

4-6 Grades

Making Masks Video

Just wanted to make it clear that the mask video I submitted is **NOT** an assignment. I posted it just to show you how to make one if you wanted to do it. If you do, please send me a picture on my school email.

However, check out the other assignments I would like you to do, especially those on [learning.com](https://www.learning.com)

Hope all of you and your family are safe and healthy. I am reading many books/novels as my dog, Boo Boo destroyed the tv remote and we have not received another! Please continue to practice social distancing and be kind to each other.
