## **SCS School Bus Wi-Fi Locations**

Sumter County Schools greatly appreciates all the members in our community who are helping to facilitate virtual learning for our students, and we ask for our parents and students to be mindful and respectful of these locations that have been provided to us. Currently, Sumter County Schools has thirty buses equipped with Wi-Fi capabilities, and we will be adding nineteen more as soon as the equipment arrives.

**The Wi-Fi access points have a range of three hundred feet in diameter, and any device attempting to connect will need to be within that range. If you have internet access at home, please use it. These devices are meant to provide internet access to the students of Sumter County Schools who do not have internet access at home. If you are not a student, please do not connect to these Wi-Fi access points because every device that connects will take up much-needed bandwidth.**

**While connected to the school bus Wi-Fi, all network traffic will be monitored and recorded. Anyone who violates the Sumter County Schools Internet Acceptable Use Policy may be banned from accessing school provided internet and devices. [Click here to read the SCS Internet Acceptable Use policy.](#)**

Below, please find a list of locations to access the internet through the Sumter County Schools' Wi-Fi bus network. These locations are subject to change based on usage and availability. This list will be updated, so please check District and Facebook pages regularly.
