

# Joseph Rogers Primary

At Joseph Rogers Primary, we are committed to a continued focus on academic excellence, social-emotional supports, and positive behavior, where:

## Students:

- 🐾 Show readiness to learn and grow by setting and striving toward personal and school-wide goals each day.
- 🐾 Participate respectfully in a variety of cooperative groups in order to help themselves and others grow; and
- 🐾 Demonstrate academic and behavioral responsibility through their academic performance and personal actions.

## Teachers:

- 🐾 Build relationships with individual students and families and use trauma-informed strategies with all students;
- 🐾 Engage students in being active in their own learning through hands-on activities and project-based learning, ask appropriate and rigorous questions, and provide ongoing individual student feedback;
- 🐾 Hold students to high standards and assist students in creating and reaching personal learning goals appropriate to current academic level and state guidelines; and
- 🐾 Plan effectively with each other to strengthen grade-level planning and data-informed instruction.
- 🐾 Communicate with caregivers in a variety of modes in order to strengthen the parent-student-teacher relationship.

## The School:

- 🐾 Structures the schedule to allow for common planning for grade-level teachers, state required academic times, and student social-emotional support activities;
- 🐾 Creates a school-wide organization to promote connections and relationships with staff, students, caregivers, and community;
- 🐾 Follows a multi-tiered support system for academics and behavior, utilizing a positive behavior system; and
- 🐾 Requires ongoing grade-level work and bi-weekly productive professional learning community meetings in order to strengthen data-driven planning.

## Caregivers and Community Members:

- 🐾 Show their involvement in the school and learning process by creating partnerships with teachers, participating in a variety of types of communication (phone, in-person, digital, paper), and demonstrating their ownership of their child's education; and
- 🐾 Engage in school activities and language that promote a positive view of the school community and their child's academic journey.

**Every student matters,  
every moment counts!**
