

Update to April 15, 2020 Letter from the Superintendent

April 16, 2020

Yesterday, late afternoon, I received additional clarification of educational expectations from the Pennsylvania Department of Education. As a result, there will be a few revisions to our Continuity of Education Plan. At this point, our students should be utilizing Google Classroom activities posted by their teachers.

Beginning **on April 27, 2020**, planned Instruction will be implemented. This means that **NEW** material will be introduced. Students are expected to participate in the instruction. Student participation and attendance will be tracked. Various forms of assessment will be incorporated.

Anyone who is in need of a Chromebook or has other needs may contact our district via email techsupport@wyoingarea.org or via phone 570-655-2836, extension 2361. We will schedule Chromebook pick-up (curbside at the Secondary center) by appointment.

Please..... stay safe!

Janet M. Serino, Superintendent
