

All schools in the Pottsville School District are fully accredited through the Arkansas Department of Education. ACT Readiness Levels/Subject Proficiency Levels are as follows: District (English 83%, Math 66%, Science 57%, Reading 51%, Writing 52%); Building Focus for 2017-2018 based upon results: High School (Improve Readiness Level in Math); Junior High (Improve Readiness Level in Math); Middle Grades (Improve Readiness Level in Writing); and Elementary (Improve Readiness Level in Writing). According to ADE, a "Needs Improvement" status should not be associated with school improvement status. It simply means the school missed one or more targets (as indicated) under the new accountability system. School leaders and teachers are analyzing the data to find out which students are not making their gains and developing teaching and learning strategies to help each student achieve.
