Monitoring Students' Health

- Our new nurse's office has a "well room" and a "sick room."
- We will not be taking the students' temperatures everyday. Random temperature checks will happen periodically.
- As students show symptoms we will take their temperature. If a student has a fever, we will place a disposable mask on them, place them in the "sick room" of the nurse's office and contact parents. The classroom space occupied by the student will be disinfected immediately.
- We must have working phone numbers for all parents/guardians.
- Students with a fever will be sent home and cannot return to school for 72 hours (per the new student handbook).
- Parents are encouraged to keep children at home if they show any symptoms of illness. Please contact our school nurse if your child tests positive for COVID-19.

- Students must check-in at the front office if arriving after 7:35 AM. They will be considered tardy.

- Sanitizing will take place daily throughout the school year.
- One water fountain will be converted to a bottle filling station. All of the other water fountains will be turned off. Please send a water bottle with your child each day.
- Parents should encourage their children not to hug or touch others and practice social distancing. Please remind your child not to share lunch items or school supplies with another child. Thank you for your assistance.
