

# **Amite County School District**

## **Strategic Action Plan**

**2021-2022**

# **Goal I: Increase Student Achievement**

## **Measurable Indicators:**

- ❖ **The district's accountability letter grade will move from an F.**
- ❖ **Each school's accountability letter grade will move up.**
- ❖ **Increase elementary proficiency (3-8) in math, reading, and science (minimum of 3%).**
- ❖ **Increase proficiency in Algebra I, Biology, English II, and US History (minimum of 3%).**

## **Strategies:**

- 1. District Personnel, School Administration Teams, and Teachers will analyze 2020-2021 State Test Data and Mastery Connect Benchmark Data to determine strengths and weaknesses, drive instruction, ability group students, and develop individualized educational plans as needed.**
- 2. Principals/Assistant Principals/ILC will review lesson plans and monitor classroom instruction to ensure the standards are being taught, rigor is up, and expectations are raised in the district.**
- 3. Students will be monitored for academic success and placed in remedial/support courses as needed.**
- 4. Administration Team and the ILC will be in classrooms daily.**

## **Goal 2: Improve Communication**

### **Measurable Indicators:**

- ❖ **School level websites and a Facebook Page for each school.**
- ❖ **Utilize two-way communication with stakeholders.**
- ❖ **Board meeting information.**
- ❖ **School News**

### **Strategies:**

- 1. Technology will train school personnel to update and disseminate information on school websites, Facebook pages, and AIMSWeb for all stakeholders.**
- 2. School Status will continue to be used for instant two-way communication.**
- 3. Stakeholders will be able to attend monthly board meetings in person or via Zoom. The monthly agenda will be posted online.**
- 4. A monthly newsletter will be published promoting successes and accomplishments of the Amite County School District, faculty/staff, and students.**

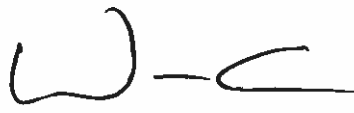

# **Goal 3: Improve District Technology Infrastructure**

## **Measurable Indicators:**

- ❖ **Update domain servers and outdated switches at each site.**
- ❖ **Integrate Cisco Phone System at each site.**
- ❖ **Update system and add cameras at each location (indoor and outdoor).**

## **Strategies:**

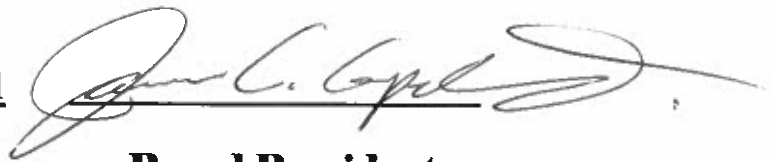

- 1. Replace 2008 Window servers to 2016 or higher.**
- 2. Replace 10-year-old switches with new Cisco switches and update fiber between switches.**
- 3. Update phones at each school and add additional software for intercom/overhead paging.**
- 4. Continue to add cameras for safety in the gyms, stadiums, parking lots, and other areas with a need.**
