IMPORTANT INFORMATION FROM THE NURSE'S OFFICE

Staying Well

Whenever you have a group of students/people together you will have various bugs going around. In the nurse's office, we will continue to watch for symptoms of an illness that would be contagious and send those students home.

Please remind your student to take usual precautions to stay healthy, including **not sharing food or drink** with friends.

From the CDC:

What You Can Do to Stay Healthy

There are everyday actions people can take to stay healthy.

Cover your nose and mouth with a tissue when you cough or sneeze. Throw the tissue in the trash after you use it.

Wash your hands often with soap and water, especially after you cough or sneeze. Alcohol-based hands cleaners are also effective.

Avoid touching your eyes, nose or mouth. Germs spread that way.

Try to avoid close contact with sick people.

Influenza is thought to spread mainly person-to-person through coughing or sneezing of infected people.

If you do get sick, CDC recommends that you stay home from work or school and limit contact with others to keep from infecting them.
