

Dear Parents/Guardians:

The Windham Ashland Jewett Central School District is overjoyed to announce its participation in Creating Rural Opportunities Partnership Program. (C.R.O.P.) This is an afterschool program that enhances children's learning through unique experiences as well as hands on educational activities.

C.R.O.P. will begin on Wednesday, October 16, 2013. This program will be held Monday through Friday for the first two weeks. After two weeks the number of days will be determined based on participation and attendance. The hours for the program are from 2:45 p.m. (dismissal)-5:00 p.m. Transportation (via the late bus) will be provided for students leaving the program at 4:00 p.m. For students participating in the program until 5:00 p.m. it will be the parents' responsibility to transport their child (children) at that time.

This is a federally funded program therefore, certain eligibility standards are required. For more information and an application please contact Bernadine Gribbins (Site Coordinator) at 734-3400 ext.1201.

We look forward to an exciting and productive school year.
