

9th Grade World History Syllabus

Mr. Zwick, Room H202

Course Description:

World Studies engages students in the study of the development and evolution of the historic, economic, geographic, political and social structures of the cultural regions of the world from the dawn of civilization to the Twentieth Century. Special attention is given to the formation and evolution of societies into complex political and economic systems. Students are engaged in critical thinking and problem-solving skills using maps, spreadsheets, charts, graphs, text and other data from a variety of credible sources. Students synthesize the information to predict events and anticipate outcomes as history evolves through the ages.
