Coaching Supplements

High School Level - extra days for field maintenance/extra work are noted in parenthesis.

Certified employees are preferred to fill the coaching needs, but if classified employees are needed and approved (volunteering their services)- they, too, will be paid the reflected amount per the latest approved scale (change approved May, 2020). If non-employees (volunteering their services) are approved to assist - they will receive a nominal amount - defined as **85% of stated amount**. They must be recommended for the amount by the school principal/AD after successful completion of the duties at the end of the sport season.

All non-employee coaches must have completed the required paperwork to serve as a volunteer (in the coaching capacity); all must have a satisfactory background check prior to working with students.

All coaches must annually sign the required *Code of Ethics* annually and complete all required training requirements.

All coaching supplements are to be from the budget line 71400189.

Elementary coaches are to receive \$500 per team per school (nominal amount).

Coaches may not receive supplements for practice or games that overlap with other teams.

Athletic director (middle school) may request an additional assistant if it can be justified, if funding is available, the Director must approve.
