

- That the p.e. coach listen to others and not get offended when parents have to make medical necessary choices for their child
- Teach them more
- Field trips, fun activities, rewards
- They should focus
- They should explain to the students all of the activities they do

13. How can the school and the district build staff and parent capacity (knowledge and skills) for strong parent involvement to ensure that parents have the tools that they need to participate fully in decisions regarding their children's education?

- More info and meetings
- Educate the parents of the importance of a good education
- Let parents sit in during activities, so they can work together
- More parent nights to get parents involved
- Better communication
- Keep doing everything the same
- Meeting minutes made available to parents from Title I, PTO, etc.
- Keep up to date on trainings
- BGE does very good
- More trainings, meetings, and anything that we can help improve
- Trainings
- Send notes about award ribbons. I didn't know
- Pay more attention to the students
- Communication and trainings
- Giving us more information of the projects the children are doing

14. How can the school and district involve parents in the development and implementation of effective Parent Involvement Policies and School Improvement Plans?

- By sending more information
- Provide information online
- Schools and teachers are doing good
- More meetings
- Get parents to help out
- More school events needed
- More letters like this
- Keep them informed be sure to send home reminders
- Workshops
- More ways for parents to get involved in the school (meetings, parent involvement)
- Making sure they are doing everything to help every kid regardless of race
- Help the parents
- More meetings
- Doing more activities at home and in school

15. What suggestions would you have for improving parent involvement activities at this school?

- None at this time
- Some activities could take place at a later time
- Let parents come in sometimes to sit in classroom during activity time to make sure parents and teachers are working with child the same way
- Have teachers show parents how we can help our children with homework
- Invite parents to see student work
- Go over data in detail
- Show me how you are helping my child
- Better communication, more activities ex. Fall Festival
- BGE is awesome
- Make sure parents know in advance and send out reminders
- Let more parents help at school
- More field trips, more fundraisers, so us as parents can see our children are learning more
- All parents should have the right to attend
- Have more activities that parents can come to
- Meetings
- Go to more meetings

16. Comments:

- I think all is okay
- We need to find a way to raise money for more field trips
- I feel the school knew my daughters eye hand coordination was low but didn't see the need to include her in occupation therapy. I hope next time they will listen to her teacher, the OT and her parents. She wasn't included in anything till the last semester. SAD.
- Go to the activities and the meetings
- I feel like the school does a good job and the teachers have taught my child a lot
