

Band Class

Dyson 4th Block

1. Research the 7 elements of music (rhythm, dynamics, melody, harmony, tone color, texture, and form). Next, create a Google Slides, Prezi, PowerPoint, or something similar presentation about the 7 elements. Each element should have its own slide (so you should have a title slide and at least 7 more slides...more is OK too). Describe each element and try to give an example of each (YouTube links are great for providing examples!). Be creative! ☺
2. Review your major scales. Then, go through the three lessons (links below) on musictheory.net
 - <https://www.musictheory.net/lessons/21>
 - <https://www.musictheory.net/lessons/24>
 - <https://www.musictheory.net/lessons/25>

Next, visit <https://www.musictheory.net/exercises/keysig> and complete at least 25 questions. When you finish, take a screenshot and email it to ldyson@lanettcityschools.org.

*you can try this as many times as you want, I will record your highest grade. Also, you can do more than 25 if you're close to a grade that you want.

3. Visit <http://www.therhythmtrainer.com/> You will complete this activity one on "Mode A" and again on "Mode B." You can choose fast or slow (I think fast is easier). Also choose:

Complete at least 25 in each mode (more is OK!) and then click "email results." Enter your name and your email address. Then, enter ldyson@lanettcityschools for the "email address to send to:" and click "send."

4. I would like to add some more "flavor" to our music selection this fall. Think about the elements of music that you learned about in Part 1 as well as our band and community.

Assignment: List for me at least (more is good if you want ☺) 5 songs that you think the band and audience would enjoy during football games.

- a. Make sure your songs are school appropriate.
- b. Tell me the name of the song, who sings it, and which version (if it has multiples).
- c. Pick your top 3 favorites and write one paragraph each telling me why we should play it and which instrument/section should play which part and why.
- d. Email your assignment to ldyson@lanettcityschools.org
