a full course load through the District and attends all classes virtually.

Digital Course Offerings

The District shall offer one or more digital learning course(s) through one or more District approved provider(s) as either a primary or supplementary method of instruction. The courses may be in a blended learning, online-based, or other technology-based format and shall be tailored to meet the needs of each student.

All digitally offered courses shall meet or exceed the State Board of Education's curriculum standards and requirements and be capable of being assessed and measured through standardized or local assessments. Additionally, the District shall ensure there is sufficient infrastructure to handle and facilitate a quality digital learning environment.

As an approved digital learning provider, the District shall annually determine what District created digital learning courses it will provide to our students.¹ The District may also choose to provide digital learning courses by contracting with outside providers of such courses, who have been pre-approved by the Arkansas Department of Education (ADE). The School Board shall determine the provider method or combination of methods for the District. The Superintendent shall ensure that all digital learning courses provided to District students, regardless of the source of the course, have been approved by ADE.

District created digital courses and any digital courses the district purchases from outside providers shall adhere to the guidelines for the use of digitally transmitted copyrighted materials set forth in Policy 5.8—USE OF COPYRIGHTED MATERIALS as well as applicable statutory requirements.

The District shall require all outside providers to incorporate Policy 5.8 as a condition of the service contract. Failure of the outside provider to abide by Policy 5.8 shall constitute a breach of contract and the outside provider shall be responsible for any costs resulting from such breach.

A student may elect to take any or all of his/her scheduled courses digitally. The student's attendance in his/her digital course(s) shall be determined by the online attendance and time the student is working on the course rather than the student's physical presence at school.

The District is responsible for providing all instructional materials for each student who enrolls in a District approved digital learning course.

Regardless of any other provisions of this policy, the District may restrict a student's access to digital courses when the student's building principal determines the student's participation in such a course would not be academically appropriate based on the student's past performance in digital courses. Furthermore, the student's building principal may revoke a student's eligibility to continue taking a digital learning course if the student's performance during the semester indicates the student is not succeeding in the course.

6.5—VISITORS TO THE SCHOOLS

Parents, grandparents, legal guardians, business, and community members are welcome and encouraged to visit District schools. To minimize the potential for disruption of the learning environment, visitors, for a purpose other than to attend an activity open to the general public, are required to first report to the school's main office. No one shall be exempt from this requirement. Visitors who are Level 3 or Level 4 sex offenders may only enter a school campus under the provisions listed in Policy 6.10.

Parents and legal guardians are encouraged to participate in regularly scheduled visitation events such as school open houses and parent/teacher conferences. Additional conferences are best when scheduled in advance. Conferences shall be scheduled at a time and place to accommodate those participating in the conference. Visits to individual classrooms during class time are permitted on a limited basis with the principal's prior approval and the teacher's knowledge.

Visitors, including parents wishing to speak with students during the school day, shall register first with the office.

The District has the right to ask disruptive visitors to leave its school campuses. Principals are authorized to seek the assistance of law enforcement officers in removing any disruptive visitors who refuse to leave school property when requested to do so.

6.6—FUND RAISING

All fund raising activities held in the District or in the name of the District must be pre-approved in writing by the Superintendent and affected school principal. Approval will be predicated on the potential for return relative to the time and energy to be invested in the fund raising. Fund raising that conflicts excessively with and/or detracts from student or teacher instructional time in either the planning or the execution of the activity will not be approved.

Neither an individual school nor the District shall be liable for any contract between clubs or organizations and third parties.

Student participation in any fund raising activity shall:

- 1) Be voluntary. Students who choose not to participate shall not forfeit any school privileges. It shall not be considered discriminatory to reward those who participate; and
- 2) Not influence or affect the student's grade.

For purposes of this policy, "Door-to-door sales" means the selling of merchandise outside of the child's home and off the school grounds.

Secondary Schools

Fund raising in the secondary schools may only be done by officially sanctioned student clubs, spirit groups, school PTAs, or parent booster clubs. Student clubs and spirit groups must receive written approval from their sponsor and the school principal before submitting the fund raising proposal to the Superintendent.

Door to door fundraising activities are generally discouraged. If approved, students wishing to participate who are under the age of eighteen (18) must return to their sponsor a signed parental notification and permission form.

Elementary Schools (K-6)

Fund raising in the elementary schools may only be done by the school or a school sponsored organization. Door to door fundraising activities are generally discouraged, but there shall be no more than one such activity per school per school year.

Schools must provide written notification of the following to parents or legal guardians of elementary students who participate in fund raising programs.

- 1) Student participation in fund raising programs is voluntary;
- 2) Students who do not participate will not forfeit any school privileges;
- 3) Students may not participate in fund raising programs without written parental permission returned to school authorities;
- 4) An elementary student who sells fund raising merchandise door to door must be accompanied by a parent or an adult; and
- 5) Unless the school provides supervision, parents must accept responsibility for appropriate adult supervision.

4.30—SUSPENSION FROM SCHOOL

Students who are not present at school cannot benefit from the educational opportunities the school environment affords. Administrators, therefore, shall strive to find ways to keep students in school as participants in the educational process. There are instances, however, when the needs of the other students or the interests of the orderly learning environment require the removal of a student from school. The Board authorizes school principals or their designees to suspend students for disciplinary reasons for a period of time not to exceed ten (10) school days, including the day upon which the suspension is imposed. The suspension may be in school or out of school. Students are responsible for their conduct that occurs:

- At any time on the school grounds;
- Off school grounds at a school-sponsored function, activity, or event;
- Going to and from school or a school activity.

