Philosophy POLICY NO: 102
PAGE 1 of 1**

The board of trustees believes that this school district should provide the finest administrative, instructional, operating staffs and physical facilities it can obtain with the limitations of the community's ability and willingness to furnish financial support.

The board believes that, so far as is administratively and economically feasible, each student should be treated as an individual with his or her own particular capabilities, aptitudes, and personality. The student should be an active participant in the learning process, and not simply a passive observer of knowledge. He or she should learn where to look for and how otherwise to acquire information.

The board believes each student, regardless of whether he or she chooses a vocation or further formal education, should have satisfactorily completed a basic course of study as outlined in the current board policy before being awarded a high school diploma.
