

Supporting You: A Peer Support Network

Support for Deaf/Hard of Hearing

What is Supporting You?

Supporting You helps connect individuals and families of children who are deaf/hard of hearing with a peer who has experienced a similar situation and/or circumstance in life. Our goal is for you to gain emotional support from a caring and compassionate peer, who shares a connection with you and is willing to tell their own personal story while they walk alongside you as you tell yours.

Supporting You is a peer-to-peer support network where you can:

Communicate
and connect

Share ideas
and resources

Gain
support

Find that you
are not alone

As a Support Peer, you can:

- Provide emotional support
- Build friendships
- Make a difference to someone else
- Learn from others

As a Connected Peer, you can:

- Receive emotional support
- Learn from someone who has “been there”
- Know you are not alone
- Learn about resources