A student may be suspended for behavior including, but not limited to that which:

1. Is in violation of school policies, rules, or regulations;
2. Substantially interferes with the safe and orderly educational environment;
3. School administrators believe will result in the substantial interference with the safe and orderly educational environment; and/or

When possible, notice of the suspension, its duration, and any stipulations for the student's re-admittance to class will be given to the parent(s), legal guardian(s), or to the student if age 18 or older prior to the suspension. Such notice shall be handed to the parent(s), legal guardian(s), or to the student if age 18 or older or mailed to the last address reflected in the records of the school district.

Generally, notice and hearing should precede the student's removal from school, but if prior notice and hearing are not feasible, as where the student's presence endangers persons or property or threatens disruption of the academic process, thus justifying immediate removal from school, the necessary notice and hearing should follow as soon as practicable.

It is the parents' or legal guardians' responsibility to provide current contact information to the district which the school shall use to immediately notify the parent or legal guardian upon the suspension of a student. The notification shall be by one of the following means, listed in order of priority:

4.40—HOMELESS STUDENTS

The Pottsville School District will afford the same services and educational opportunities to homeless children as are afforded to non-homeless children. The Superintendent or his/her designee shall appoint an appropriate staff person to be the local educational liaison for homeless children and youth whose responsibilities shall include, but are not limited to:

- Receive appropriate time and training in order to carry out the duties required by law and this policy;
- Coordinate and collaborate with the State Coordinator, community, and school personnel responsible for education and related services to homeless children and youths;
- Ensure that school personnel receive professional development and other support regarding their duties and responsibilities for homeless youths;
- Ensure that unaccompanied homeless youths:
 - Are enrolled in school;
 - Have opportunities to meet the same challenging State academic standards as other children and youths; and
 - Are informed of their status as independent students under the Higher Education Act of 1965 and that they may obtain assistance from the LEA liaison to receive verification of such status for purposes of the Free Application for Federal Student Aid;
- Ensure that public notice of educational rights of the homeless children and youths is disseminated in locations frequented by parents or guardians of youth, and unaccompanied homeless youths, including schools, shelters, public libraries, and soup kitchens, in a manner and form that is easily understandable.

To the extent possible, the LEA liaison and the building principal shall work together to ensure no homeless child or youth is harmed due to conflicts with District Policies solely because of the homeless child or youth's living situation; this is especially true for District policies governing fees, fines, and absences.

Notwithstanding Policy 4.1, homeless students living in the district are entitled to enroll in the district's school that non-homeless students who live in the same attendance area are eligible to attend. If there is a question concerning the enrollment of a homeless child due to a conflict with Policy 4.1 or 4.2, the child shall be immediately admitted to the school in which enrollment is sought pending resolution of the dispute, including all appeals. It is the responsibility of the District's LEA liaison for homeless children and youth to carry out the dispute resolution process.

For the purposes of this policy "school of origin" means:

- The school that a child or youth attended when permanently housed or the school in which the child or youth was last enrolled, including a preschool; and
- The designated receiving school at the next grade level for all feeder schools when the child completes the final grade provided by the school of origin.

The District shall do one of the following according to what is in the best interests of a homeless child:

1. Continue the child's or youth's education in the school of origin for the duration of homelessness;

- In any case in which a family becomes homeless between academic years or during an academic year; and
- For the remainder of the academic year, if the child or youth becomes permanently housed during an academic school year; or

2. Enroll the child or youth in any public school that nonhomeless students who live in the attendance area in which the child or youth is actually living are eligible to attend.

In determining the best interest of the child or youth, the District shall:

- Presume that keeping the child or youth in the school of origin is in the child's or youth's best interest except when doing so is contrary to the request of the child's or youth's best interest to attend the school of origin or the school requested by the parent or guardian or (in the case of an unaccompanied youth) the youth, the District shall provide the child's or youth's parent or guardian or the unaccompanied youth with a written explanation for its determination, in a manner and form understandable to such parent, guardian, or unaccompanied youth, including information regarding the right to appeal. For an unaccompanied youth, the District shall ensure that the LEA liaison assists in placement or enrollment decisions, gives priority to the views of such unaccompanied youth, and provides notice to such youth of the right to appeal.

The homeless child or youth must be immediately enrolled in the selected school regardless of whether application or enrollment deadlines were missed during the period of homelessness.

The District shall be responsible for providing transportation for a homeless child, at the request of the parent or guardian (or in the case of an unaccompanied youth, the LEA Liaison), to and from the child's school of origin.*

For the purposes of this policy, students shall be considered homeless if they lack a fixed, regular, and adequate nighttime residence and:

A. Are:

- Sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason;
- Living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations;
- Living in emergency or transitional shelters;

- Abandoned in hospitals; or
- Awaiting foster care placement;

B. Have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings;

C. Are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and

D. Are migratory children who are living in circumstances described in clauses (a) through (c).

In accordance with Federal law, information on a homeless child or youth's living situation is a part of a student's education record and shall not be considered, or added, to the list of directory information in Policy 4.13.
