BUNNY
CALF
CHICK
CUB
DUCKLING
EAGLET
FAWN
FOAL

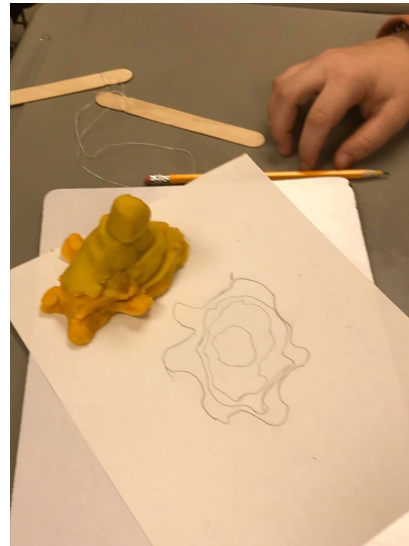

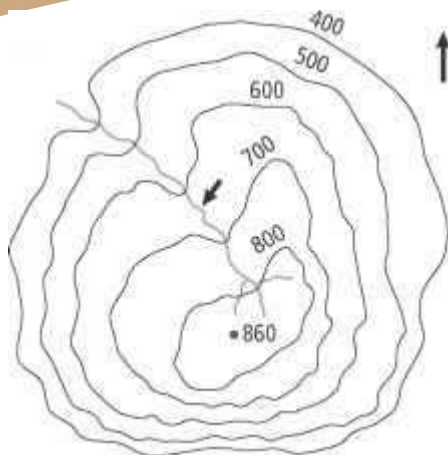

HATCHLING
JOEY
KID
KIT
KITTEN
LAMB
PIGLET
PUPPY

GEOGRAPHY

Mrs. Parker's 7/8th grade Geography students have been learning about various types of maps. Students worked to create and understand topographic maps. A topographic map is a detailed and accurate two-dimensional representation of natural and human-made features on the Earth's surface.

These maps are used for a number of applications, from camping, hunting, fishing, and hiking to urban planning, resource management, and surveying.

SCHOOL STORE

GRADES K-4 Open every Friday 8:10am - 8:55am
Come check out our selection of **NEW** items, school supplies and small toys.

Prices range from \$.25 to \$3.00.

All proceeds help offset Elementary field trip expenses

HEALTHY HEARTS

Mr. Koser's Elementary Health class learned all about the heart and lungs! Students learned about how blood travels in our body and how we breathe in oxygen and breathe out carbon dioxide. Kindergarten and 1st graders really took interest in how our hearts work.

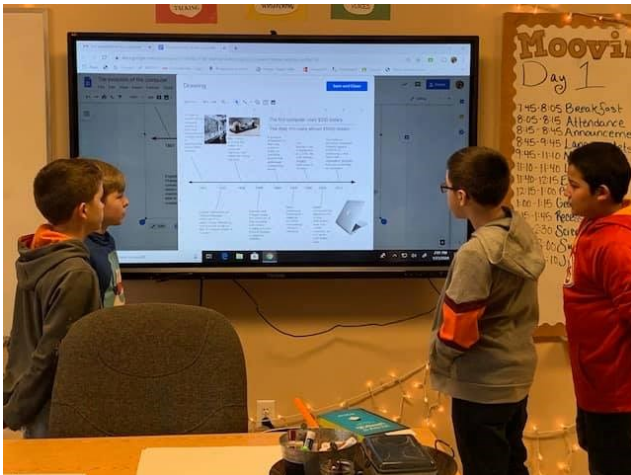

SVRCS would like to give a huge shout out to Mr. Koser for all of the hard work he does with our social media information. He is very busy teaching various health and physical education classes with grades from Kindergarten through 12th grade, golf season and baseball season coach, and being one of the schools Educational Tech Team leaders. Yet he still has time to gather information about our daily activities at school to keep our families and community involved.

THANK YOU FOR ALL YOU DO MR. KOSER!

Mrs. Lamey's Awesome 6th Graders

Students completed a Timeline Research Project on the Evolution of various "things" to go along with their Science Unit and the Evolution of animals! As groups they created presentations on the classroom smartboard using examples of how things change over time such as television sets to cars.

The class presented vocabulary words to each other through an activity using visuals to help each other understand the vocab words. These girls are explaining what an organ system is using a diagram they drew.

Celebrate!

SVRCS would like to congratulate their 148 students in grades 5-12 that met honor roll or high honor roll for the second marking period of the school year. This calculates to 47% of the school population from grades 5-12!!

In order to meet honor roll expectations, the students must maintain an average overall grade of 90% – 94.999% in all subjects. High honor roll expectations are met with an average of 95% to 100% overall for classes.

There was also a celebration at the end of the second nine weeks honoring students from kindergarten through 6th grade that achieved perfect attendance. Students gather together to congratulate their schoolmates on that accomplishment. At completion of the second marking period, a total of 125 students achieved perfect attendance. That is 25% of our student population!!

The staff loves seeing our kids here every day and we also appreciate all of the precautions our families take to ensure the health and safety of our staff and students. As cold and flu season are at their peak, we urge everyone to stay as healthy as possible and if you are sick and need to stay home, take your time getting well and we look forward to seeing you when you get back.
