Implement training required for staff and school community as it relates to restorative practices, trauma and cultural competency training.

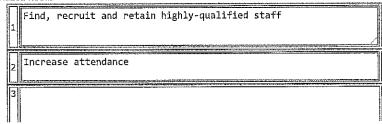

NEEDS ASSESSMENT: IDENTIFYING PRIORITIES

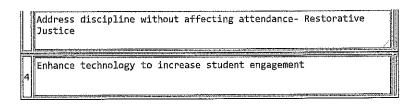

"In most schools, conducting a comprehensive needs assessment will result in the identification of a large number of issues that could be addressed to improve the achievement of students. However, no school should attempt to address every identified need in a single year. Most planning experts suggest that schools prioritize their major issues and address no more than three of the most important..."
