

ATTENDANCE

Regular school attendance has a direct positive effect on academic success and achievement. Students who record frequent and excessive absences and tardies limit contact with teachers and the daily instruction which takes place in each classroom. We want each student to be successful in his/her efforts and believe that regular school attendance makes a significant contribution to their success.

Wheatmore adheres to strict attendance and tardy policies. Students are expected to arrive at school and to all classes on time. The school attendance and tardy policies are outlined below and will be in place for the 2018-2019 school year.
