MEMORANDUM

TO: Randolph County Board of Education
FROM: Tim Moody, Public Information Officer
DATE: November 24, 2014
RE: Recognition of "Superior Performance" and "Positive Performance" schools

The READY Accountability Model is designed to provide school level information that addresses three components:

- Growth – if schools met, exceeded, or did not meet growth. The standard is roughly equivalent to a year's worth of growth for a year of instruction.
- Performance – The percentage of students who score at Achievement Levels 1-5. Achievement Level 3 is considered state-level proficiency and Achievement Levels 4 and 5 are considered college-and career-ready.
- AMO Status – Whether students in the school as a whole and in each subgroup met the performance targets set by the state.

Tonight, we are here to recognize ten RCSS schools that exceeded growth expectations and posted double digit grade level proficiency gains. RCSS is very proud of their achievements and each school will receive a "Certificate of Superior Performance."

We are also recognizing nine RCSS schools that met growth expectations and posted double digit grade level proficiency gains. RCSS is very proud of their achievements and each school will receive a "Certificate of Positive Performance."

The ten "Superior Performance" and nine "Positive Performance" schools are listed on the attached page.
