

How To Set A Default Web Browser (Win. 10)

By default, Windows 10 uses the new Microsoft Edge browser for surfing the web. The Warsaw R-IX Tech. Dept. recommends using Chrome instead. Here are some simple steps to help you set your default web browser.

1. Click the “Start” button in the lower, left-hand corner of the screen.

2. Click on “Settings.”

3. From the pop-up box, click on the “Apps” button.

4. On the left-hand side, choose “Default Apps.”

Apps

☰ Apps & features

☰ Default apps 

☰ Offline maps

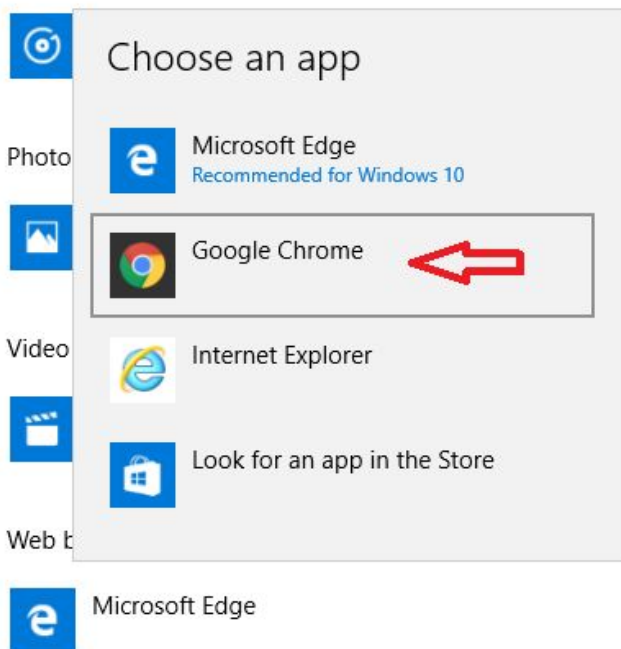

☰ Apps for websites

5. On the right-hand side, click on “Web browser.”

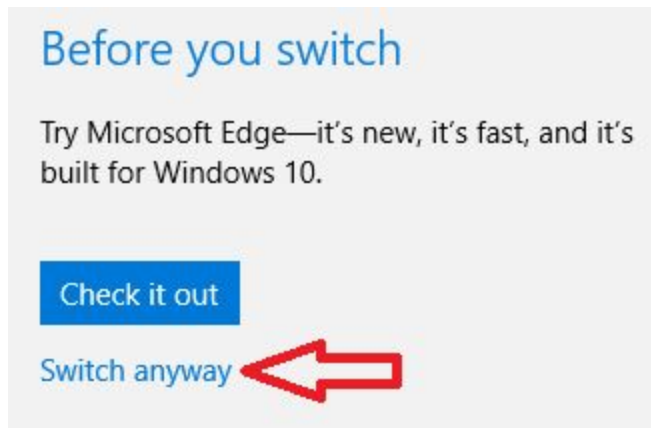

6. From the list of options, choose “Google Chrome.”

Music player

7. In a final attempt by Microsoft to get you to stay, another pop-up box will appear. Click the “Switch anyway” link.

8. You will now see Chrome listed as your default web browser.
