

Rileey Lawson and Skylar Schaal, former fifth grade students at Trindale Elementary School, were selected as Central Regional Finalists in the North Carolina Council of Teachers of Mathematics (NCCTM) Math Logo Contest.

The Mathematics Logo Contest is held each spring. The NCCTM Board selects the winning logo at its Spring meeting. The 2020 winning logo will be available on shirts at the NCCTM State meeting in October.

The students are featured on [page 12](#) of the Fall 2020 issue of “The Centroid,” the NCCTM Journal.

Rileey and Skylar’s teacher at Trindale was Christy Hutchins. The two students are now sixth graders at Braxton Craven School.
