

TRANSPORTATION

We will continue to run our normal bus routes at normal times. We will do the best we can to keep students safe on the bus, however, social distancing may not always be possible. If you do not want your child that close to other individuals, please try to find an alternative way to school.

- ✓ We will sanitize the bus every day after each route.
- ✓ We will provide hand sanitizer.
- ✓ Driver will wear a mask.
- ✓ Windows will remain open when possible.
- ✓ Masks are not required but highly recommended.
- ✓ If possible, please check your child's temperature before putting them on the bus and keep them at home if it is higher than 100.4.
- ✓ Family members will sit together in seats regardless of the age of the student.
