HOW DO I LOG INTO THE SUMMIT LEARNING PLATFORM?

To log into the Summit Learning Platform as a parent/guardian:

Go to <https://www.summitlearning.org>

Click Parents Login in the upper right

Sign in with your username or email address, as well as your password

If you've forgotten your password:

1. Click Forgot Password? on the login screen, under Password
2. Enter your username or email address, then click Reset Password. You'll receive an email with further instructions to reset your password

If you don't receive the email, or if you've forgotten your username or email address, your child's mentor teacher should be able to provide you with that information.

If you don't have a parent account, please complete the following [Google Form](#) with the following information: your child's first and last name, parent's first and last name, parent email address and cell phone number to receive account information. You will then receive an email from Summit Personalized Learning. Click the purple login tab to create a new password and follow the steps to gain access. They will provide you with a username and password, which you can later [update](#).

HOW DO I UPDATE MY PHONE NUMBER OR EMAIL ADDRESS ON THE SUMMIT LEARNING PLATFORM?

As a parent/guardian, you can update your contact information (ex: name, email address, phone number, address). You want to have updated contact information in the Summit Learning Platform so that we can send you specific information related to your student's performance in the Summit Learning Program and so that you can always have access to view your student's work in the Summit Learning Platform.

To update your contact information:

1. Log into the Summit Learning Platform
2. Click Account Info from the left menu
3. Enter your First Name, Last Name, Email, or Phone Number
4. Click Verify

A screenshot of the Summit Learning user interface. On the left is a dark blue sidebar menu with the Summit Learning logo at the top and three menu items: "Home", "Password", and "Account Info". The "Account Info" item is highlighted with a white background. The main content area is light gray and titled "Change Account Information". Below the title is a section labeled "Verify your account information" containing four text input fields: "First Name", "Last Name", "Email", and "Phone". At the bottom of this section are two buttons: "Back" and "Verify".

HOW DO I UPDATE MY PASSWORD ON THE SUMMIT LEARNING PLATFORM?

As a parent/guardian, you can update your password to make it easier to remember, as well as your contact information (ex: name, email address, phone number, address). To update your password:

1. [Log into the Summit Learning Platform](#)
2. Click Password from the menu on the left
3. Enter your existing and new passwords
4. Click Change Password

Note: You won't be able to change your username.

A screenshot of the Summit Learning user interface. On the left is a dark blue sidebar with a white sunburst logo at the top. Below the logo are three menu items: "Home" with a grid icon, "Password" with a person icon and a dark blue background, and "Account Info" with a person icon. The main content area is light gray and titled "Change Password". Below the title is a white box with the heading "Update your current password". Inside this box are three text input fields: "Existing Password", "New Password", and "Confirm New Password". At the bottom of the box are two buttons: a white "Back" button and a dark blue "Change Password" button.

HOW DO I VIEW MORE THAN ONE OF MY CHILDREN ON THE SUMMIT LEARNING PLATFORM?

If you have more than one child on the Summit Learning Platform, you may be able to view each of them:

1. [Log in to the Summit Learning Platform](#)
2. Click your name in the lower left corner
3. Click View As student for each child

If you only see one child in your account, you'll need to contact Ms. McGaskill via email at turkessia.mcgaskill@pikeroadschools.org with your email address so she can set up your account for your child.

TEXT-MESSAGES: HOW DO I SIGN UP FOR STUDENT SNAPSHOT OVERVIEW

What is Your Student Snapshot?

Your Student Snapshot is an automated text messaging service to keep you informed about your child's academic coursework and progress in the Summit Learning Platform. Summit Learning and your school administrators and teachers are using this feature because we want to communicate more with you about your students' school experience and academic performance. We also want to better partner with you to support your student's academic goals.

What types of text messages will I receive and how often?

Parents will receive a text message introducing the Your Student Snapshot program. After that, you'll receive, on average, 2 text messages per week per child, and the texts will be personalized to your child's own academic calendar and performance. The text messages will include notifications about coursework and grades (i.e., upcoming projects and whether your child completed the project or not, progress on passing focus area content assessments, growth in cognitive skills, course grades), and suggested tips and conversation starters for you to support your student's academic goals.

Chris currently has a B in Science, a C in History, a B+ in English and a A- in Math. .See Progress tab for more grades info: summitlearning.org/parents/login. Grades are not final until end of year. Text STOP to end msgs.

Joyce has a Math project and an English project due within a week. Ask [StudentFN]: Did you receive teacher / peer feedback? What did they say? Text STOP to end msgs.

How will this help me? Why should I participate?

The text messages are designed to:

1. Help you keep more up to date on what your child is learning and how they are doing in school
2. Help you better support your child's academics by being informed about your child's academic progress and by providing suggested tips
3. Foster constructive conversations between you and your child about their academics through the suggested conversation starters
4. Create a common understanding and language among families, students, and faculty to talk about your child's school experience and performance.

