

Academy Overview and Course Descriptions: Global Studies

Global Studies Academy

Through the Global Studies Academy, students will participate in business foundation courses which will lead to a study in international affairs. This will provide students with a worldly approach to the business world. Students will take courses involving international affairs, internet marketing, and communications. Students will have the opportunity to participate in job shadowing, internships, and work-based learning throughout this academy. Students are encouraged to take foreign language courses as electives, as well, in order to help grasp the concept of the working world abroad.

Business Technology Applications

Business Technology Applications is a one-credit foundation course designed to assist students in developing technological proficiencies in word processing, spreadsheets, databases, presentations, communications, Internet use, ethics, and careers using technology applications. Simulations and projects promoting teamwork, leadership, and workplace skills offer further opportunities for application of knowledge and skills.

Business Technology Applications—Advanced

Business Technology Applications—Advanced is a one-credit course that provides students with project-based applications of concepts learned in Business Technology Applications or Business Essentials. Personal computing and business skills are integrated throughout the course as students use a variety of software applications to produce and prepare documents for publication and learn how to select appropriate software for generating information. A major emphasis is placed on guiding students through real-world experiences to aid in the school-to-career transition. The prerequisite for this course is Business Technology Applications or Computer Applications.
