

**Subject:** Important Announcement from Florida Department of Education, Bureau of Educator Certification

**ANNOUNCEMENT FROM FLORIDA DEPARTMENT OF EDUCATION,  
BUREAU OF EDUCATOR CERTIFICATION**

The Florida Bureau of Educator Certification has announced that individuals with pending applications for certification with the state, and Florida certified educators can now make updates to their **Address of Record** directly with DOE certification.

You may review your **certification application status** and **current address** by clicking the online "*Application Status Lookup*" button from the Educator Certification home page at <http://www.fldoe.org/edcert> .

Once there, you can use/create a secure Log-in ID and Password, not only to review the status of your certification application file, if you have a pending application with the state, but also to use the "*View Address*" to check and/or update your current address with DOE certification.

This tool has been launched so that each certified educator or applicant for certification has the ability to maintain his or her current address with the Department of Education in compliance with Chapter 1012.561 F.S. <http://www.flsenate.gov/statutes/index.cfm> .