What do I need to do to sign up?

As long as we have a valid cell phone number for you [in the Summit Learning Platform](#), then you'll receive the first introductory message when your school launches the feature. If you're unsure if you've provided one to us or need to update it, please reach out to your child's mentor teacher. The messages are available in English and Spanish. If you would like to have the messages in Spanish, please contact Mrs. Azbell via email at michelle.azbell@pikeroadschools.org so she can partner with admin to set that preference.

SUMMIT GRADING

- Projects= 70%
- Power Focus Areas= 21%
- Additional Power Focus Areas= 9%
- Challenge Focus Area= Check with teachers for requirements

Required to pass to the next grade level:

1. Students must complete ALL projects!
2. Students must complete ALL Power Focus Areas!
3. Students must obtain a Cognitive skill average of 70% or higher!

Any student who does not complete ALL required work will have to attend summer school.

WHERE CAN I LEARN MORE ABOUT PROJECTS?

As a parent/guardian, you may be interested in exploring the different parts of the Summit Learning Platform your child works with daily.

Projects tend to mimic the work of people in the field or workplace. Through Projects, students develop a higher level thinking and life skills, such as critical thinking, communication and problem-solving. On some days, students may collaborate in groups or participate in whole-class discussions; on other days, students may work independently to write essays, develop lab reports or create presentations. As students work on Projects, they build towards completing Final Products that demonstrate mastery of Cognitive Skills.

You can always see more information about a Project by clicking on the Project name from the Week, Year, or the Progress sections. Each Project page provides the following information:

- **Essential Question:** Key questions students are answering or exploring within the Project
- **Enduring Understanding:** Key insights from the Project, which generally apply to multiple topics and situations
- **Description:** Background on the Project and a general overview of what the student will be learning throughout the Project
- **Cognitive Skills:** Deeper learning, critical thinking, communication, and problem-solving skills students will need to apply throughout the Project
- **Final Products:** Real world, authentic work products that allow students to demonstrate their understanding of specific Cognitive Skills.
- **Checkpoints:** Learning experiences within a project that focus on one - two cognitive skills students will need to master as they work towards the Final Product of the project they are working on. Checkpoints provide students an opportunity to receive teacher feedback on their development of the targeted cognitive skills before being assessed on the Final Product.
- **Focus Areas:** Multimedia resources curated specifically to build course-specific content knowledge required for a student to fully engage in the class's current project. Focus areas also consist of Content Assessments which assess a student's understanding of the required content knowledge.

WHERE CAN I LEARN MORE ABOUT FOCUS AREAS?

Focus Areas are the concepts and Content Knowledge that students need to master in order to have a base level understanding of a given subject area. Students work through Focus Areas to build background Content Knowledge and check for understanding through Content Assessments. Each Content Assessment has exactly 10 questions, and for non-Accelerated courses, students must answer 8/10 assessment questions correctly to master the Focus Area. For Accelerated courses, students must answer 7/10 assessment questions correctly to master the Focus Area.

There are 3 types of Focus Areas:

1. **Power Focus Areas (required)**
2. **Additional Focus Areas (supplementary)**
3. **Challenge Focus Areas (not required, above and beyond).**

Each type of Focus Area [contributes differently to a student's grade](#).

You can always see more information about a Focus Area by clicking on the Focus Area from the **Week, Year, or Progress sections**. Each Focus Area page provides the following information:

- Description: Includes the objectives that students will meet and key terms they should know
- Objectives: Help set the pace for a Focus Area and provide a picture of what students will be able to do once the Focus Area has been completed
- Diagnostic Assessments: Allow students to gauge their mastery of a Focus Area by answering practice questions (not graded)
- Content Assessments: Allow students to demonstrate their mastery of the Focus Area by answering a set of 10 questions (graded)
- Feedback on Finished Assessments: Allows students to review their overall scores, as well as scores for each objective.

FOCUS AREA TESTING PROCEDURES

- Students will be able to take focus area assessments during designated Self-Directed Learning (SDL) time only.
- SDL time will be given on specific days in each core class.
- We will have lessons/ practice on all focus areas in class.

1st Attempt:

a) Students may take an assessment for the 1st time if they make a 100% on the diagnostic the FIRST time they attempt it.

b) If students do not make a 100% on the first take of the diagnostic, they must complete notes & get them marked by the teacher before being allowed to take an assessment.

2. 2nd & Subsequent Attempts:

To retake a failed assessment, students must provide new evidence of learning (additional notes, passing scores on practice exercises, small group tutoring, etc.) for objectives not passed before he/she will be allowed to retest. New evidence of learning is required before every assessment attempt.

