

What Do Plants Need?

Materials:

Grass seed

Potting soil

Glass jar with lid

5 paper cups

Instructions:

1. Label the cups with the numerals 1-5.
2. Cup #1 should be planted in dirt and given sun, water, and air.
3. Cup #2 should be planted in dirt and given water and air but kept in a dark closet or drawer so it does not get sun.
4. Cup #3 should be planted in dirt and given sun and air but NO water.
5. Cup #4 should be planted in dirt and given sun and water but placed in a sealed jar so it does not get air.
6. Cup #5 should NOT be planted in dirt but given sun, water, and air.

What cup will have the grass that grows the best?
