

Enthusiastic Parents:

In an effort to assist parents in reducing the "summer loss of learning", we have created Summer Packets for students in grade levels Pre-K-8. Each Summer Learning Fun Packet consists of math, reading, language, and writing activities. The goal of the packets is to have students work for about 15-20 minutes on skill based activities (IN EACH SUBJECT) to continue learning for the upcoming school year. Our commitment to learning is to provide continuous educational enhancements through:

- ❖ Activities designed to be a review of material from the past school year and have been pulled from our current reading and math series so they should be familiar to you and your child.
- ❖ Summer Learning Fun Packets will help reduce the "summer loss of learning", but also creating fun and creativity.
- ❖ Students that complete their packets, and return them to school in August, will be allowed to receive two 100 starting off the school year in both ELA & Math, along with an incentive! (Pre-K an incentive)

Reading Strategy Lessons Level K

Pre-K- Lesson 1: Finding the Big Idea June 8-July 2
