Dear Administrators and Counselors,

The Mississippi Department of Education's *Approved Courses for the Secondary Schools of Mississippi* offers a wide variety of courses for high school students, beginning with grade seven and continuing through grade twelve. The purpose of the *Approved Courses for the Secondary Schools of Mississippi* is to help select the courses that are best for students. Choosing the right courses for a high school program is an extremely important task and should be thoughtfully developed with students and their parents.

When Using this Manual, Guiding Questions to Consider:

- What courses are required for graduation?
- When will the school offer the required courses?
- What are the local interests and areas which need developing?
- How will you use the ISP (Individual Success Plan) to create a secondary course plan best suited for your students and their high school goals?
- How can the school strategically plan (or offer) academic programs that move students forward?

On behalf of the Office of Secondary Education, I wish you much success.

Mississippi Student Information System (MSIS)

In order to generate the most current approved course codes listing from the Mississippi Student Information System (MSIS), please follow the directions on the next page to create an Approved Secondary Course Codes Report.

NOTE: An **example** of an Approved Secondary Course Codes Report from the Mississippi Student Information Systems (MSIS) is attached at the end of this document. The report is only an example and does not include all approved courses listed in the Mississippi Personnel/Accreditation Data system (i.e. course code for elementary, special schools, etc.). Also, this report does not reflect or include courses that are presently being developed, revised or will be deleted after July 30 of the current school year.

To ensure the most current list of available approved courses is being used, please generate a current Approved Secondary Course Codes Report from the Mississippi Student Information System (MSIS).

APPROVED SECONDARY COURSE CODES REPORT for the Secondary Schools of Mississippi

The following procedures will help district administrators and counselors keep abreast of current changes to courses, course codes and other relevant information on approved courses. Administrators and counselors should periodically review approved courses through the MSIS electronic database in order to make the correct decisions for helping students develop their Individual Success Plan and prepare for graduation and post-secondary requirements.

Every counselor should be able to access MSIS through “limited” access with a personal log-in. If you do not have a log-in, ask for assistance from the district MSIS data manager. In order to generate the Approved Secondary Course Codes Report, please follow these steps:

1. From the website (www.mdek12.org), select Administrators and then MSIS (MS Student Information System) from the dropdown selections.

2. Choose MSIS Log-on from the right side of the MS Student Information Systems (MSIS) page.

NOTE: Your browser may prompt you to “run” or “trust” Java in order to launch the MSIS log-on.

MS Student Information System (MSIS)

The Mississippi Student Information System (MSIS) was created to comply with the Performance Based Accreditation Model established by the Education Reform Act of 1982. This creation was strengthened by further legislation in 1994. This legislation placed an emphasis on the accurate reporting of student attendance and personnel at the school level – it required that there be no more summary data sent to the State Department of Education. MSIS was created to capture the data necessary to comply with this state legislation as well as federal requirements for reporting.

MSIS provides for the electronic collection and storage of comprehensive detailed data about teachers, administrators, students (PreK to 12), and school board members. MSIS also allows for the electronic transfer of student records from one school district to another, thus offering a unique student tracking system. The

- Support the Mississippi Department of Education (MDE) performance-based accreditation model
- Support education funding programs
- Provide timely and accurate reporting of education data (schedules, attendance, grades, transportation, discipline, Vocational, and Special Education) to meet state and federal requirements
- Allow for student tracking across the state to determine student mobility trends and to assist in the reduction of first drop-out rate within the state.

Carnegie Unit Code Chart**

This list is extracted directly from the MSIS course listing report. The MSIS course listing report uses a Carnegie Unit Code System to indicate the potential Carnegie units and course terms for each course listed. Below is a chart detailing the Carnegie units and course term combinations represented by the Carnegie Unit Code System used in MSIS. Refer to this chart to understand the possible Carnegie unit/course term combinations for the courses listed in this report.

Standard Diploma
2018-2019 (Students currently in 11th – 12th grades)

Each student graduating from a secondary school in an accredited school district will have earned the required Carnegie units as specified in the following table. Contents of each required and elective course must include the core objectives identified in the *Mississippi College and Career Readiness Standards*. Course titles and identification numbers must appear in the current edition of the *Approved Courses for Secondary Schools of Mississippi*. (See 7 Miss. Admin. Code Pt. 3, Ch. 28, R. 28.2, R. 28.3.) Students enrolled in grades 7-12 may be awarded a Carnegie unit credit provided the course content is a Carnegie unit bearing course in the current edition of the *Approved Courses for the Secondary Schools of Mississippi*. Enrollment in online courses must have prior approval granted by the principal.

Any student who completes the minimum graduation requirements as specified below and has met the requirements for each of the required high school assessments is eligible to receive a high school diploma. The local school district may establish additional local requirements approved by the local school board as authorized under Miss. Code Ann. § 37-16-7.

Mississippi Diploma Options

Begins with incoming freshmen of 2018-2019

Mississippi has two diploma options: The Traditional Diploma and the Alternate Diploma. The Traditional Diploma is for all students. The Alternate Diploma is an option for students with a Significant Cognitive Disability (SCD).

