

MARGARET MACE

School

1201 Atlantic Avenue North Wildwood, New Jersey 08260 (609) 522-1454

[CLICK HERE TO REGISTER FOR SUMMER SCHOOL](#)

We are pleased to announce we are having our **Summer School Enrichment Program**. This program will provide fun and meaningful learning activities and is open to all students in current grades 3-7.

The programs will begin Tuesday, July 6 through Friday, July 30, 2021, 8:00 AM -12:00 PM.

There will be three different choices of learning, STEAM, Marine Science, and Wood Shop. Sign-up by Monday, June 21, 2021

Let Off Some "Summer S.T.E.A.M" !!!

Enjoy hands-on experiences in Science, Technology, Engineering, and Math through Art!

The program will provide learning opportunities in an environment that will accommodate extended exploration, creative thinking, and problem-solving skills.

Typical activities will involve building, printmaking, magnetics, temperature experiments, aerodynamics, water cycle experiments, laws of motion and gravity, and the forces of nature. We plan on having fun, getting creative (and sometimes messy!) both indoors and out. Guest speakers and field trips are possible as well! Join us for some summer fun!

Marine Science

The Marine Science Summer School program aims to enable the students to appreciate their life on the Five Mile Island. Through classroom activities and field trips, students will understand the marine environment surrounding them. They will see the beauty of their hometown and participate in activities that promote preserving the natural ecosystem. Anticipated activities involve beach exploration, bay crabbing, oceanography studies, and field trips.

Summer Shop Program

Attention Margaret Mace Students Grades 4 thru 7

- Learn How to Safely use all Hand and Power Tools in the MMS shop
- Design and build small projects out of wood
- Learn about the "Phases of Construction"; and Carpentry Trade thru demonstration and hands-on activities.
- Design and Build a class project.
