- Health Science
- Hospitality/Food Service
- Law Enforcement/Public Safety
- Marketing
- Mechanical/Architectural Engineering and Design
- Power Technology
- Visual Communications

Program Description:

The PREP Program is designed to help special education students be prepared to successfully enter a Career Technical Education (CTE) Program at the Huron Area Tech Center (HATC).

- for students in grades 9-11
- students can be on track for a diploma or certificate of completion
- 1/2 day program ran in the AM
- located at the Huron Area Technical Center
- credit for the program is determined and awarded by the local
- it is a one or two year program

Program Highlights:

The goal of the program is to prepare students with the skills to successfully and independently access a CTE program for further vocational training during 11th and/or 12th grade.

Students will...

- explore the various Tech Center Programs to learn the content and behavioral expectations
- gain insight into different career fields and opportunities
- complete vocational skills, abilities, and interest inventories
- participate in career readiness activities
- learn and develop the soft skills needed to independently access the Tech Center Programs
