(Last month's game)

### Rectangle Game

- Need graph paper, or make your own
- Pen or pencil - different colors
- Pair of Dice
- Roll the dice, add (for younger kids) the 2 dice together, and shade in that many squares in the shape of a rectangle - when you cannot make any more rectangles - the one with the most rectangles wins.
- Roll the dice, multiply (for older kids) the 2 dice together, and outline the number of squares, while putting the answer into the rectangle - when you cannot make any more rectangles - add up the total of each person's rectangles, and the one with the most points wins.

The after school activities are fun optional activities. HAVE FUN!!!
