Dr. Danny Glover Jr., Superintendent of Schools

Dear Community:

Our schools have recently commemorated the one-year anniversary of COVID-19's impact on our educational system, our students, our families, and our teachers. Our school district did an excellent job balancing the protection of the health and safety of our students and staff throughout the pandemic. While we are eager for our students to return, we will continue to place the health and safety of all our Taylor County School District family as our top priority. Students and staff will be given protective gear and sanitizing materials to help combat the virus. Safety protocols and procedures will be re-evaluated as the latest information becomes available. If you have any campus specific questions, please contact your principal. Although it is a personal choice, with 99% of the current hospitalizations being unvaccinated individuals, we encourage all to get vaccinated to slow the spread.

Thank you for your understanding and patience as we navigate this school year.

Sincerely,

Dr. Danny Glover

Superintendent of Schools, Taylor County