TRADITIONAL DIPLOMA OPTION

Curriculum Area	Carnegie Units	Required Subjects
English	4	- English I - English II
Mathematics	4	Algebra I
Science	3	Biology I
Social Studies	3½	1 World History 1 U.S. History ½ U.S. Government ½ Economics ½ Mississippi Studies
Physical Education	½	
Health	½	
Arts	1	
College and Career Readiness	1	Must occur in the student's junior or senior year, or in the student completion of a 4-year sequence.
Technology or Computer Science	1	
Additional Electives	5 ½	
Total Units Required	24	

Requirements

- Student should identify an endorsement area prior to entering 9th grade. Endorsement requirements can only be changed with parental permission.
- For early release, students must have met College or Career Readiness Benchmarks (ACT sub scores 17 English and 19 Math or earned a Silver level on ACT WorkKeys or SAT equivalency sub scores). Alternately, a student must meet ALL of the following:
 - Have a 2.5 GPA
 - Passed or met all MAAP assessments requirements for graduation
 - On track to meet diploma requirements
 - Concurrently enrolled in Essentials for College Math or Essentials for College Literacy

Recommendations

- For early graduation, a student should successfully complete an area of endorsement.
- A student should take a math or math equivalent course the senior year.

ALTERNATE DIPLOMA OPTION

Curriculum Area	Carnegie Units	Required Subjects
English	4	Alternate English Elements I-IV
Mathematics	4	- Alternate Math Elements I-III - Alternate Algebra Elements
Science	2	- Alternate Biology Elements - Alternate Science Elements II

Life Skills Development	4	Life Skills Development I-IV (Strands: Technology, Systems, Personal Care, and Social)
Additional Electives	2	
Total Units Required	24	

Requirements

- The Alternate Diploma is not equivalent to a traditional high school diploma and is not recognized by postsecondary entities that require a traditional high school diploma.
- All students are required to participate in the Mississippi Academic Assessment Program—Alternate (MAAP-A) at the Passing Level.
- Students who have met the criteria on their IEP for having a Significant Cognitive Disability (SCD) may participate in a program of study to earn the Alternate Diploma.

October 2018

Traditional Diploma Endorsement Options

Credit Recovery Guidelines

DESCRIPTOR TERM: Credit Recovery

Policy RULE: 28.5

ADOPTION DATE: May 19, 2008

The purpose of the Credit Recovery Policy is to provide guidance to Local Education Agencies (LEAs) with Credit Recovery Programs. Credit recovery allows students who have been unsuccessful in mastering content or skills an opportunity to apply for credit recovery as an alternative to repeating the entire course.

- I. Credit recovery is defined as a course-specific, skill-based learning opportunity for students who have previously been unsuccessful in mastering content/skills required to receive course credit or earn promotion. In order to be eligible for credit recovery, a student must have unsuccessfully completed and failed a course or failed a SATP assessment.
- II. Beginning with the 2008-2009 school year, any LEA who provides a Credit Recovery Program shall develop and implement a Credit Recovery Program that has been adopted by the school board and that includes rules, regulations, and processes. The rules, regulations, and processes shall be available to faculty, students, and parents/guardians. At a minimum, LEAs must address the following areas:
 1. Admission to and removal from the Credit Recovery Program
 - a) LEAs shall establish an application process that requires parental consent.
 - b) LEAs shall establish minimum criteria to determine eligibility for participation in the Credit Recovery Program.
 - c) LEAs shall determine the number of Credit Recovery Courses that a student can take at one time.
 - d) Students shall not remain in a Credit Recovery Course for more than one year.
 - e) Only students that have failed a course may enroll in credit recovery to earn a minimum passing grade. Credit recovery cannot be used by a student that has passed the course to improve the students assigned course grade.
 - f) A student that has passed a SATP class but failed the SATP assessment may enroll in credit recovery for remediation only. The grade earned for the SATP class remains unchanged.

2. Instruction:

- a) LEAs shall determine the instructional methodology used for the Credit Recovery Program (i.e., online program, Mississippi Virtual Public School (MVPS), direct instruction, computer assisted instruction, etc.).
- b) If an online credit recovery program is used, the online delivery must be supervised by a licensed teacher employed by the LEA that issues the final credit recovery grade. The LEA must ensure that content and instruction is aligned to the Mississippi College and Career Ready Standards and the Mississippi Curriculum Frameworks.
- c) LEAs shall provide professional development for teachers and facilitators involved with the Credit Recovery Program.

3. Content and Curriculum: Credit Recovery Curriculum shall be based on the Mississippi College and Career Readiness Standards competencies and objectives.

4. Grades: LEAs are responsible for establishing specific procedures for evaluation of student progress and determining grades.

5. **Beginning school year 2016-2017, a student who selects credit recovery to earn a Carnegie unit shall only earn the minimum passing grade on the district grading scale.**
