Once you have chosen your book **double click on the cover and the book will open**. Turning pages only requires a click. You will see the text.

The only reason I agreed to do this at all is because I figure later on when I'm rich and famous, I'll have better things to do than answer people's stupid questions all day long. So this book is gonna come in handy.

Like I said, I'll be famous one day, but for now I'm stuck in middle school with a bunch of morons.

MORONS

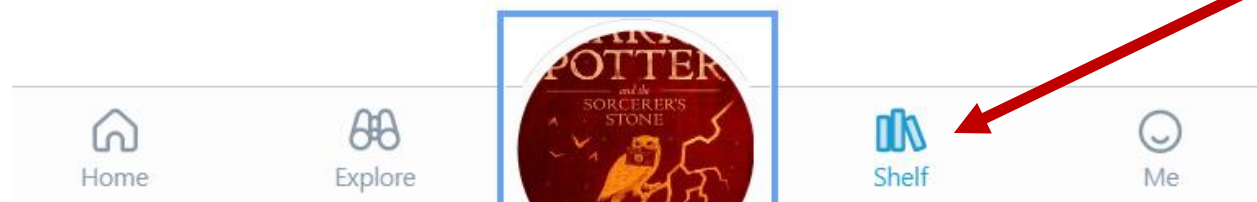

Let me just say for the record that I think middle school is the dumbest idea ever in. You got kids like me who haven't hit the growth spurt yet mixed in with these gorils need to shave twice a day.

And then they wonder why bullying is such a problem in middle school.

If it was up to me, grade levels would be on height, not age. But then again, I guess that would mean kids like Chirag Gupta

To access your book later go to your **shelf** (bottom of the screen) and you will see all of the books you are reading.

Spend some time learning how to use the Sora App.

HAPPY READING !!!!
