### **Dual Enrollment Policy**

CHCA partners with the University of Mobile and The University of Alabama to offer Dual Enrollment options to students. Students may participate in dual enrollment courses if they meet the following criteria:

- Students should complete 14 credits or be entering their junior year.
- Students should have an ACT score of 19 or higher.
- Students should have an unweighted GPA of 3.5 or higher.

Dual enrollment courses in the core subject areas (i.e. math, science, English and history) will not replace the core course transcript requirement for CHCA. Core subject area courses taken through the university option will count as electives towards the CHCA transcript requirement.

Students who are interested in the dual enrollment options should contact Mrs. Hall in the Office of College and Academic Advising. Students should be in contact with Mrs. Hall in the semester before they wish to enroll in a dual enrollment course because the enrollment process is lengthy.
