

In-Person Instruction Not Possible Given Columbia County COVID Numbers

This graph shows both the cases per 100,000 people, and the test positivity rates for Columbia County over weekly intervals.

- With over 200 cases per 100,000, Vernonia Schools are not eligible to re-open at this time.
- The test positivity rate of 7.4% is also on the rise.
- If these trends continue Vernonia School District will have to postpone its planned return of K-2 students on January 11, 2021.

Please do your part to help, by maintaining strong handwashing habits, maintaining social distance, and wearing your mask. These measures will help get our kids back to school and help ensure they stay there.
