

# **Coffee County School System Student Acceptable Use Policy and Internet Safety Policy (AUP)rev.2018 4/9/2018**

The Coffee County School System (CCSS) provides students with access to computers, network systems, and other technology equipment so that teachers may use these tools as part of the instructional process. Teachers or approved CCSS representatives are responsible for providing educationally relevant lessons, supervision, and instruction to help students get the most benefit from available technology resources. Students are responsible for using the systems in a manner consistent with the goals of the school system and to be respectful of other Users as well as adhere to the Children's Internet Protection Act (CIPA) [Pub. L. No. 106-554 and 47 USC 254(h)] and Tennessee Department of Education requirements as stated in Tennessee Code Annotated 49-1-221. In general, students are permitted to use technology resources for educational purposes with the permission and guidance of a supervising CCSS staff member or approved CCSS representative provided the guidelines and restrictions herein set forth are followed.

## **TECHNOLOGY RESOURCES**

Technology equipment provided by the schools are the property of CCSS and is intended to be used by teachers, staff and students for educational purposes consistent with the goals of the school district. To maintain efficient functionality of the equipment and to ensure its appropriate use, the district reserves the right to monitor all network traffic, search all files stored on district-owned systems and to take such action as necessary to assure that system resources are available for their intended purposes. Therefore, students should have no expectation of privacy when using school networks or technology equipment. Additionally, students may not store personal files or data, install or remove software, modify system settings, or otherwise alter existing systems without the express approval of a supervising CCSS teacher or approved CCSS representative.

## **NETWORK SYSTEMS**

School computer systems exist in a networked environment that is designed with safeguards to ensure its dependability but which also relies on the goodwill of its users. Students who disrupt or compromise system resources by altering the network infrastructure or settings, attempting to acquire or use the login credentials of other users, introducing resource-draining applications, monitoring the network traffic of other Users, bypassing existing security restrictions, or otherwise compromise the integrity of the network will be subject to disciplinary action up to and including suspension, expulsion, and when applicable the involvement of appropriate law enforcement.

## **INTERNET ACCESS**

The CCSS provides Internet access to every school and should only be used for instructional and administrative purposes. In providing this access, the CCSS attempts to limit the availability of web content that is inappropriate for students in the school environment. While these restrictions are typically sufficient to protect the innocent, it is impossible to completely prevent students from accessing inappropriate material. Therefore, all students are responsible for using the Internet in an appropriate manner and are permitted access only through the school's filtered Internet service. Students are permitted to access the Internet only with a signed technology use agreement form and the permission of a supervising CCSS staff member or approved CCSS representative. Students who attempt to circumvent the filter system by either software or use of websites, access inappropriate Internet services or publish inappropriate content, or assist others in accessing or publishing such content or services, are subject to disciplinary action and when applicable the involvement of appropriate law enforcement.

Inappropriate uses of the CCSS network include, but are not limited to:

- Pornography
- Gambling
- Use of network for commercial purposes (Buying and selling for personal gain)
- Harassment, insulting, defaming or attacking others (Cyber Bullying)
- Violating Copyright Laws
- Illegal Activities
- Hacking or obtaining access to unauthorized systems
- Obscene Language
- Trespassing in other's files or folders
- Using another persons identity or password to access the network
- Damaging or modifying computer systems without permission from CCSS Tech Department
- Use of VPNs, Proxies, or other Remote Access Programs

## **Coffee County School System Student Acceptable Use Policy and Internet Safety Policy (AUP)rev.2018 (pg2)**

Even though CCSS blocks certain sites, the faculty and staff are expected to diligently monitor students' computer and Internet usage. CCSS runs filtering software as required by CIPA(Childhood Internet Protection Act) and TN Senate Bill No. 3702 (49-1-221). I also understand that CCSS provides robust digital resources for classroom instruction that have been found to meet the Federal Trade Commissions' (FTC) regulations in regard to the Child Online Privacy Protection Act (COPPA). Some of these resources may require student login credentials. At no time should a student log in and use an account other than the one that have been assigned for any particular service. The District technology staff has the right to remove any unauthorized or unlicensed software, restrict the use/listening /watching of streaming media to preserve District bandwidth and the district will restrict the use of games for staff and students with the exception of educational software that have been approved by the district.

### **STUDENT EMAIL AND DOCUMENT ACCOUNTS**

Students may be issued a student email account. All student email accounts are accessible at any time by approved CCSS staff. Any abuse of the service (bullying, profanity and other violations of stated by this AUP) may result in the student's access of the service removed and are subject to disciplinary action and when applicable the involvement of appropriate law enforcement.

### **CHAT ROOMS, NEWSGROUPS, SOCIAL NETWORKS, E-MAIL**

Students are not allowed to participate in chat rooms, newsgroups, social networks or e-mail using the CCSS network that are not provided by CCSS. Any circumvention or violation of this policy may result in disciplinary action up to and including suspension, expulsion, and when applicable the involvement of appropriate law enforcement. Teachers may request that students be allowed access to these technologies, but the request must be made to the teacher's principal and then the principal request sent to the Director of Technology. Students that violate this policy may be subject to disciplinary action and when applicable the involvement of appropriate law enforcement.

### **DOCUMENTS, FILES and SOFTWARE**

Students should not alter copy, move or delete any files that belong to other people. Game, media or other files shall not be downloaded and installed on any CCSS computer system without the supervision and permission of CCSS staff.

### **PERSONAL DEVICES**

While personal computers, electronic devices and digital storage media can be beneficial to the educational process, such items also have the capacity to become distractions and to convey material that is unsuitable for the school environment. Therefore, students may use personal computers, electronic devices and digital storage media only with the permission of a supervising CCSS staff member or approved CCSS representative for the duration of the project. A student may NOT use previously mentioned equipment on campus on their own accord. When brought onto school property, these devices are subject to search and may be confiscated pending review and students may be subject to disciplinary action and when applicable the involvement of appropriate law enforcement.

