

Meet the Teacher- Teachers have begun contacting parents and students personally. Please watch for a call from the school this week or the beginning of next. We will need to verify your phone numbers, email addresses, registration documents, and device and/or hot spot needs. We are also planning to have parents come to our school on designated days to pick up any needed materials and devices for those who need one. These dates will be announced closer to school starting. We are hoping the devices will be ready the week of the 18th. Please wait for us to contact you. Teachers will set up an orientation with their parents to introduce you to Schoology and remote learning. Your child's teacher will make these arrangements with you.

Continue to follow us on Facebook and our website for more information to come: Dodge Elementary School

We will place all updates on these sites.