Virtual learners should also check the syllabus for additional requirements.

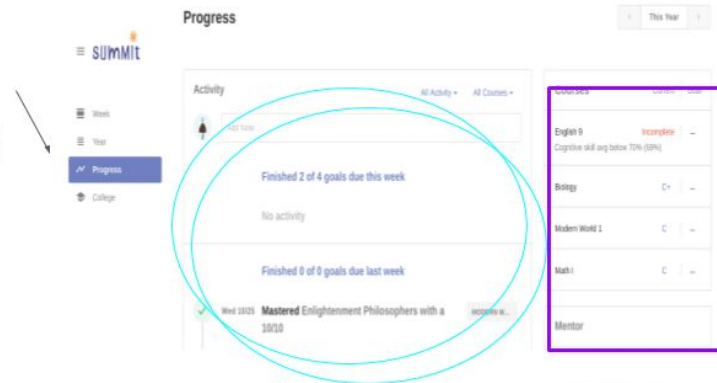

THREE PLACES TO FIND IMPORTANT INFORMATION REGARDING YOUR STUDENT'S PROGRESS.

Three places to find important information regarding your student's progress.

The Progress Page

Click on the progress page to see;

- 1) completed goals
- 2) student's current grade in each content course

The Year Page

Click on the year page to see all assignments for the year in all content courses. The blue line is a pacing guide to show when projects and focus areas should be completed. You can determine if your student is on track by the colors indicated in projects and focus areas.

The Cognitive Skills Assessed with each project

On the year page, click on the course name. This will link you to a page that shows all of the cognitive skills assessed in each project. You can also see the number of times each skill will be assessed throughout the year, the highest score achieved and the skills assessed in each project.

PROJECTS	Completed	In Progress	Completed	The Cell	Homeostasis
Capstone 3A...	4.0	-	-	-	-

UNDERSTANDING THE YEAR PAGE ON THE SUMMIT LEARNING PLATFORM

Understanding the Year Page on the Summit Learning Platform

What do the colors mean?

Green-Complete and on track in Cognitive Skill

Blue-Due date has not passed or project has been turned in but not graded.

Yellow-completed but one or more parts was scored below appropriate cognitive skill average.

Red-Overdue or Cognitive skill average is below average.

The blue line is a pacing guide to help students stay on track.

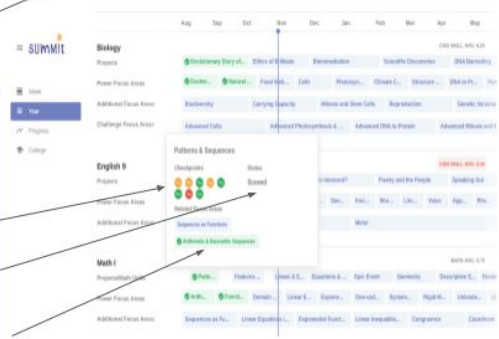

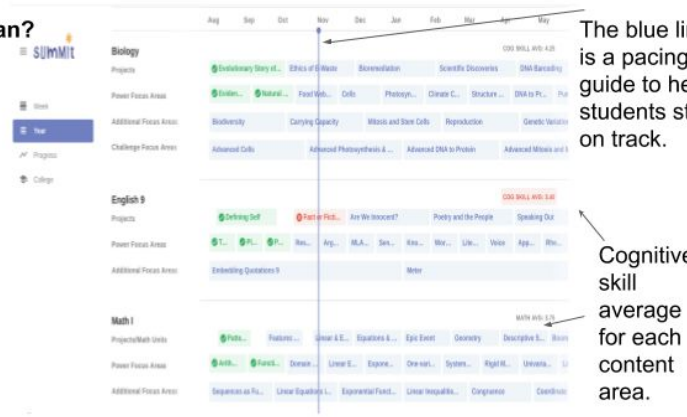

Cognitive skill average for each content area.

Hover over any focus area to view important information:

- *Highest scored obtained
- *Number of times student has attempted content assessment
- *Related Project
- *Date the blue line will pass

Hover over any assigned project to view important information:

