

Due to the uptick of Covid-19 that our community is currently experiencing, we would like to remind all sports spectators of the expectations outlined in Hardee High School's Health and Safety Plan which was established at the beginning of the school year as a result of the Covid pandemic: The capacity for spectators will be held at 50% seating in sports facilities and the wearing of face coverings is required by all individuals who choose to participate in or attend school athletic events. It is particularly important that we adhere to these guidelines for indoor events. We appreciate your cooperation in doing everything possible to keep our students, staff and fans healthy!
