WHAT IS DUAL CREDIT?

Opportunity to get an early start on college career.

High school students take college courses through TTC and possibly receive high school credit for these courses.

Dual credit opportunities are usually limited to high school juniors and seniors.

WHY DUAL CREDIT?

Studies suggest that students who receive college credit while still in high school:

- Are more likely to graduate from high school
- Are more likely to continue their education after high school
- Have more success during their first official year of college than their peers
