62	overall transparency. by and large, Thompson is an ideal environment for my child's academic growth. he is gaining the skills necessary to succeed and excel in today's ever-changing competitive world. I, as a parent, have very few complaints in so far as his education goes. I do wish that I knew more about how his day was formatted. my son has been counted absent when his bus services ran late, has had grades counted against him as a result of them not being turned in (recorded by) teachers, and we have been caught off guard by the assignments that we were unclear of the due dates of. please understand that these are not criticisms of any of the faculty and/or staff at Thomson. I bring them up only to ask if there is anything that I, as a parent, can do to better assist in the way these issues are or can be handled. I would be very happy to do so. among the several websites and apps that we regularly check, it is my hope that we can reinforce at home what the school board administration and teaching staff of Thomson work so diligently towards at schools. thank you all for what you do for children and community and please feel free to contact me with any suggestions as you see fit	3/8/2018 3:16 PM
