## REOPENING NEWS!

Starting the week of April 12th  
we will be adding Fridays to  
our in person learning  
We are pleased to announce  
1/2 and 1/2 Fridays!

Starting after spring break on Fridays we will have 1/2 day face to face learning till 12:30 and 1/2 day distance learning doing what teachers have assigned for the rest of the day.

## SPRING BREAK

Reminder: No School  
April 5th - April 9th.

## Remaining 6 FEET APART

On March 25th, Governor Inslee announced a recommendation that schools can move from 6 feet of social distancing to 3 feet. However, Evaline has decided to still stick with the 6 foot recommendation. All student desks will still remain at or near 6 feet apart.

## Booster Club Egg Hunt

Students participated in the annual Booster Club Easter Egg Hunt, on Thursday. Although things looked a little different this year the kids still had a blast. Thank you, Booster Club for sponsoring this fun event! Check out the pictures in the teacher pages of the students hunting for their eggs.

**Hello families,**

**HAPPY SPRING BREAK!**

I hope you get to do something fun as a family without worrying about school work getting done! I know in our family we are planning on cleaning the house and hopefully getting outdoors (if it is nice). I look forward to hearing from the kids the exciting things they were able to do even if it is just reading a good book.

When we come back from break, Kindergarten will be working on sight words and the math unit on classifying data. This will be a fun unit because it talks about sorting objects. This is our last math unit and then we will dive into more addition and subtraction using touch math at the end of April.

First grade will be working in the same unit in ELA as they are now. We will be reading about a storm shelter, so your kids might have questions as to why homes here don't normally have storm shelters. In math, they will be working on the unit of two dimensional shapes.

**Have a wonderful break!**

**Super Second Grade Weekly Update: 4/2/21**

Whew! Congratulations, Super Second Grade Families! We made it to April-and **SPRING BREAK!**

I am so proud of all of your learners and the journey they have made with me, Mrs. Dunn, and Mrs. Tinnin so far this school year. Not only are they a bright group of students, they are so caring and hard working and so much fun! I can always count on one of our learners to make me laugh every day! I am looking forward to seeing them in a week and finishing the last couple of months of school strong!

Please look for a Google Form survey in the next couple of days. I would love your feedback on what is working well and what ideas you might have for improvement this spring.

Please continue reading and practicing math facts over the break. Rest and enjoy your families!

**Hello Families,**

Students had fun in class this week working on writing summaries and comparing fractions. We took some time to tend to our tomato plants and thinned them out. We learned that thinning them is an important step in the process as it lets one plant get all the nutrients which will allow the plant to grow bigger and stronger than if it were having to compete with other plants for these same nutrients.

**We made it to spring break! Have a great week and I will see you all soon.**

## Fabulous Fourth Graders!

This week we have started a new chapter in math on fractions, and have moved our attention in ELA to writing comparison contrast essays using stories related to libraries found in 3 different countries. In social studies we are delving deeper into the area of economics, in health we focused on growth mindset and being students of character, and in art we created fun spring pictures with bunnies. Our class enjoyed being able to once again participate in the annual Egg Hunt, and want to thank the Booster Club for sponsoring it. Though it was organized a bit different this year due to necessary safety protocols, it was still a whole lot of fun.

Our class started off slow regarding the read-a-thon, but I'm excited to share that we have ended it much stronger, with 2 students making their personal reading goal. We have also encouraged students to likewise take AR tests on any AR books they have finished, and as a result have found that most of our fourth graders have made great progress in AR as well. Way-to-go fabulous fourth graders! Please keep the momentum going by continuing to read over spring break.

During the month of March the character trait we focused on is Honesty. We discussed how being honest with ourselves and with others can help us in many ways. We learned how it can not only strengthen relationships with others in general, but it can also help us to be more successful at school, as well as at home, and it can help us to feel better about ourselves and others. We discussed how being honest can be uncomfortable to do at times, and sometimes it is hard to find the right words and timing to do it as well as we would prefer. However, we also realized that in the end it is better to be honest, even if it comes out awkwardly, then dishonest. This month we would like to acknowledge **Serenity Wardlow** for her outstanding effort at being honest, and for her willingness to be open to communicate honestly, and in a variety of ways, her thoughts, feelings, and needs even when it has been difficult for her. **Well done Serenity!**

Hello Parents and Students,

Nothing makes a teacher more proud of their class than to be gone for a couple of days and hear nothing but good things from the substitute teacher when they come back. After being absent Monday and Tuesday, I returned to just that. Glowing reviews of students who did their work and then chose quiet activities after their work was finished. My substitute even said he would like to come back and sub in my class again. Great job 5th and 6th graders and thank you!!

We had our annual Easter Egg hunt on Thursday and everyone had a great time. Please enjoy these pictures from our event!

Have a Happy Easter and a great Spring Break!  
Mr. B
