

Accessing EADMS in Computer Lab

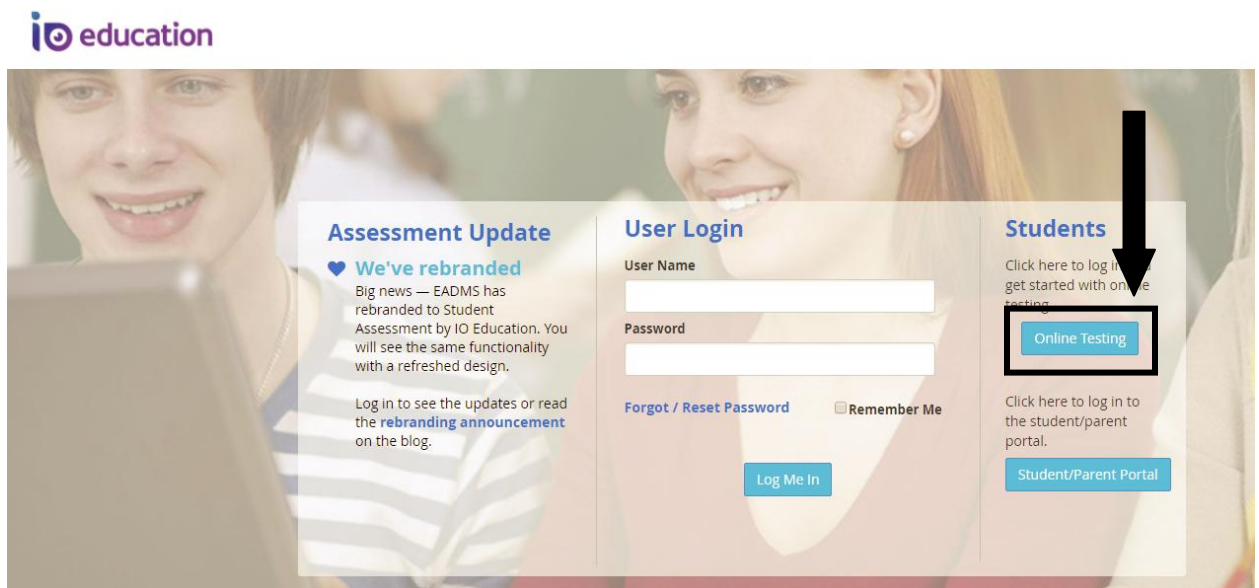

Objective: This guide will walk you through how to access the EADMS online testing app for students.

Accessing the Applications

1. Make sure the students logs into the network with either their personal account or a generic account if that is typically what is used to sign-in to the computers in the lab (i.e. como, ghe, etc.)
2. Students will need to go to the North Panola School District website and click on **EADMS** under **Quick Links** in the column on the left. Students will then be taken to the EADMS webpage.

3. Student will then click **Online Testing** under **Students** on the right-hand side of the page.

4. The online testing application will launch and each student will enter their **Student ID** and click **Login**. The **Session ID** is optional.

Welcome to Online Testing

Please enter your Student ID and press the login button below.

Student ID

If you have been given a Session ID by your teacher, enter that as well.

Session ID (optional)
