Behavior of Students on Bus

21/22

Riding the school bus is not a right, but a privilege, which can be denied if the following rules are willfully disobeyed.

1. Students transported in the school bus shall be under the authority of, and responsible directly to, the Bus Driver. Requests of the Bus Driver are to be obeyed without discussion while the bus is en route. The Bus Driver shall be held responsible for the orderly conduct of the pupils while they are on the bus, or being escorted across a street, highway, or road.
 1. Continued disorderly conduct or persistent refusal to adhere to the authority of the Bus Driver shall be sufficient reason for a pupil to be denied transportation.
 2. No Bus Driver shall require any pupil to leave the bus between home and school, or school and other destinations.
2. Students are expected to be at the bus pick-up point, waiting to board in an orderly fashion.
3. At the discretion of the Bus Driver, a student may be assigned a specific seat and shall not be permitted to occupy another seat without permission from the Bus Driver.
4. All students are to remain seated until released by the Bus Driver. Students are to sit in a safe transportation position: facing forward, with their back against the seat, hands to themselves. Feet shall be kept out of the aisle. Students shall keep heads, hands, arms and other body parts inside the bus at all times.
5. Students shall not drop or throw material of any kind, either from or within the bus.
6. Students shall not make offensive remarks or gestures to pedestrians or motorists.
7. Students shall keep books, packages, coats and other objects out of the bus aisle. No objects are permitted which impair the ability of the driver to operate the bus, or which will obscure the Bus Driver's vision. No objects are allowed in student's hands while on bus, including electronic devices.
8. Students shall not carry knives, flammable devices or other hazardous materials or objects on the bus.
9. Seeing eye dogs are the only animals that may be transported on the school bus.
10. Students are to speak in conversational tones only. Profanity is forbidden, as are the playing of musical instruments, whistling, or participating in any commotion which might distract the Bus Driver.
11. Students shall not interfere with other students or their property.

12. Students shall not eat or drink beverages on the bus during normal transportation. Eating and drinking on the bus may be arranged for field trips. Breakable glass objects may be transported on a bus only if they are contained in a suitable container that would minimize hazard in the event of breakage.
13. Use and/or possession of tobacco or any illegal and/or harmful substance in any form, is prohibited while riding the school bus.
14. Any student found guilty of inflicting willful damage to a school bus will be denied transportation until the parent/guardian has paid for the cost of repairs.
15. Students having to cross the road when boarding or leaving the bus shall do so only in front of the bus with the Bus Driver's permission, after all vehicles have stopped or the road is clear and safe. The Bus Driver will use flashing lights and shall accompany all elementary students who must cross the street to get home.
16. Students who refuse to submit to the authority of the Bus Driver shall be reported by the Bus Driver to the superintendent as soon as possible after the misconduct occurs.
 1. The superintendent shall reprimand the student and inform the parent/guardian of the offense and the reprimand. The superintendent shall also inform the student, and their parent/guardian that if such misconduct persists the student may lose the privilege of being transported by the bus. Other disciplinary action may be taken.
17. Students must present written and signed permission from a parent/guardian for any permanent or temporary change in their regular bus schedule.
18. All School Bus Incident Reports must be signed by a parent or guardian and returned to the superintendent before the student will be allowed back on the bus.

Parents and/or guardians shall be provided with copies of this regulation and shall acknowledge that they have read and understood these rules. Questions regarding transportation or the above regulations should contact the superintendent.

We have read and understood the rules for School Bus Behavior.

21/22 Student Responsible Use of Technology Agreement

Overview:

The Camptonville Union Elementary School District makes a variety of communication and information technologies available to students through computer and internet access. These technologies, when properly used, promote educational excellence in the District by facilitating resource sharing, innovation, diversifying perspective, collaboration, and communication. Illegal, unethical or inappropriate use of these technologies can have dramatic consequences, however, the District firmly believes that digital resources, information and interaction available online far outweigh the disadvantages.

This Responsible Use Agreement is intended to minimize the likelihood of harm to students and staff by educating and setting standards which will serve to protect both the District and its students.

Mandatory Review by Parent/Guardian and Student

To educate students on proper digital technology use and conduct, students are required to review the following guidelines each school year. The parent or legal guardian of a student is required to acknowledge receipt and understanding of the District's Student Responsible Use of Technology Agreement (hereinafter referred to as the Responsible Use Agreement) as part of the annual registration process, which includes signing and submitting a Summary Signature Form at the beginning of each school year.

Student Use Expectations:

These regulations must be adhered to in order to maintain technology privileges.

- ❖ The school's information technology resources are provided for educational and instructional purposes; if you have any doubt about whether a contemplated activity is acceptable, consult with your teacher, supervisor, or administrator.
- ❖ Respect and protect your privacy and security and the privacy and security of others by:
 - Using only accounts assigned to you.
 - Only viewing or using passwords, data, drives, or networks to which you are authorized access.
 - Never distributing private information about yourself or others.
- ❖ Respect and protect the integrity, availability, and security of all electronic resources.
 - Report computer or network malfunctions to a teacher or authority.
 - Report security risks or violations to a teacher or network administrator.

- Do not destroy, damage or delete data, equipment, networks, or other resources that do not belong to you without clear permission of the owner.
 - Do not engage in malicious network activity, including, but not limited to, hacking, creating/uploading/downloading viruses, sending mass emails or spam, or causing a disruption to electronic services.
 - Do not cause network congestion or Mass Electronic Storage
- ❖ Respect and protect the intellectual property of others.
- Following copyright laws (not making illegal copies of music, pictures, images, videos, games, software, apps, files or movies).
 - Citing sources when using others' work (not plagiarizing).
- ❖ Respect your digital community.
- Communicate respectfully and with consideration.
 - Report threatening or discomfoting materials to a teacher or administrator.
 - Not intentionally accessing, transmitting, copying, or creating material that violates the school's code of conduct (such as messages/content that are pornographic, obscene, threatening, discriminatory, harassing, intimidating or bullying).
 - Not intentionally accessing, transmitting, copying, or creating material that is illegal (such as obscenity, stolen materials, impersonating another person for harmful purposes, or illegal copies of copyrighted works).
 - Not using the resources to further other acts that are criminal or violate the school's standards for student behavior, such as cheating.

Consequences for Violation

Violations may result in the loss of technology privileges. Violations may also result in disciplinary action, imposed in accordance with the District's Standards for Student Behavior, up to and including; suspension, expulsion or legal action, depending on the severity of the violation.

Student Access to Computer/Network/Internet

Computer/Network/Internet access will be provided to all students for educational and instructional purposes. Each District computer with internet access has filtering software that blocks access to visual depictions that are obscene, pornographic, inappropriate for students, or harmful to minors, as defined by the Federal Children's Internet Protection Act (CIPA). The District makes every effort to limit access to objectionable material; however, controlling all such

materials on the computer/network/Internet is impossible, even with filtering in place. With global access to computers and people, a risk exists that students may access material that may not be of educational value in the school setting.

Supervision and Monitoring

The use of District owned information technology resources is not private.

Authorized employees monitor the use of information technology resources to help ensure that uses are secure and in conformity with District policies. Administrators reserve the right to examine, use, and disclose any data found on the school's networks in order to further the health, safety, discipline, or security of any student or other person, or to protect property.

Students must understand that computer files and electronic communications are not private and may be accessed by the District for the purpose of ensuring proper use. Administrators may also use this information in disciplinary actions, and will furnish evidence of crime to law enforcement. The District reserves the right to determine which uses constitute acceptable use and to limit access to such uses. The District also reserves the right to limit the time of access and priorities among competing acceptable uses.
