

Update 4-15-20 for Janet Serino, Superintendent

I am sure you are aware that the PA Department of Education has closed schools for the remainder of the 2019-2020 academic school year. It is certainly a frustrating time, but we are working diligently to provide for our students' academic needs.

Our administrators and faculty have had several meetings. We are moving forward in our Continuity of Education Plan. We are currently centered on review and enrichment, but will begin introducing new material into lessons. This will begin on April 27th.

- ✓ **Attendance will not be taken, but student participation will be recorded by each teacher. Participation will be recorded by each principal. Every student is encouraged to participate.**
- ✓ **Teachers are encouraged to provide materials and feedback to each student. Discussion is continuing on how 4th quarter grades will be calculated. The academic goal is to close the gap where the students are currently and where they need to be to begin the 2020-2021 academic year. Students will receive grades for the 3rd marking period utilizing grades up through March 13th.**
- ✓ **All information will be available on the WA website at www.wyomingarea.org. There are directions that will explain how to use google classroom.**
- ✓ **Prior to April 27th, please continue to work on the teacher posted lessons that are available for our students.**

The administrators have been doing virtual meeting with our seniors in order to discuss end of the year activities and graduation. We are uncertain as to what this will look like, but we have a goal in mind to provide for our seniors. We will keep you informed.

We will continue to review and revise as we receive feedback from students, parents, teachers and administration.

There is a light at the end of the tunnel. We will come through this stronger because of us all working together.

Should you have any questions, you may email me at jserino@wyomingarea.org.
