-

Friday, 5/1:

- Reading- Journeys Close Reader pages 100-105.
 - Math- iReady book pages 130-133.
-

Important Reminders:

*Your child may take an AR test at home now. We would like to encourage students to try to take at least 2 tests a week if possible.

*Please continue to have your child read aloud daily!

*Scholastic is offering free books and activities. You may have your child do one of these each day. This is totally optional, but is a great resource if you are looking for other activities. Here are the instructions to access the online activities:

-Go to www.scholastic.com/learnathome

-Scroll down and click first grade.

-You can then begin the daily book reading. It offers both fiction and nonfiction reading, along with a video. There is also an activity that goes along with the books that the students will enjoy!

*Continue to work on math facts (addition and subtraction). There are tons of online games to help with these skills. For an easier way to review math facts, simply make flashcards and go over them daily. If you need help finding a website for practice, please feel free to reach out to your child's teacher and she will be glad to help!

Please contact your child's teacher via Dojo if you have any additional questions.

Thanks!
