## COVID-19 EXPOSURE

Dear Parents and Families,

This is notification that a child or staff member at our school has been confirmed to have COVID-19 and your student may have had direct contact with the individual. Per CDC, any individual who has had direct contact with a diagnosed case of COVID-19 will need to isolate for 14 days after the initial exposure. While observing the 14 days of quarantine, if your child develops COVID-19 symptoms, first call your family doctor, then please notify your School Health Services team member. If you do not have a regular doctor to care for your child, contact Polk County Health Department at 863-519-7911 for instructions on how to proceed.

**What we are doing to help prevent the spread of COVID-19:** All of Lake Wales Charter Schools are committed to keeping our students and staff safe. We have contacted all parties who have had exposure and requested that they self-isolate and monitor for symptoms. In addition to our routine cleanings, the space that the known case was in will be shut down and thoroughly cleaned per sanitization regulations.

**What you can do at home to help prevent the spread of COVID-19:**

- Practice routine cleaning and disinfecting of frequently touched surfaces.
- Wash hands often; use a hand sanitizer that contains at least 60% alcohol if soap and water are not readily available and hands are not visibly dirty.

For additional information and guidance with COVID-19 exposure please visit <https://www.cdc.gov/>.