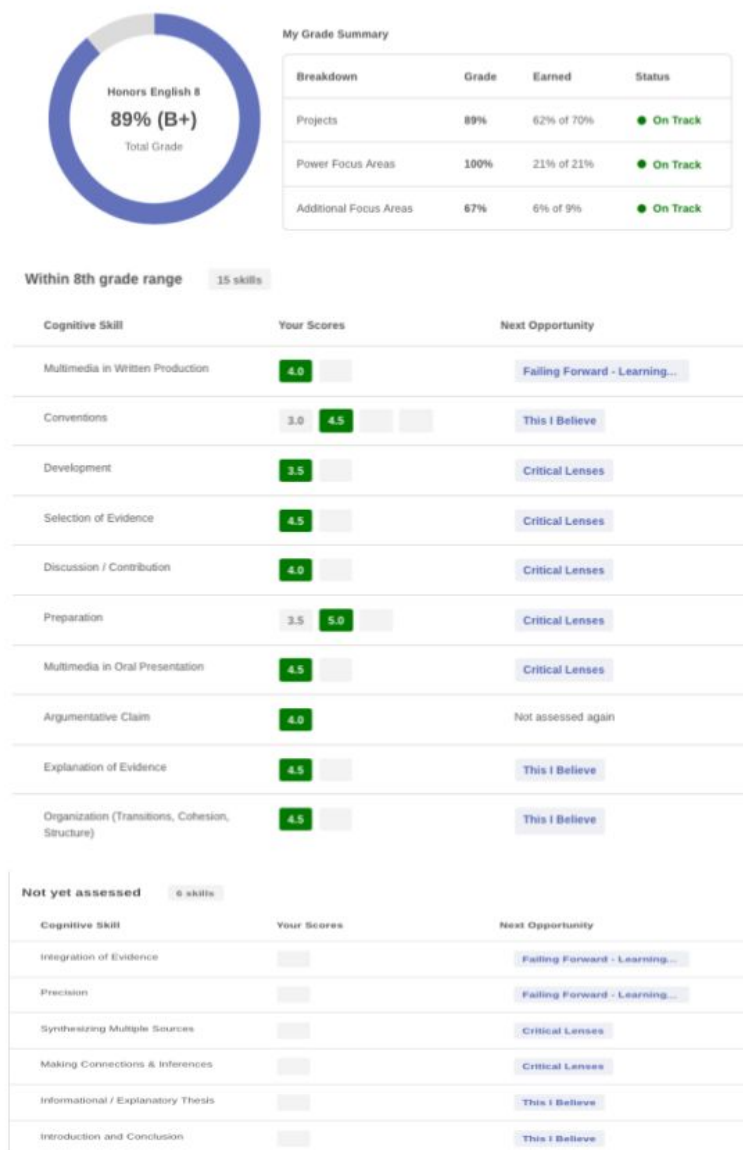

- *See checkpoints (see info above related to color)
- *Project due date
- *Related Focus Areas

HOW TO VIEW THE STUDENTS PROGRESS PAGE (PART 1)

Student Progress Page

The student progress page is located by clicking on an individual course within the progress page screen. This page gives a detailed look at current progress in projects, power focus areas and additional focus areas. Not only does it indicate the student's current progress, you are able to see when each cognitive skill will be reassessed.

Current numerical score for the course as well as a breakdown of the three categories of scoring.

Information related to cognitive skill scores. Each cognitive skill that has been scored is listed as well as the next opportunity for the skill to be reassessed.

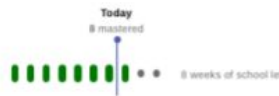

A listing of skills not yet scored and the project associated with each skill

HOW TO VIEW THE STUDENTS PROGRESS PAGE (PART 2)

Student Progress Page (continued)

Power Focus Areas

To master a Power Focus Area, you must pass a **Content Assessment**. Your ability to master focus areas on pace with the time of year is what makes up 21% of your total grade.

32 weeks into school  8 weeks of school left

Today 8 mastered

Mastered 8 areas

Power Focus Area	Highest Score	Times Attempted	Date Mastered
Figurative Language 8	10/10	1 time	7 months ago
Storytelling Devices 8	9/10	2 times	6 months ago
Characterization 8	10/10	1 time	6 months ago
Word Choice and Tone	9/10	2 times	4 months ago
Run-ons / Fragments 8	9/10	2 times	2 months ago
Evaluating Evidence	9/10	1 time	22 days ago
Essay Structure 8	9/10	1 time	22 days ago
Knowledge of Words 8	9/10	1 time	2 months ago

Not started 2 areas

Power Focus Area
Conflict 8
Research Process 8

Current progress in power focus areas. Included information: highest score, number of times attempted, when the PFA was mastered and PFA's not started.

Additional Focus Areas

To master an Additional Focus Area, you must pass a **Content Assessment**. These are worth 9% of your total grade. To maintain this 9%, complete an additional focus area before the line passes 9.

Today 2 completed out of 8 attempted. Each mastery is now worth 9%.

32 weeks into school  8 weeks of school left

Mastered 2 areas

Additional Focus Area	Highest Score	Date Mastered
Punctuation 8	9/10	7 months ago
Drama	9/10	6 months ago

Not started 2 areas

Additional Focus Area
Verb Usage 8.1
Verb Usage 8.2

Current progress in additional focus areas. Includes same information as stated above regarding PFA's
