

## Permission Slip for Reproductive Health Class, Part 2

The second part of the Reproductive Health Class, beginning in January and ending in April, starts with Reproduction. This part of the class includes information about abstinence, having intercourse, condoms, graphic pictures of STDs and AIDS and HIV. Some of the students who greatly benefitted from the 1st part of this class are not ready for the 2nd part. However, some students are ready and need to know about all aspects of reproduction and sexual health to stay safe and knowledgeable. Please sign this second permission slip if you would like your child to participate in the second part of the class on reproduction.

If you have any questions regarding this class, please call Pamela Fry at 989-269-3462.

---

### Parent Permission for Reproductive Health and/HIV/STD Education

\_\_\_\_\_ My child \_\_\_\_\_ may participate in Part 2 of the Reproductive Health Class. I understand that some parts of the class are graphic in detail and talk about extremely sensitive subjects.