### **WARRANTY**

Coffee County School District makes no warranties of any kind, whether expressed or implied, for the technology resources it provides. The district will not be responsible for damages suffered by students in the use of technology resources including loss of data, interruption of services, and access to inappropriate content online.

## **Coffee County School System Student Acceptable Use Policy and Internet Safety Policy (AUP)rev.2018 (pg 3)**

### **INTERNET SAFETY**

It is the policy of Coffee County School System to: (a) prevent user access over its computer network to, or transmission of, inappropriate material via Internet, electronic mail, or other forms of direct electronic communications; (b) prevent unauthorized access and other unlawful online activity; (c) prevent unauthorized online disclosure, use, or dissemination of personal identification information of minors; and (d) comply with the Children's Internet Protection Act [Pub. L. No. 106-554 and 47 USC 254(h)] and Tennessee Department of Education requirements.

Coffee County Schools recognizes the importance of keeping children safe online. To address this issue, the district will provide the following:

#### **Internet Training to Students**

Internet safety training to students in K-12 is a part of their regular instruction. Resources will be provided to classroom teachers and instruction time will be allotted. Education about safe and appropriate online behavior will be integrated into the K-12 curriculum and instruction. Students need to learn how to avoid inappropriate content and unwanted contacts from strangers while online as well as appropriate behavior on social-networking and chat-room web sites and the dangers of cyber bullying and to learn about protecting personal information.

#### **Supervision and Monitoring**

It shall be the responsibility of all members of the Coffee County School System staff to supervise and monitor usage of the online computer network and access to the Internet in accordance with this policy and the Children's Internet Protection Act.

#### **Evaluation and Review**

The district will annually review its Internet safety program to make such adjustments as necessary. The Technology and Planning Committee will review and evaluate all aspects of the Internet Safety Policy and program annually and will recommend revisions as needed.

#### **Professional Development Opportunities for Teachers and Staff in District**

(1)Professional staff development will be provided in the following areas: Internet Safety in the Classroom, Curriculum Design, Internet Usage for Lesson Planning and Content, Usage of Digital Media and other appropriate technologies that will enhance or secure the learning environment of Coffee County Schools..

(2)Opportunities for faculty and staff to attend technology professional development workshops, conferences or other appropriate venues will be offered.

Our system will provide on-site, ongoing professional development for all faculty and staff, throughout the school year. This will be accomplished by scheduling in-service opportunities and after-school training to promote effective integration of technology in the classroom and library which will lead to student improvement and network security. Assessment of the effectiveness of professional development will be measured by analyzing student achievement scores, classroom grades, teacher observations, and by sending periodic surveys to faculty and parents. A needs assessment will be conducted to sustain professional development activities that integrate technology effectively for the next school year.

#### **Parental Involvement:**

Student learning is maximized through familial or parental involvement in their schooling. However, family members may have very different levels of knowledge about instructional technology, and therefore varying capacity to become involved in a technology integrated learning process. Some parents do not understand the impact technology will have on their child's education as well as their child's post-high school employment prospects. In fact, many parents have a greater fear and misunderstanding of technology than do their daughters and sons. It is imperative to involve family members in the development of a school's technology plan and establish partnerships and include them in discussions and decisions. If parents are not involved, they may well oppose the plan based on fear rather than informed opinion.

The following are strategies that will be used in gaining parental involvement:

- Provide programs and/or speakers who can help parents, grandparents, caregivers, and community stakeholders understand how important it will be in the future for their children to be competent in safe technology use.
- Focus efforts to diminish parents' misconceptions, strengthen their technological awareness, and at the same time allow them to discover the potential of safe technology resources for their own uses.
- E-mail addresses of staff will be made available to parents and internet school sites will encourage communication between parents and teachers as well.
- Parents, grandparents, caregivers, and community stakeholders will be invited to attend the same meetings and training on safe technology usage that are held for the staff. As all participants are empowered with knowledge, they become more committed. As parents, grandparents, caregivers, and community stakeholders become better acquainted with teachers, they become more supportive.

## Acknowledgement /Parent Permission Form

I (student name) \_\_\_\_\_ have read and agree to comply with the Coffee County School System Acceptable Use Policy. I understand that any violation of this policy may result in disciplinary action and the removal of computer access privilege.

Student School \_\_\_\_\_

Student Signature \_\_\_\_\_

Date \_\_\_\_\_

### Parent/Guardian Acknowledgement and Permission

As a parent or legal guardian of the above student, I understand that the Coffee County School System provides my student with internet access and access to digital resources. I understand that CCSS has implemented technology protection measures including filtering and monitoring to prevent students from accessing inappropriate materials on the Internet, but that such measures may not be one hundred percent effective at all times and it is impossible to restrict access to all controversial content. With this understanding I grant permission for my student to access the Internet. I also understand that CCSS provides my student with robust digital resources for classroom instruction that have been found to meet the Federal Trade Commissions' (FTC) regulations in regard to the Child Online Privacy Protection Act (COPPA). Some of these resources may require student login credentials, which I authorize at the teacher's discretion. A list of district-approved websites can be found at the district's website at [www.coffeecountyschools.com](http://www.coffeecountyschools.com) under the COPPA heading. I understand that the CCSS AUP restrictions and guidelines are necessary component in protecting my child from exposure to inappropriate materials and from participating in inappropriate activities. I understand that any violation of this policy may result in disciplinary action and the removal of computer access privilege for my student.

Please circle your choice concerning the statement below:

My child can be featured in local broadcast and print media, on the school or school district web site, and in district publications and programs. Only Photo and name will be given. **Yes | No**
